1. (S/NF/SK) MISSION: Report on suspected drug-transporting vessel, identified by encrypted coordinates 422960/351900.
2. (S/NF/SK) VIEWER TASKING: Source was given encrypted coordinates; when viewer identified target as a "ship," monitor acknowledged target was a vessel.
3. (S/NF/SK) COMMENTS: Source had good signal line connection, identifying first that a vessel was the target, then giving accurate details describing the specific vessel, and correctly identified and answered EEI questions without being told what the questions were. At end of session, source veered somewhat into AOL, and session was ended for the time being.

somewhere north of Cuba
heading ENE

This person is something like a First Mate, he is kind of short, stocky, solid build, a large, thick, bushy moustache, he speaks ^{english} with a heavy accent — he is not aware of any illegal cargo aboard this ship — if there is any, it is there without his knowledge — and it is his job to supervise the loading and unloading of cargo — it appears that he is responsible for the ship's manifest
