① - I first saw an area with green grass and several tall trees. It was an area that was very well taken care of. I also saw a road here. The view was very scenic.

② - Then I kept getting the impression of something moving in a circular direction and it had a slapping sound.

③ - Then I saw big books with big pages. Someone was turning the pages. The book dealt with people.

④ - Then I saw structures in row and they reminded me of houses or homes and there was a looking up, changing, moving going on here. People were being moved or relocated. I think that people met someplace to look at something or to hear someone speak. I could not see.
