Evaluator's Estimate :
- E. SESSION SUMMARY:

The destination of the target aircraft is **MONTERREY**, Mexico. The scheduled ETA is between **4:00 PM and 7:00 PM**. However, I still sense rain falling at the landing location; I sense that this may delay all flights into Monterrey by about two hours. **9:00 PM** seems to be bouncing around somewhere out there.

A city or town somehow involved with the movement of this cargo has the word "**RIO**" in it; maybe **DEL RIO**. My sense is that the intended direction of movement is almost due north of the landing site.
