SUBJECT

Protection of Human Subjects in Research (U)

REMARKS

1. (U) PURPOSE: To provide the status of DIA's participation in the conduct or support of intramural or extramural human subject research.
2. (U) BACKGROUND: The memorandum opposite provides the DIA response to requirements set forth in ESO tasker #710.
3. (U) DISCUSSION:
 - a. (U) DIA has determined that only one program (Project STAR GATE) falls within the definition of human subject research. This research is conducted in two areas: in-house activities conducted by DIA civilian personnel and external research activities conducted under DIA contract with the Science Applications International Corporation (SAIC).
 - b. (S/NF) Both the DIA and DoD General Counsels have determined that the STAR GATE Project constitutes experimentation on human subjects. As required by Procedure 13 of DoD Directive 5240.1-R, approval for project activities has been granted by the Deputy Secretary of Defense. DIA personnel involved with in-house investigations are required to sign a Statement of Consent form approved by the DIA General Counsel. External research conducted by SAIC is in full compliance with all applicable laws, Federal regulations and DoD instructions.
4. (U) RECOMMENDATION: That DR sign memorandum opposite.
