

### Summary of Information

The target is located on the eastern shore section of Maryland just north of the town of ROCK HALL near the intersection of map grid lines 7/8 and 62/63.

The tail section of a small airplane is located in this location. It feels as if this tail section has moved, or been moved, from it's original location to that of another.

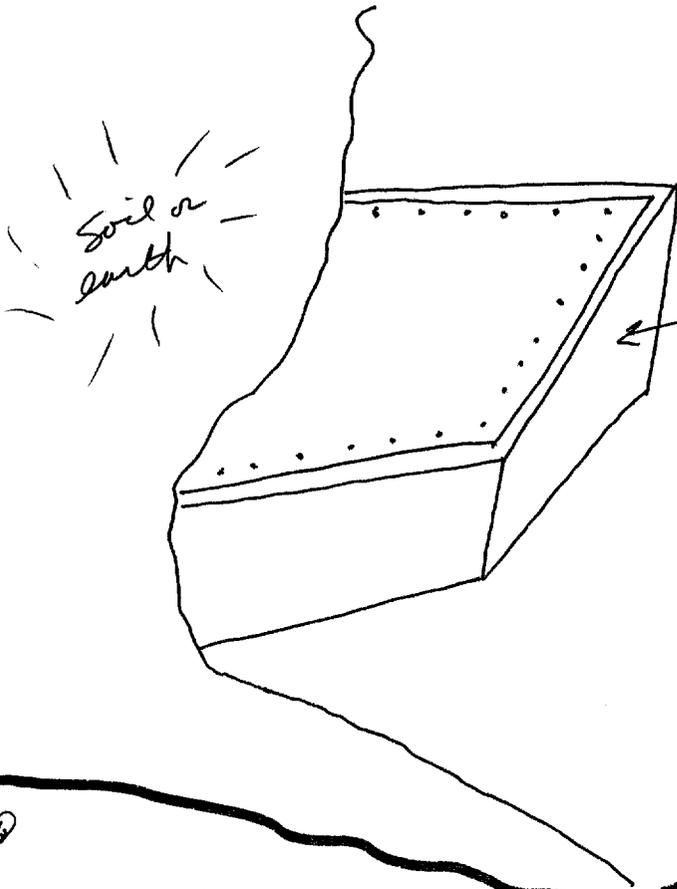

The tail section sets in an area of dark blue/black liquid. There is steep terrain reminiscent of cliffs above this locale. There is a dark metal object embedded in the surrounding soil or earth nearby the tail section. A wooden framed object is lying on the ground along one edge of the area.

There is a complex of two-story houses, mostly light brown or yellow, separated from the target area by a large rolling field. Between the field and the target is a series of dirt piles with rusting metal objects occurring throughout (see page iii for further geographic/topographic details).

A large spread-out town or city lies south of the target area. There are lots of trees with open spaces between the structures. There is a gray-blue haze in the air.

The following words were perceived: RIVER...REED; RIVERTON; RIVERSTON; and REED RIVER.
