SUMMARY OF INFORMATION:

1. (S/STD) Locate the vessel being tracked by a federal agency on the map provided (see Fig. 1): Repeated searches indicate that, as of 0930 hrs, 30 MAR 90, the target vessel was located at approximately 23 deg N / 84 deg 30 min W (see map, Fig. 1).
2. (S/STD) Describe the vessel: The vessel appears to be a pleasure-type boat of "yacht" size. It is white with a black stripe going along its side. The black stripe has something fancy near its front. The railings and the deck feel "rubber coated". There is a "superstructure" about mid-ship which has a sloping-backwards front to it. It is tan and brown, looking like wood. The ship is very sleek in appearance.
