WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

-----

PROJECT NUMBER: 9009	SESSION NUMBER: 2
DATE OF SESSION: 26 Mar 90	DATE OF REPORT: 30 Mar 90
START: 1231	END: 1344
METHODOLOGY: crv	VIEWER IDENTIFIER: 018

-----

1. (S/STD) MISSION: Provide information on narcotics-smuggling operation.
2. (S/STD) VIEWER TASKING: Encrypted coordinates, plus three EEI (see attached tasking sheet).
3. (S/STD) COMMENTS: No Physical Inclemencies.
4. (S/STD) EVALUATION: Some descriptive information is not in harmony with operational data provided. Of interest is the description of the transfer vessel being noticeably smaller than the receiving vessel. This contradicts the operational data about vessel size, but agrees with several other viewer results. Confidence estimate: 45%
5. (S/STD) SEARCH EVALUATION: ~~Transfer location from Map 4 is plausible. Confidence estimate: 60%~~

WORKING PAPER

Project: 9009  
Date: 900326  
Time: 0913-0937  
Viewer: 018  
Session: 02

SUMMARY OF INFORMATION:

7  
1. (S/STD) Describe the originating vessel: The boat from which the contraband originates looks very much like a speedboat, but I was repeatedly impressed by its size and width. It is built almost completely for power, and is the size of a tugboat, in spite of its speedboat appearance. It is white in color and has lines along its side, like siding on a house. These lines are patterned differently in the very front (see Fig. 1). It came to the receiving ship from a peninsula of land, where a group of structures overlook the water (see Fig. 2). It is much smaller than the receiving ship.

2. (S/STD) Determine where within the marked borders on the map (Fig. 3) where the receiving ship will offload its cargo: The receiving ship appears to unload its cargo along the southern part of Alaska, just north of the Aleutian Islands (see Fig. 3). *56° N / 162° W Sand Point Alaska*

3. (S/STD) HF radio will be used. Determine:

a. Frequencies used: If one were to lay the HF spectrum over a spectrum of visible light (rainbow), the receiving ship's frequency would be located at light green. Another frequency was also noted, coming from a northeasterly direction, somewhere on land. This frequency would be at

Handle Via SKEET Channels Only

~~SECRET~~ STIPPLED NOFORN  
SPECIAL ACCESS REQUIRED

purplish-blue on the spectrum.

b. Callsigns used: I got the impression of two callsigns: one, heard on the purplish-blue frequency, sounded like "Edmundson" or "Edmontson". The other, heard on the light green frequency, sounded like "Florin" or "Florintine".

c. Languages used: Listening to the person on the light green frequency, no definitely identifiable words were perceived. I got only mush-mouthed, nasaly-guttural, and very irritating sounds from a man with an otherwise deep, attractive voice. The language is almost certainly French.

TASKER

1. PROJECT: 9009
2. ENCRYPTED COORDINATES: 876349/120917
3. BACKGROUND: Project involves a contraband narcotics smuggling operation.
4. ESSENTIAL ELEMENTS OF INFORMATION:
  - A. Describe in as much detail as possible Vessels B (originating vehicle).
  - B. Within the the borders of the given area on Map 2, determine where Vessel A will offload its cargo of narcotics.
  - C. HF radio is expected to be used during the operation. Determine to the best of your ability frequencies, callsigns, and languages to be used.
5. COMMENTS: EEI are listed in order of importance. If requested search locations are not within the borders indicated, please so state.

REPORT OF REQUESTED INFORMATION

Requestor Task #	<u>JTF5-007-90</u>
ACSI Task #	<u>9009</u>

Source #	<u>018</u>
Rcvd. by Source	<u>3/30/90</u>
Returned to P.O.	<u>3/30/90</u>

ESSENTIAL ELEMENTS OF INFORMATION REQUESTED IN ORDER OF PRIORITY

1. (Provide) Detailed description of suspect Vessels (A) & (B) (i.e. length, configuration, color, name, type, do they have helo?)

RESPONSE: (A) RECEIVES CONTRABAND HAS LARGE "THINK" ON REAR. LARGES, GREY+BLACK, VERTICAL SUPERSTRUCTURE, RED+WHITE FLAG. LARGE OBJECTS ON FRONT. (VESSEL B): DELIVERS DRUGS TO A. SPEEDBOAT SIZE + STRENGTH, WHITE.

2. Date, time, and position of transfer between A & B, and description of any other vessels, with name, they plan to meet.

RESPONSE: WHERE: NORTH-EAST PHILLIPINES ISLANDS. WHEN: ~~ON~~ OR ABOUT 23 MAR 90. RECEIVING SHIP SHOULD DEPART ON OR ~~BY~~ ~~THE~~ ~~TRANSFER~~ ~~WAS~~ ~~NOT~~ ~~ADDRESSED~~ ~~BY~~ ~~OLB~~. ABOUT 26 MAR 90.

3. Which, if either, of the two positions is intended as primary offload for the Vessel A (i.e., 47N/175W or near Kodiak Island)

RESPONSE: OFFLOAD WILL BE ON SOUTHERN COAST OF ALASKA, JUST NORTH OF ALEUTIAN ISLANDS (SEE MAP)

4. (A) Are they or will they use High Frequency radio? (B) What frequencies? (C) What time of day? (D) What language? (E) Callsigns involved. (5 QUESTIONS)

RESPONSE: (A) NOT ADDRESSED TO OLB. (B) HIGH OF MIDDLE OF BAND USED. ANOTHER (LAND BASED) USES FREQ VERY HIGH IN BAND. (C) NOT ADDRESSED TO OLB (D) FRENCH (E) (APPROXIMATIONS) ~~LAND BASED~~ "EDMUNDSON" OR "EDMONTSON". ~~RECEIVING SHIP~~ "FLORIN" OR "FLORINTINE"
