SUMMARY

Since the onset of ~~hostilities~~ in the southern portion of Beirut, the hostages are ~~being moved~~ more frequently and find themselves ~~sleeping in warehouses~~ (with dirt floors), churches, single structures and even in ~~underground~~ (tunnel?) areas. Both Terry Waite and Terri Anderson are currently located in a structure situated about twenty-five miles east of Beirut International Airport. Specifically, Waite and Anderson are located at about 1.5 miles southeast of "CHTAURA". The target structure is a single story structure ~~surrounded by a wall~~. The target site is some sort of memorial, but not a cemetery. From the air, tire tracks can be seen to end abruptly; the presence of dead flowers by the tire tracks are indicative of where the ~~hostages~~ are ~~held~~. In the recent past, the captives have used trucks to ~~transport the hostages~~ from one place to another. The trucks were borrowed from a nearby "indigo" ~~oil and processing plant~~. The trucks are very dirty and no one bothers to search them. More often than not, the hostages are ~~placed in boxes~~ that ride on the flatbed portion of the truck. Although they are having a difficult time, these hostages have it a great deal easier than USMC LTC William (Rich) Higgins at this time. (See report of 2 June 1988 conducted under Project 8808). The month of ~~June 1988~~ marks the beginning of a ~~transition of power~~ taking place in Iran (as previously reported in March 1988). However, the full effect of this transition will not be felt until August 1988. Terry Waite continues to wage his personal brand of ~~psychological warfare~~ against the captors. Waite will machinate some sort of

lie, half truth that will seed ~~panic and concern~~ among the captors. The captors will telephone influential political figures in Iran to confirm or disprove Waite's claims. Waite will be ~~released in August~~ along with (two) other hostages (as previously reported). Terri Anderson's release will follow Waite's release from captivity, also in late August (as previously reported). Terry Waites' brother-in-law is somehow involved in ~~present negotiations~~. Bobby Anderson, Terri Anderson's brother, is also trying to help. Generally speaking, the entire issue of the hostage situation (and their release) is being ~~held on hold~~ pending the outcome of the Iranian transition in power and the ~~cessation of hostilities~~ in the southern portion of Beirut. The hostages are aware of the Iranian transition in power and are buoyed by the ~~possibilities~~ ~~of release~~; however they will despair anew until such time as the Iranian political power base is in fact established and effective, in August 1988.
