

22 October 1979

MEMORANDUM FOR MEMBERS OF GRILL FLAME SCIENTIFIC  
EVALUATION COMMITTEE

SUBJECT: Scheduled Activities

1. We have finally succeeded in obtaining access to information that we have previously sought, and I have made arrangements to hold discussions in place. We also are planning for some members to visit with Dr. Hawk at Lawrence-Livermore Laboratories, and I think it is essential to have one concluding executive session in Washington prior to wrapping up the final report.

2. The future scheduled activities are as follows:

a. Visit to Wright-Patterson AFB near Dayton, Ohio early am 1 Nov to approximately 5:00 pm. (We are trying to arrange military aircraft for those in the Washington area.)

b. Proceed by commercial air on the evening of 1 Nov from Dayton to Orlando, Florida; approximately 10:00 pm arrival. (Will transmit flight schedule and suggested overnight accommodations at a later time.)

SG1A

3. A visit has been scheduled with Dr. Hawk of Lawrence-Livermore Laboratories for 6 November, for those interested to attend.

4. There will be an executive session at the Pentagon, Room 3E385, 9 Nov 79, 9:00 am to 2:00 pm, in order to reach a Committee consensus on the findings and recommendations for the final report. It is important to have this meeting and I would appreciate your attendance.

5. I invite as many of you as possible to participate in the above activities and especially in the meeting on 9 Nov. Jeannie will be in touch with you to ascertain your plans and to help you with any arrangements which you may need.

6. Enclosed you will find a brief overview I composed, because I was compelled to spell out some of the essential differences in PS activities.
7. Please submit your assigned tasks to me as soon as possible. (Please ignore this if you have already done so!)
