Dear Manny:

Please accept my apologies, but the month of October has been an impossible one for me. Nonetheless, attached are the items which you requested at our last committee meeting.

First, I have enclosed copies of the revision of pages 7 and 8 of my previous report; secondly, there are comments, as it seems appropriate, on various portions of the handouts in the black looseleaf binder you provided last time. Thirdly, I have included some comments as per your request on the AMSAA effort, based upon our visit of 28 September.

I trust these will be useful in our final wrapup. Please let me know if you desire anything further.

Sincerely,

Harry L. Snyder, Ph.D.
