C/S ®

1. I think this is a minor trick for DIA to have some time to get the "spaces".

2. The people in CL are from "other spaces" in INSCOM where we need fill. If they are detailed, we cannot fill the spaces. However, my main concern is that the detailed people are ours. If anything goes wrong or

whatever, they are "my guys" when I said I was out of the business. INSCOM will look dumb.

Let's try to get spaces.
