Summary of Information

Vessel seems to be larger than the average pleasure/fishing craft, steel construction, white superstructure that seems to extend a large percentage of the length of the ship. There is a small amount of red trim, and the hull is a dark color, perhaps dark blue. Ships railing are varnished wood, and there are white, covered lifeboats. Impression of small cruise vessel, but more utilitarian in purpose--perhaps container ship. Vessel is presently vic 2150N/6730W--about 200 miles ^{East} ~~West~~ of Turks/Caicos Islands.

Contraband is white, has a stinging smell to it, and a texture like salt. There is a sense that the material occupies a relatively small portion of the vessel's bulk. Material is located slightly to port and slightly forward of midships, below the deck line but above the waterline. It seems the vessel intends to carry contraband cargo through to final destination. Two places identified. Strongest indication was Savannah, Georgia area, but a secondary indication in the Tampa/St. Petersburg area.

Vessel is large, metallic - white superstructure w/ slight red trim. Dark hull - perhaps dark blue. Obs. Superstructure aft, but runs forward as well. Few of ~~small~~ "like" small cruise ship, but seems more utilitarian - maybe container. Larger ship pleasure & most fishing craft.

Transfer seems not likely - "like" vessel will "ride it all the way in" - -
