METHODOLOGY: solo

VIEWER IDENTIFIER: 079

1. (S/STD) MISSION: Provide information on narcotics-smuggling operation involving a series of callsigns.
2. (S/STD) VIEWER TASKING: Encrypted coordinates plus listed callsign (See attached tasking sheet)
3. (S/STD) COMMENTS: No Physical Inclemencies.
4. (S/STD) EVALUATION: Since no "ground truth" operational data is known for comparison, no objective evaluation can be made of viewer 079's results. However, from what this analyst knows of the coastal geography vic Seaside, CA, it would not be possible for a "medium-sized cruise ship" to put in there, though a few miles further south in the Monterey Harbor area, access for such a vessel might be marginally possible. Validity of other information is unknown. Confidence estimate: 30%
5. (S/STD) SEARCH EVALUATION: Same as para 4.
