

26 August 1983

EXECUTIVE SUMMARY

SUBJECT: CENTER LANE Involvement with Monroe Institute of Applied Sciences (MIAS) (S/CL-4/NOFORN)

1. (S/CL-4/NOFORN) HISTORY:

Activity with MIAS techniques by this office began in April 1978. On 11 September 1980, Robert A. Monroe was granted a SECRET security clearance. After a complete evaluation of MIAS, advanced training for source personnel began in March 1982.

2. (S/CL-4/NOFORN) ADVANCED TRAINING PLAN:

- a. Phase I: In-house application of Discovery Series.
- b. Phase II: Attendance at Gateway Program.
- c. Phase III: One-on-one training with Monroe under laboratory conditions.
- d. Phase IV: Application of Hemisync tapes during collection operations.

3. (S/CL-4/NOFORN) STATUS: Beginning Phase III.

a. Training is to enhance ability of selected CENTER LANE source personnel. Training will be specifically tailored and designed to meet the requirements of this office and extend beyond the confines of the public program currently offered at MIAS. Training is expected to last ten weeks and will include:

(1) Instruction in the use and application of nonintrusive biomonitoring equipment employed by the consultant.

(2) Instruction in and the development of Hemisync tapes, custom made for project sources.

(3) Instruction in monitoring techniques used during the Hemisync Process.

(4) Instruction in the use of environmentally controlled areas during the Hemisync process.

(5) Instruction in the application and interpretation of information reported through the use of the Hemisync process.

b. Monroe has been paid \$24,400.00 (ICF) for this training which will begin in the fall of 1983.
