ORD-0143-95

MEMORANDUM FOR: Associate Deputy Director for Military Affairs
Office of Military Affairs, DO

SG1I

FROM: [   ]
Director of Research and Development, DS&T

SUBJECT: Request For Military Liaison Support

1. We have been tasked by Congress to transfer to CIA a
sensitive program currently underway at DIA. In accordance
with Congressional direction, it also is necessary to conduct
a retrospective evaluation of this program. Five years ago
the Army Research Institute (ARI) tasked the National
Research Council (NRC) to conduct a program evaluation on one
of its own programs. This Army program involved "new age"
training techniques directed at enhancing human performance.
During review of the Army program, NRC considered some of the
core issues we are likely to encounter in evaluating the DIA
program.

2. We would like to contact ARI in order to determine
the success of the NRC program evaluation and to gain better
insight as to how to conduct our own review. We would also
like to know if ARI further pursued it's training program and
what results might have been obtained. In addition, it might
be useful to seek participation by appropriate personnel at
ARI in the review of the DIA program. The original requester
of the 1985 ARI study was Edgar M. Johnson, Technical
Director of ARI. George Lawrence served as the ARI liaison
to the NRC Committee on Techniques for the Enhancement of
Human Performance. We would like to contact these two
individuals directly.
