

February 23, 1953

Mr. Miles E. Heid
Rm 252
Brink-Riddison Air Force Base
Ohio

Dear Mr. Heid:

This letter packet describes progress for the period from January 11, 1953, to February 20, 1953.

24 sighting reports have now been processed up to and including October 15, 1952. Evaluation of sighting reports has been completed for sightings up to and including July 31, 1952.

Preliminary analysis by IIR sections of data from sighting reports dated before 1950 began on January 20, 1953. This work is continuing, and results of the analysis will be forwarded informally to Captain Ruppert as soon as they are available.

One two-day evaluation conference was held during this report period, on January 23 and 24, 1953. Because only one USAF representative was available to participate in the conference, less than the usual amount of work was accomplished. (Usually, 150 to 200 cases can be evaluated during a two-day evaluation conference. On January 23 and 24, 1953, 60 cases were evaluated.)

Coding and evaluation of 1952 sighting reports is continuing, with evaluation conferences scheduled as they are necessary. All sighting reports remaining for the year 1952 should be processed by March 15, 1953. By that same date, all sighting reports dated prior to September 1 are expected to be evaluated.

Very truly yours,

William T. Heid

William T. Heid
