

tends to prove this contention. The Air Force continues to extend an open invitation to any individual or group, which feels that they possess any evidence that would prove or tend to prove the existence of extraterrestrial vehicles operating within the earth's near space envelope, to submit their evidence for analysis. Initial contact for this purpose may be through the address given below.

Project Blue Book Information Officer

 The Pentagon
 Washington 25, D C

Since UFO's appear in the sky it is reasonable to assume those interested in this phenomena turn to the sky. The attached bibliography contains books that will enlighten the reader on the things he sees and why he sees them. (1961) also saw the publication of The World of Flying Saucers, authored by Doctors Boyd and Menzel. While the Air Force may differ in some instances with the evaluations of certain cases with these authors, the text certainly goes a long way toward explaining some of the various forms a UFO may take, as well as some of the objects reported as UFO's. This is without question the most significant literary effort on the subject to date.

The unidentified aerial phenomena files remain open for review by bona fide bona media representatives and bona fide scientific researchers.

Anyone witnessing an unidentified aerial sighting should report it to the nearest Air Force base as soon as possible.
