

CONCLUSION

To date, the firm conclusions of Project Blue Book are: (1) no unidentified flying object reported, investigated, and evaluated by the Air Force has ever given any indication of threat to our national security; (2) there has been no evidence submitted to or discovered by the Air Force that sightings categorized as UNIDENTIFIED represent technological developments or principles beyond the range of present-day scientific knowledge; and (3) there has been no evidence indicating that sightings categorized as UNIDENTIFIED are extraterrestrial vehicles.

The Air Force will

The Air Force will continue to investigate all sightings of unusual aerial phenomena over the United States which are reported to it. The services of qualified scientists and technicians will continue to be used to investigate and analyze these reports, and periodic reports and press releases will be made on the subject as requested.

The Air Force takes no stand on whether or not extraterrestrial life exists or does exist. Many scientists believe that it is entirely possible that the universe contains life on planets other than our own. No evidence yet exists that there is other life. The Air Force continues to extend its open invitation to anyone who thinks that he possesses any evidence of extraterrestrial vehicles operating within the earth's space envelope to submit all evidence for analysis. Initial contact for this purpose is through the following address:
