

Case VE (Serial 2738, 68)

A Flight Sergeant saw an object over an Air Force base in Eron at 0842 hours on June 6, 1952. The object flew in a series of spinning and tumbling actions. It was on an erratic course; first flying level, then stopping momentarily, shooting straight up, flying level and again tumbling, then changing course and disappearing into the sun. It was spotted and was seen flying back and forth across the sun. At one time an F-86 passed between the observer and the object. He pointed it out to another man who said it as it maneuvered near the sun.
