

Case VIII (Serial 6576, 88)

An electrician was standing by the bathroom window of his home, facing west, at 0825 hours on July 31, 1946, when he first sighted an object. He ran to his kitchen where he pointed out the object to his wife. Total time in sight was approximately 10 seconds, during which the object flew on a straight and level course from horizon to horizon, west to east.
