

CODESCODE 1. GENERAL

- a. These codes (and the corresponding CODE NUMBERS) contain data from several sources. Columns referenced to the U. S. Air Force Technical Information Sheet (Form 2) must have at least one entry. If no data are available for any column, the X (or 11 punch) should be used.
- b. Columns 25, 26, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51 are calculated from data occurring in the U. S. Air Force Technical Information Sheet (Form 2). If the basic data for these calculations are not available, the appropriate columns are left blank.
- c. If a number in any column is used to enter data, then X (or 11 punch) qualifies the data as indicated in the Code for the specific column.

CODE 7 SIGHTING IDENTIFICATION

(This column may or may not contain multiple numbers)

CODE 26 LOCAL SUN TIME

(Before 12 data of U.S.T. observation)
