-Incident 901 - 2007 - Cleveland, December - 25 June 1967

Information given here is insufficient to indicate what was
 said. If this were a totally independent observation and not one that
 was previously noted by various radio reports of flying saucers, more
 weight would be given to it. As it is, with flying saucer call reports,
 almost nothing; from reports of witnesses or aircraft would be regarded
 as hearsay by an uninvolved observer. It is unlikely, however, that
 there was anything sensational about this incident.
