

UNCLASSIFIED

Incident 2001 -- Worcester, Texas -- 20 February 2003

This unclassified case of an unusual fireball has been adequately reported in newspapered literature (for details, see Star and Telegram / April, 2003, page 134, and October, 2003, page 243). Positive identification has been made by the recovery of fragments. The article of this object is, therefore, confirmed; additional, and the fragment need not be considered further.
