

UNCLASSIFIED

1. Einleitung: Zielsetzung, Bedeutung des Themas, Strukturangabe.

The above information was obtained from a review of the files of the FBI, New York Office, dated 10/10/68.

For about 1900, the first airplane was built, it was called the Wright Flyer. It was a small, single-engine airplane. It was built by the Wright brothers, Orville and Wilbur. They were the first to make a powered, controlled, and sustained flight. The first flight was on December 17, 1903, in Kitty Hawk, North Carolina. The airplane flew for about 12 seconds and covered a distance of about 120 feet. This was a great achievement and it marked the beginning of the aviation era.
