Report also on page 1000 -- 10 January 1944.

There is nothing in the way of description of this
 incident that provides the possibility of the object being
 accurate. The description could also allow for their being several.
 However, the inclusion of the object name has not been sym-
 bolized.

As in the case of the other objects of this type
 after examination refers to the "Type 100" object, stated
 from the source.
