

Incident No. 30 - 1 July 1953, 2300 hours, Boise, Idaho. An airline pilot and crew watched from the air two groups, 15 and 12 members of objects described as thin and smooth on the bottom and round on top, illuminated against sunset and flying "loose formation." They followed them for forty-five miles; therefore, had them in sight for approximately ten minutes. No further information was available.

AIR CRASHES Since the sighting occurred at sunset, when light conditions change rapidly and illusory effects are most likely, the objects could have been ordinary aircraft, balloons, birds, or pure illusion. No sufficient information.
