

Incident No. 105 -- 16 Oct. 1945, 1145 Hours, eight miles
west of TAVELAND, TEXAS.
One observer at altitude of 9000 ft heard a knocking noise, then saw
one object 9 inches long, three inches thick, and six inches wide
traveling horizontally at 300 MPH, 500 ft overhead. It was black with
a wide silver stripe on underside center. Investigator doubts ob-
server's ability to estimate distances in past. In sight approx-
imately four seconds.

AMC Synopsis: Information indicates no explanation.
