## STATE OF TEXAS

I. ~~UNCLASSIFIED~~

## A. Files

All of the material in ATID that relates to sightings of unidentified aerial objects has now been filed and cross-indexed. Over 600 reports have been cross-indexed under the main divisions of:

1. Time of Sighting
2. Shape
3. Size
4. Course
5. Number of Objects Seen
6. Sounds
7. Date
8. Location
9. Description of Source
10. Color
11. Apparent Speed
12. Apparent Altitude
13. Length of Time Observed
14. Remarks
15. Conclusions

In many instances it has been difficult to establish sub-divisions due to the great variety of descriptions. In these instances, certain broad categories were established.

## B. Location of Additional Files

The D/I library files were searched during the past month and approximately 50 additional incidents were located. Copies of these have been requested. It is believed that the ATID file on unidentified aerial objects now contains a large majority of all incidents reported to the Air Force since 1947.

## C. Directives for Reporting Incidents

A new proposed directive for reporting sightings of unidentified aerial objects has been sent to the D/I for approval and distribution. This directive will replace existing directives and provide more detailed channels for reporting sightings. @

## D. Project Details

This Center has been receiving a number of reports on the phenomena which has been termed "green fireballs". This specific phenomena has been
