II. SPECIAL REPORT ON CONFERENCE WITH 14 PROFESSIONAL ASTRONOMERS

During the past summer a professional astronomer, under contract with STIC as a consultant on Project Blue Book, held conferences with 14 professional astronomers in the U.S.A. and submitted a report of his findings. These people were either contacted on trips or at professional society meetings. Of these, 5 had observed objects or phenomena they could not readily explain. The feelings of the 14 astronomers toward the investigation of unidentified flying objects were as follows:
