

HEADQUARTERS
AIR KATHLEEN GOODARD
Wright-Patterson Air Force Base
Dayton, Ohio

WGLAD-1/04/74
Jan 5 1974

WGLAD

SUBJECT: Project "HIS"

TO: Chief, Air Weather Service,
ADDRESS: Air Force Base,
Washington 25, D. C.
ATTN: 100

1. Project "HIS" is responsible for the collection, investigation and interpretation of data relative to sighting of unidentified flying objects. Attached Enclosed Summaries 1 thru 125 from the files of Project "HIS" are forwarded for study and dissemination as to which of the incidents may be classified as balloons released as routine synoptic ascents by the Air Weather Service, the Navy Aeronautical Service or the United States Weather Bureau. The summaries attached may be retained in your headquarters for working and reference purposes.

2. The Air Weather Service is the only agency of its type that has been asked to assist in the accomplishment of Project "HIS" except that the United States Weather Bureau has provided information on ball lightening. Research projects in which balloons are used and which are conducted or sponsored by the Army, Navy or United States Air Force are checked by the Intelligence Department of White Command. These checks are usually made direct from the Project "HIS" Office, WGLAD-1. These checks are distinct from the check of synoptic balloon flights made by weather service stations of the Air Force, the Navy and the Department of Commerce. (U. S. Weather Bureau) requested of Air Weather Service.

3. It is the opinion of this office that the herein listed incidents are those having the greatest possibility of being balloons. This list does not eliminate the possibility that any of the remaining incidents are balloons.
