UNCLASSIFIED

Tusculum, Florida

4 January 1953

I. Description of Incident

At 2540 W a civilian employee of Patrick AFB observed an unidentified aerial object for three seconds. Source compared the object to a flying wing and said that it was at an altitude of two thousand feet, flying at about 500 mph in a SWW direction. Source saw at least 3 blue lights on the lower surface of the object. The weather was cold and clear with 1140h or so wind. No other person observed the object.

II. Character of Incident

The source appears to be an unusually reliable and experienced observer.

III. Conclusion

Unknown
