

UNCLASSIFIED  
SECRET

Finland, Minnesota

February 1953

I. Investigation of Incident

An 0409 COT on unknown object appeared on a radar scope on a bearing of 155° at the 140 mile range. The object appeared on the scope as being twice the size of an ordinary aircraft.

II. Description of Incident

The radar station involved sent 4730 an Electronics Data Sheet covering the sighting and from this, electronics specialists determined that interference from another radar station caused the presence of the unknown "ship". No visual observation was made at any time.

III. Conclusion

Interference.
