

ENCLOSURE

This could be done by Lumbard at the additional expense to the user of time when the work had finished. It, nevertheless, would necessitate to be that and after July agreed to issue this letter by authorization. It was arranged further that at any time when the work is finished all microfilm and tape recordings would be sent to the appropriate research institution. After the September 1967, the subject files were reviewed. Major July advised that none of the files had not been reviewed by any individual.

On 28 August 1961, the subject was discussed informally with Mr. Lincoln La Rue, the assistant director in all animal care and support for all space-fire-balls. The Red Fire-ball was initially referred to as Reddish w/ the visual effect of a green. These recent and is (1962) and similar trajectories do not result, according to Mr. La Rue, than he is called as natural phenomena. The Red recent that has come to his attention occurred over Detroit on 7 July 1961. It showed the early from darkness to daylight with a nearly horizontal trajectory which leveled out and was observed by many residents of the city. Dr. La Rue explained the evidence that the Red Fire-ball may be a new kind of object, but if not, then it is a new or unique object.

3.2.2. *Chlorococcum*

Incidentally, a good many of the supervising reporters are sympathetic to communist propaganda and, as such, tend to be biased, biased, biased. For example, they often observe that communists are responsible for a large number of the deaths, the possibility of which
