

RECOMMENDATIONS

1. That the research value and range of reports of unidentified flying objects be reviewed in scope.

2. That current collection directives relating to evidence with flying objects be revised to provide for the collection of only those reports clearly indicating reliable witnessed occurrences.

3. That Conclusions 1 and 2 of this report, with sufficient supporting data to declassify, are made public in the form of an official press release.

4. That psychological warfare divisions and other governmental agencies interested in psychological warfare be informed of the results of this study.

5. That such agencies coordinated in and provide further review materials for public release of material as recommended in Para. 2 above.
