Comments of Preparing Officer:

1. Report was apparently submitted to Garden Grove and Washington Interstate Airways Communications Station by the observer, by those stations to Washington Air Route Traffic Control Center (GAA), and by that center to United Flight Service Center, which submitted the REPORT. This processing may have allowed errors in the report.
2. If only one object was involved, which is indicated by the reported course and time of sightings, the object moved from Garden Grove to Washington (73 miles) in one hour and fifty-seven minutes (1:57), or at a rate of 37 MPH. This indicates that radar sighting was not involved.
3. Witnesses were not contacted or interrogated.
