DD FORM 16

12-10-52

REPORT OF CAPTAIN T. L. FITZGERALD, 2025LTC/MSG, CONCERNING SIGHTING OF  
UNIDENTIFIED OBJECTS ON 20 JUNE 1952

On 20 June 1952, at approximately 1845Z, I was in the number 3 position in a five plane flight in the near vicinity of FT BELLEVILLE. Captain John de FOSTER, the flight leader, made a brief communication, stating that there was some unidentified flying objects below us, and inside our left hand orbit. At this time, I was north of the target area leader west. The object appeared to be of a round or oval shape. It left no trail or any kind of color. The object made an orbit of 360° to the left and right, but an easterly direct on at a very fast rate of speed. My first impression was that it was a bird, but the speed couldn't have been made by a bird. It appeared to be about 3 - 5 feet in diameter. It was white or silver colored. Captain FOSTER made a run at the object, but it pulled away from him. I was at 2000 feet, and the object was below me about 1000 feet.
