April 29, 1952

404 E. Lusk St
Marshall, Texas

Dear Sir

While visiting the air port here in Marshall, Texas I heard the sound of a jet plane over head and looked up to see if I could see it. Instead I saw a white object which appeared to be very high traveling in a Northwestly direction. This object moved very fast and it seemed to me that it maneuvered in an irregular and circular flight path, although it would keep a straight course for a period of time. To the best of my knowledge it disappeared within one or one and a half minutes. It appeared to be floating and zig zagging as it faded out of sight.

I do not know just what this object could be and this is the first time I have ever seen anything like it.

Sincerely,
Robert P. Friedman, Jr.
