SUBJECT: Reporting of Information on Unconventional Aircraft			
<p>In accordance with AIC Ltr 200-1, Reporting of Unconventional Aircraft, dated 11 April 1951, the following report of unusual target picked up by radar observation is forwarded to your headquarters in its importance as intelligence.</p> <p style="text-align: right;">30 April 1952</p> <p>At 07h0 MST a normal appearing target was observed on the PPI Scope by the radar observer on duty. Target appeared to be normal but was traveling at the unusual speed estimated at 3700 Miles Per Hour. At 07h6 MST another target was observed 10° to the south of the first target traveling at the same estimate speed. The first target was observed for four (4) sweeps of the antenna while the second target was tracked for six (6) sweeps, antenna rotates at six (6) Revolutions Per Minute.</p> <p>Significance of Incident:</p> <p>These two (2) targets were observed by four (4) experienced radar observers who are familiar with the appearance of normal aircraft picked up by the radar equipment; the target appeared to be normal in all respects except for excessive speed.</p>
