as I told you before in my earlier letter
the personal investigation I have done
finally led me in on reading the Bible.

It started with when a fellow worker
one day said that "Everything you want
to know is in the Bible" referring to
a real different matter than the Flying
Saucers. Well I started thinking,
perhaps there is something about the
Flying Saucers in the Bible then!

I did not start to read it anyway
or after a short time I bought the
FARE magazine and in that book there
was a small advertisement that said
"Flying Saucers in the Bible" and I dollar
to such and such address. As I
mentioned "Ezekiel" in a check off
other books that I ~~do~~ not remember
more. I did not send for the booklet
in question, but I started to read Ezekiel.
