Ohio for sightings of May 1st 1952 and
 see if my report is not there, if you like
 I asked at that time to keep it as
 confidential and it was. The questionnaire
 I received was quite a thing to fill out
 by the way.

Anyway after ~~see~~ this ~~thing~~, it
 seemed unreal ~~to me~~ even though
 I did see it. It was not that it was
 something I had never seen before and
 it did not belong here. The same way
 Ezekiel must have felt after he saw
 those wheels coming down to earth
 and he even talked to these beings.

If you read it you will find that he is
 even describing them to have a kind of
 crystal or (plastic if you wish) helmet ~~with~~
 which had a loud speaker sitting on top of it.

See if also describing remote control
 the four heads I would like to discount
