EXAMINATION ABOUT (Rosa)

- (X) If the information was not reported until late May 58 (the information gained from the report), it is probable that Mr. Santomaria has provided the necessary evidence for procuring his money or is merely taking advantage of the wide publicity given the Rio incident. Also, he could have been an accomplice in the scheme, but the timing is suspect. In either case, his chance of liability appears to be more than just coincidental.

Additional information on Mr. Santomaria and his activities, past and future, is desired since it may be useful in future analyses of unidentified flying objects. (Capitol Press, Nov 1958- AFOS-20)
