UNCLASSIFIED

AIR INTELLIGENCE INFORMATION REPORT

REPORT NUMBER 13038 F-0 Ring Intelligence	DATE 20-1-52	PAGES 3 of 3
--	-----------------	-----------------

KEY FACTS CONCERNING:

- A check with Japanese observatories has shown no increase in seismic activity and no sightings of unusual phenomena in recent months.
- Air Weather Service normally launches lighted weather balloons at night. Erratic behavior of a lighted weather balloon, together with physiological observations of sight vision night account for such reports.
