(Restricted - Security Information) Unidentified Objects Sighted by Four Employees of the DuPont Company, Savannah River Plant, Ellenton, S. C., at 2305 Hours

Delements and Identification Branch, Collection Division, Dir. of Intelligence, DCI/O

30 May 1952

Coastal Intelligence Div., Dir. of Special Investigations, The Inspector General

Lt. Col. Frowin/WFMI-6  
Case 182, 8-140

1. On 14 May 1952, the Federal Bureau of Investigation telephonically furnished the following information in regard to the above subjects:

"At approximately 2245 hours, May 10, 1952, four (4) employees of the DuPont Company, employed at the Savannah River Plant, Ellenton, South Carolina, saw four disc shaped objects approach the 400 area from the south, ~~disappearing in a~~ northerly direction.

"At approximately 2305 hours, the same employees saw two similar objects approach from the south and disappear in a northerly direction.

"At approximately 2330 hours, one similar object approached from the northeast and disappeared in a westerly direction. One more object sighted about 2315 hours traveling from south to north. Employees described objects as being about fifteen inches in diameter, having yellow to gold color. All of these objects were traveling at a high rate of speed and at high altitude without any noise.

"Fourth object approached the 400 area from northeast at altitude so low it had to rise to pass over some tall tanks in 400 area. This object was also flying at high rate of speed and was noiseless.

"Witnesses stated that they observed objects moving from left to right but seemed to hold general course; also stated that due to speed and altitude they were only visible for a few seconds."

2. The Atomic Energy Commission was furnished the foregoing information by the FBI. The AEC advised that no further investigation into the matter was contemplated by that Bureau.

3. The foregoing information was telephonically furnished to Major General of your Directorate on 15 May 1952.
