<b>SUBJECT</b>				
15 May 1952				
<p>Returning from target area May 13, 1952 I was flying number four position. At approximately 1830 hour I first sighted this object. Our altitude was 9000 feet. First sighted object at about one o'clock position from our flight. By the time I called the object in as a bogie, it had moved to the three o'clock position and started a steep climb, which I assumed was the beginning of a loop, but at the vertical position in the loop, the object moved forward in its original course of travel (300°) and maneuvered unmasterly and then descended and disappeared into the haze which reached an altitude of approximately 7000-8000 feet.</p>
