

THIS PAGE IS UNCLASSIFIED

Rio de Janeiro, 30, May 1950.

To
 AIR TECHNICAL INTELLIGENCE CENTER
 Wright-Patterson AFB
 Dayton, Ohio.

Taking in consideration the solicitation of your Center, I bring to your attention that on the 16th of May 1950 at 4.50 p.m. at the "Unice Air Port" of this city. ~~REF ID: A66881~~
 I observed from considerable distance a round in shape "focus" possessing exceptional brightness and very light metallic blue color which remained motionless at the point where it was observed for approximately two minutes. After ten minutes this "focus" started to move very slowly to the right of the horizon and after moving in that direction a significantly long distance the above object returned to its starting point and disappeared with incredible speed.
 This phenomenon was observed by various persons who were present at that hour at the above mentioned Air Port and none of them can explain the phenomenon.
 I am an Inspector of the Brazilian Civil Aeronautical service and I would appreciate that my information would reach the proper channel in order that you would allow me to communicate with you in case of similar observations.

Respectfully
 (Truly Yours)

J. C. GOMES - Inspector.
