1961 CONVENTION ECHOES.  
.....

To say that this Convention was a success is a great understatement for although it began in the ideas of the executives of the A.F.S.R.S. and The Perth U.F.O. Groups, with the possibility of having Geo Hunt Williamson to be the Guest speaker, this after much organisation had to be regrettably cancelled and last minute arrangements made for another qualified speaker and having already arranged with the leader of the South Pacific Sky Watch of Sydney N.S.W. to attend as the official representative, at our request this remarkable personality Miss June Marsden gladly rallied to our side and accepted the offer to be a guest speaker with the above Editor. for the occasion .

Stopping en route to the West in Adelaide a week previous , she gave two public lectures which drew a great crowd . but this was followed by radio and T.V. Stations literally " begging " her to give talks and interviews as well as the local papers.

As late as the morning of her departure she was kept busy fulfilling these engagements all of which put the U.F.O cause on the map in a way never before possible. the public enthusiasm and interest being so great that the above reaction of the radio and T.V. showed a deeper interest than is usually credited to this cause.

This however was only the beginning. for from the start in Perth the press gave a very good coverage and space most unusually possible in other states to both speakers. and again followed the radio and T.V. stampede to get her talking etc. on the channels.

Had the U.F.O. cause had to pay for all this, it would have amounted to thousands of pounds, but the striking part was that where as usually we had to beg them to give us even a little space of time and then it was given sparingly. and often subject matter was treated as a farce. here we found the tables turned in an unbeievable fashion. They " begged" and often had to be refused. through lack of time or ability to fit it into schedule.

So much for the success from the public presentation.

From organisational point of view it brought out the many difficulties involved in keeping this part in working order and yet remain on a voluntary basis. some of this yet has to be ironed out and the future alone can tell as to how it can be kept working with the great demands placed upon the leaders and executives. Many smaller problems were discussed and great strides made in a possible solving of them reached.

The greatest success however was the deep sense of unity which existed between all and never at one moment was a stage reached where any differences of opinion caused any rift or even a suggestion of such. among all those met together. this proved beyond doubt that although there were every stage of approach to this subject represented . from the factual to the phsyhic. the material to the spiritual. every one found a bond of fellowship which spoke well for the complete open minded approach to this subject which this magazine has striven for since its beginning. and does certainly put to flight all those who contend that " you cannot mix them ".

Speaking on behalf of those who journeyed from the eastern states we say THANK YOU to the West for its great open hospitality, its immense friendship and immediate response to the many demands placed upon all those who acted as hosts. We certainly found it very hard to say goodbye. and look for another occassion with the greatest of zeal.

SIGHTINGS. YES WE HAD THEM . TELEPATHY YES. GUIDANCE YES.  
See accounts in following pages. re these.

Only one regret. that more of the UFO groups from the eastern states did not find it possible to send at least one representative. One thing we found was that UNITY AND CO-ORDINATION ARE POSSIBLE . WHAT APITY THAT OTHERS DID NOT FIND IT AS WELL WITH US.

THE PROOF OF THE SUCCESS IS THE KEEN DESIRE TO HAVE ANOTHER ONE NEXT YEAR AND POSSIBLY THIS WILL BE IN THE EASTERN STATES WHERE THOSE WHO COULD NOT COME WILL FIND IT THEM MORE OPPORTUNE.

.....

" How blessed it is to dwell in unity one with another "

" In fault finding there is no gain, In criticism there is no excellence Gossip stifles the heart and cripples the mind. A faultfinder is not a joy to himself nor to others . There is no success in envy or jealousy .

MAZDAZMAN .

A TELEPATHIC EVENT.

WED. OCT 11th. 1961 ... We were seated at the breakfast table of the President of the Perth U.F.O Society. Mr Cyril Jones. we had hardly begun when Mr Jones looked up from his plate and said. " I think we are going to see something tonight. " it was said so casually and certainly he was in no form of trance , so upon enquiry he replied that he felt he had a telepathic message to that effect and that it would be between 8.15 and 8.30. p.m. that night.

There was no doubt that he meant it and certainly we felt a great deal of excitement. , it was gratifying to me also to see a mutual friend and worker getting things " through" exactly as I had done myself previously. this was sure confirmation. of direct telepathy .

That night a final business meeting had been called to finalise the details of the Convention which was due to open the next day . and representatives of all bodies concerned were present.

The meeting had hardly begun when Cyril Jones said "It's 8.15. we had better go out. " some who did not know what he meant stayed behind. others also felt a desire to talk. , but the lucky ones were those who followed him out of the room. where they gathered on the opposite side of the road. and began to scan the skies. We did not have long to wait.

The skies were very clouded but one patch existed of clear sky it was along shaped stretch of sky with clouds above and below. a perfect clear strip for observation with the clouds above and below to etch out anything which appeared in the clearpatch .

And then it came . . . A long narrow cigar shaped object bluey purple tending to pink. It appeared to be about a foot long and about two and a half inch deep. It certainly was in no hurry as it moved across from one direction of the sky to the other. majestic is all one could call it. taking about a minute to cover this span. it naturally was really moving. yet it was sufficiently slow to allow perfect sighting for all those fortunate ones to observe it. and more IT WAS ON TIME.

Total witnesses about twenty. all who testified as to it without variation of detail. This got a good write up in the next mornings press . and certainly was a great start for the Convention . thus they gave us their blessings on our proceedings . and it almost appeared that their benediction was said for those travelling east at the close of the stay. . this is related in the third incident . of sightings to follow. The Editor.

.....

SIGHTING FOLLOWS THE NEXT NIGHT .

Someone got a " message " that there would be another sighting the next night so a party of the South Australian folk struggled up onto a high sand dune a no mean feat for some who were elderly pensioners. and there we sat with rugs around us. watching, gazing. and then it came . crossing the sky at a steady level. but to the experienced eye of the leader , he quickly knew they

WERE OBSERVING NONE OTHER THAN AN AMERICAN SATELLITE. How disappointing. Some of the party took some convincing. but it was a good lesson in remaining very objective and not letting wishful thinking run away with us. It was also a good proof that we DO accept things for what they are and evaluate all in their true light.

Slowly we watched this magnificent achievement of man trace its path through the sky. truly a wonderful sight especially for those who have never witnessed it before. and then it began to fall into the horizon yondr and finall vanished. And then it happened .

No sooner had the manmade satellite disappeared. than from the same point of the sky four large flashing lights appeared one after the other speeding into four different directions of the sky.. Certainly like flashing falling stars and they could have been meteirs we do not deny that. but these usualy if in formation at all follow the same path. unless they collide with another object and disintegrate there path however seemed to indicate four different objects. rather than one split into four. the colour was reddishorange Time no more than 30 seconds.

Well whether they were meteors or falling stars. they certainly turned up on time as indicated to the one who recieved the " message " and after all meteors and falling stars don't send telepathic time appointments to humans. Or Do They ? .... We remain open minded.

.....

SIGHTING NUMBER THREE .

SAUCER OBJECT FOLLOWS TRAIN FROM PERTH.

The first indication of this event was related to me by one of our party on the train to the effect that on the second night out from Perth after tweleve we would have a sighting.

Truthfully I fell asleep not long before this hour and so have to let the lucky ones relate this incident . here it is in their own words compiled together .

The one who actually witnessed this was none other than June Marsden who says, that she waited up and it was about two thirty a.m. when she was looking out of the compartment window of the carriage and she saw this large object reddish yellow , a little larger than the moon to normal vision. pacing at a low level the train.

It began to dart forward. then lessen its pace so as not to beyond her vision , this is continued to do for quite a time keeping pace, dropping a little in level , now darting forward. then rising a little.

She decided to get the other women of the party to observe it and went to their compartments. but was unable to arouse them .at first but when they looked out there was no sign of the object.

She then decided to return to her own carriage and looked out again putting the lights out to see clearer, at first she thought it had gone but suddenly it reappeared again and then it swished over the train to op

the opposite side. quite low over the tops of the carriages.  
Rushing to the other side she was just able to see it vanish into the distance.

We would like to mention that this is not the first time an incident has happened on this very stretch of country almost identical with the above in which a " Saucer " buzzed a Transcontinental train.  
Our records of quite a few years back relate an incident in which a Bud car, ( A small diesel train of a few carriages ) was buzzed and followed by an almost similar object.

Investigations into this through Railway sources however found such a tight security block that we could only ascertain a few facts which at least indicated that something " big " had happened hence the tight lips of the authorities and the extreme difficulty in getting further information.  
Briefly the facts are as above except that the whole incident so scared the driver of the car who saw it dashing in front of the train and thought there might be a collision. and then to follow the car on the side as in the above case.

The whole of this incident so upset the man that he had to be retired with nervous shock from the Department after much trouble and many examinations.  
We regret that this occurred early in the history of this society when we did not have as much experience or as many to assist us in investigations as we have today.

We also add that the area in both cases is very close to the Woomera Rocket Range site. but do not insist that it had anything to do with that , merely pointing out that the locality in both cases was almost the same.

::::::::::::::::::

"MAIL" 5/8/61 MYSTERY OBJECT FLASHES IN THE SKY

SYDNEY. A mystery object flashed across the skies this morning and over Canberra last night. startling thousands of people.

It was described as a ball of fire with a long. flaming tail.

It was isghted just beofre 9. a .m. in many Sydney suburbs where scores of observers thought it was a plane going down in flames .

The object appeared over Canberra in the western sky orange red and glowing. Hundreds of callers jammed the police swithboard seeking information on the phenomenon.

Dr. A.R. Hogg Ass. Dirct. of the Cmwlt. Obsrvatory at Mount Stromlo. saw the object.

He said , " It sped across the sky like a brassy ball of light "

My impression was that it was a daytime meteor.

I think it might have disintegrated somewhere in the air.

There was no so nd, and a vapor trail persisted for about two minutes before it was broken up by air currents. "

Well folks it seems it was anothers of those doggone meteors, Or was it?

Ed.

AUSTRALIAN SAUCER RECORD. PAGE SIX.

"NEWS" 25/8/61 SKY OBJECT WIDELY SIGHTED.

MAY have been meteor.

MELBOURNE A MYSTERY OBJECT FLASHING ACROSS THE SKY WAS SEEN LAST NIGHT FROM MOST MELBOURNE SUBURBS. AT EUROA? 94 MILES NORTH OF MELB. AT YASS(NSW) AND AT CANBERRA.

TWO AIRLINE PILOTS FLYING FROM SYDNEY TO MELBOURNE IN SEPARATE FLIGHTS SAW THE LIGHT AT 20,000 ft. BUT SAID IT FADED QUICKLY .

People who saw the object said it looked like a rocket or a meteor.

The Gov. Astronomer in Canberra, Mr Harley Wood, said the object probably was a meteor which gave off a glow as it disintegrated on entering the earth's atmosphere .

Two T.A.A. pilots thought the object was an aircraft heading straight for them as they circled above Essendon .

( Ed. Note. At least they were nearer to it and had a better view. also note the said like and aircraft. ) continue report.

METAL FOUND.

Capt. Robert First said today he was looking at the instruments of his Viscount when he saw the meteor out of the corner of his eye.

His co-pilot, First Officer M. Mc Dougall shouted " Look out " thinking it was another aircraft. ( Blimey our trained pilots are now getting scared of meteors. dear dear it makes one a bit scared to fly these days when even such highly technical men dont know a meteor from an aircraft

Actually fellows we sympathise and apologise for we KNOW YOU DARE NOT TELL THE TRUTH . )

Continue. A high school student Jillian Coombe. 16. today produced a chunk of metal-like material. She said she found it in a fairway at the Rosanna Golf Course.

She and her family saw a colored ball of light fiery, come to an abrupt end on the golf course near their house last night .

( WE WOULD LIKE TO KNOW WHAT HAPPENED THIS ? AND IF IT HAS BEEN ANALYSED WHY NO PUBLIC STATEMENT HAS BEEN MADE TO PROVE IT WAS JUST ANOTHER METEOR.

THE STRANGE SILENCE ABOUT THIS SUGGESTS IT COULD HAVE BEEN SOMETHING ELSE) IN ANY CASE. IT WOULD PROBABLY GET THE OLD RUNAROUND OF INANE CONCLUSIONS SO REPEATEDLY MADE BY OFFICIALDOM. WHO MAKE A STATEMENT ONE DAY AND EITHER DENY IT THE NEXT OR EVEN MAKE ANOTHER WHICH CONTRADICTS THE PREVIOUS ONE.

WEEK END NEWS SAT. 29/7/ 61 : : : : : WHAT DID THEY SEE. ??

DARWIN. SAT. The mystery of the Northern Territory's " flying saucer " has deepened. A brilliant object , described as a ball of fire with flashing red- and -white tail jet" was reported from Darwin , Tennant Creek , and Wonarah. on Thursday night/ It was seen by dozens of people , including an air pilot. On their arrival here today , a driver and a fireman on the North Australian Railway gave a graphic description of " how the object had buzzed their train ".

Driver Douglas Clark said he was on the train 285 miles south of Darwin at 8.p.m. on Thurs. when the object " came up behind us "/ At one stage I thought it was coming right on the train " he said " I got a terrific start and sang out to my mate George Firman , who noted the time and the position . It came down at us until it wasn't more than

1000 ft above.

" THE PROPHECY OF THE SUN OF JUSTICE "
=====

BY. J.E. VERNER.

Author of " The Voice of the House of the Hidden Places "
Obtainable from the Editor. Price 3/- 50 cents Dollar areas.

John!

THE FOLLOWING MAY BE REPRINTED IN ANY NON PROFIT JOURNALS BUT COMMERCIAL
PUBLICATIONS SHOULD SEEK PERMISSION THROUGH THE EDITOR.

Those who have read Dino Kraspedon's book " My Contact with Flying Saucers"
must wonder at the prohecy given by the Captain of the Flying Saucer from
Jupiter, concerning the entry of a new sun into our Solar System.
Is such a thing possible? Has such an event been foretold by our prophets?
I will attempt to show that such an event has been prophecied, and that it
also a possibilty to be taken into account.
First let us compare some straight-forward texts that speak for themselves.

" It is a body of monstrous proportions which will shortly become visible
in the direction of Cancer .It will first be seen as a reddish light. later
turning to blue" Page 52-53 " My Cortact etc "

" Towards the North shall appear, not far from Cancer, a blazing Star."
vi: 6 Prophecies of Nostradamus.

" Another sun will soon enter our solar system. and we shall be lucky
enough to have a system of biary suns. " Page 52 Kraspedon.

" The great Star shall burn for the space of seven days,
A cloud shall make two suns appear. "
Prophecies Nostradamus 2 . 41

" The sun which is to come will be called the SUN OF JUSTICE. "
Kraspedon p. 55

" But unto you that fear My name , shall the SUN OF RIGHTECUSNESS
arise with healing in His wings . " Malachi iv . 2

" In short , there will be a general displacement of all the bodies
belonging to our solar syatem . After that, everything will become normal
again and we shall have a new sky in which to travel , and you will have
a New Earth. pages 53-55 Kraspedon .

" For the stars of heaven and the constellations ther>of shall not
give their light : the sun shall be darkened in his going forth , and the
moon shall not cause her light to shine, and the earth shall remove out of
her place" Isaiah xiii: 10 and 13.

"And I saw a new heaven and a new earth" Rev. xxi : 1.

AUSTRALIAN SAUCER RECORD.

"The prophecy of the Sun of Justice " cont. 2

The quoted passages state clearly the origin, the name, the result of the entry of a star into our solar system which will then become a double star system.

Since certain times and conditions are given we can approach this prophecy from another angle.

The Captain claims that thesecond sun will enter our solar system from the direction of Cancer. He further states. :

" After reaching the area of the large planetary bodies, it will encounter the repulsive force of the sun, but in its rear it will then have the weight of large bodies also imparting a force of repulsion to it in the opposite direction . "

" The orbits of sll the planets will be changed. Pluto willbe ejected from the system , and will wander through space until it finds some new haven . It will be soon, toward the end of this century . "

pages 53-55 Kraspedon .

It is evident that these statements imply a certain grouping of at least the large planets and at a certain time as well to allow for the new sun to enter For example , it would not do if we found the planets moving on collision courses with the new sun . If Pluto is the only planet to be ejected and the others peserved so that life can continue. we shall expect to find them in positions to allow this to take place.

In order to ascertain the situation of the planets at the end of this century, I have plotted the courses of the outer planets in Diagram " A ".

see next page.

In parenthesis I would like to mention that one needs to read Dino Kraspedon's book , because the Captain 's theory of the mechanics of the solar system is somewhat different to ours.

Studying the diagram we find something very remarkable:

All the palnets, except Pluto , form a spiralling tail pointing in the opposite direction to the entry of the second sun. This will, if I understand the terms of the Captain, might assist the entry of the new sun, and being caught in the magnetic field of our solar system , will follow in the wake of the planets, and, through the spiralling line of them . or through the fork the make with the sun , be forced closr and closer to the magnetic centre of the system.

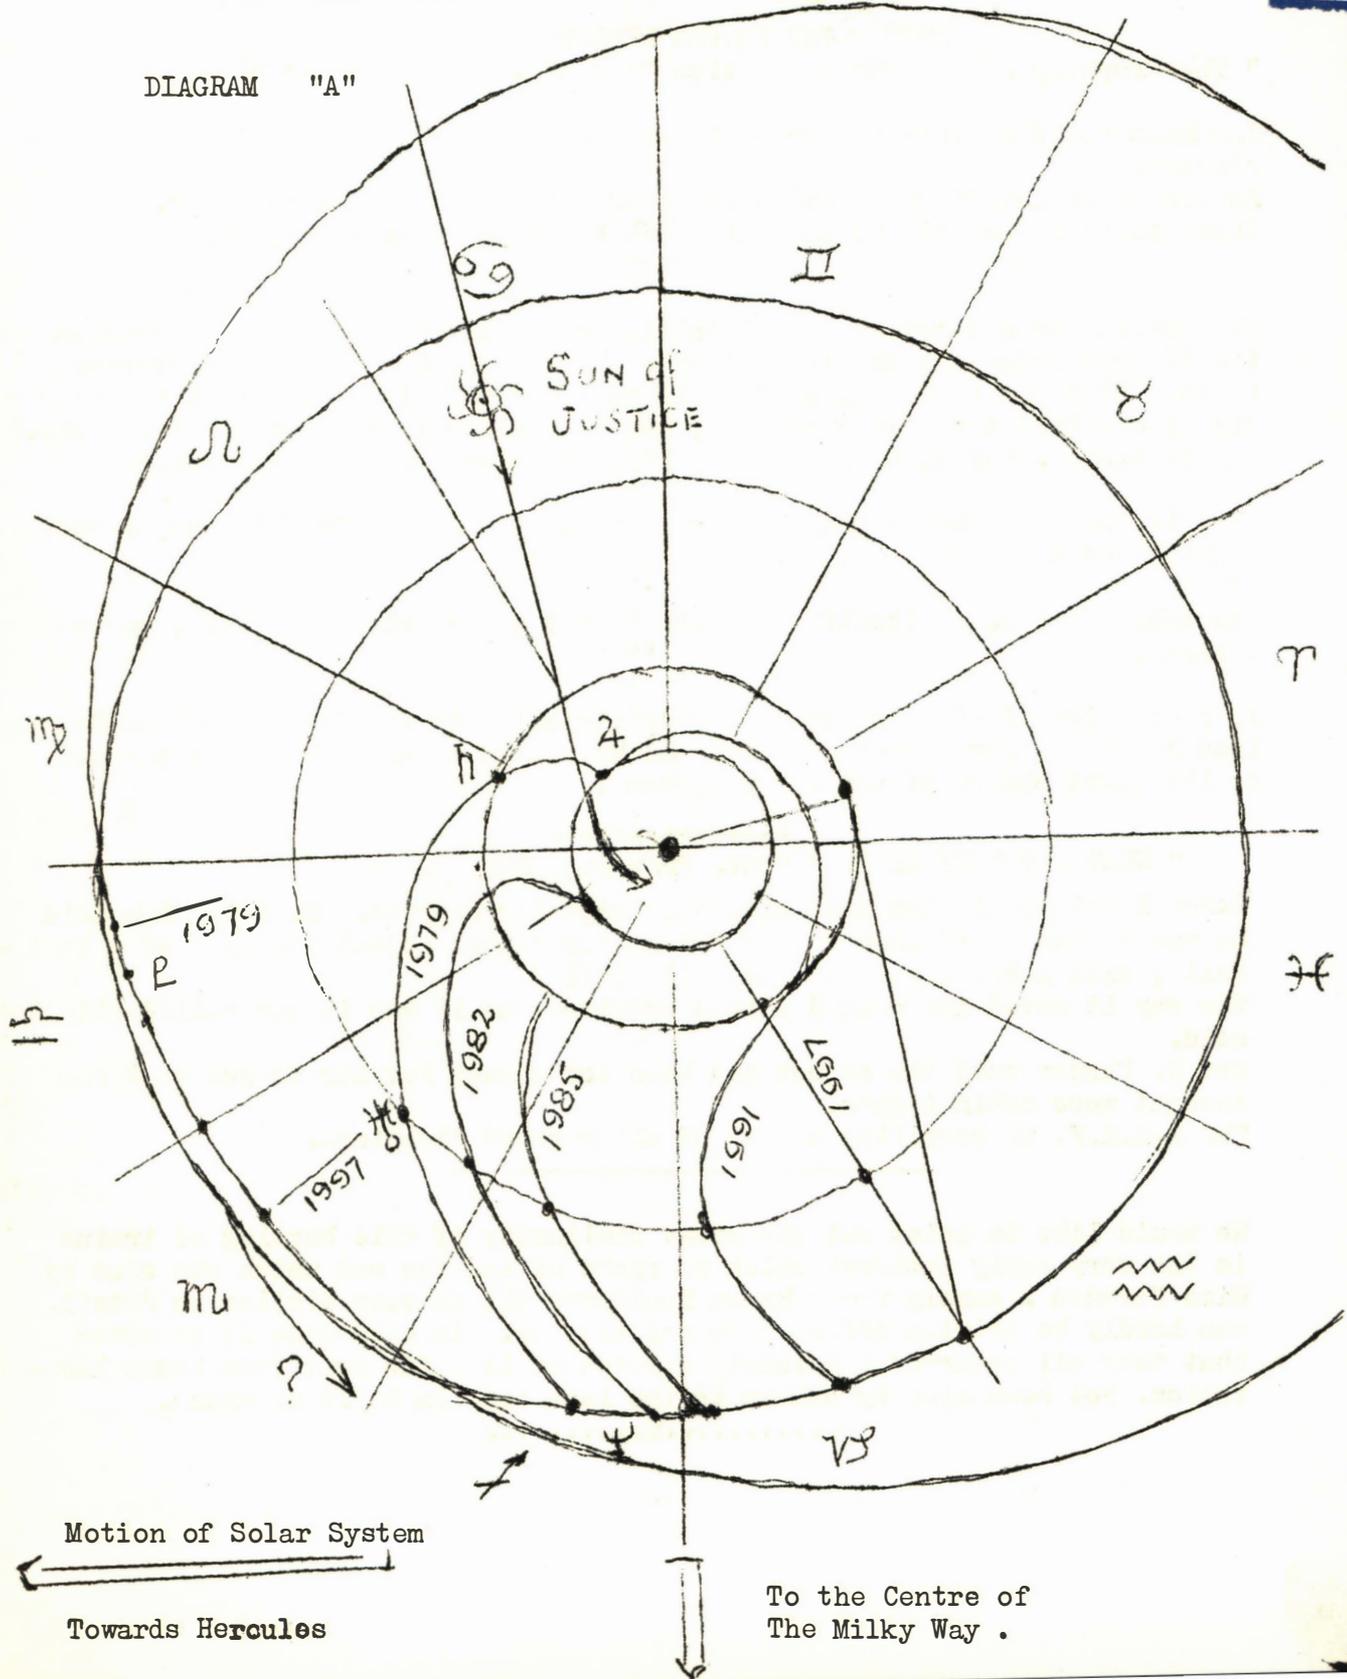

This arrangement allows the planets to be moved simultaneously further out to the new orbits without risking a collision .

Pluto, in this period of time , will have passed its closest approach to the sunand therefor will have an outward momentum .

A slight pressur of the new sun could then easily push Pluto outside the magnetic field of our solar system .

THE PATHS AND POSITIONS OF THE OUTER PLANETS FROM 1979 to 1997

DIAGRAM "A"

AUSTRALIAN SAUCER RECORD.

PAGE 10

" The Prophecy of the sun of Justice " Cont .

The Moon could be thrown into orbit and become a planet under similar circumstances.

According to Astronomy, a third known of all stars are binary stars. There is therefor nothing unusual about becoming a binary system.

For people who understand the significance of the Zodiac, I have prepared the diagram using astrological signs . It should not come as a surprise to them that the drama takes place in the cardinal signs, nor that the Cancer sign looks like two revolving suns, nor that Pluto is weighed and found wanting in Libra . nor that the planets line up before entering the Aquarius .

That the new sun enters from Cancer carries with it the fulfillment, abundance Beauty, and Knowledge , that the coming age stands for.

The thought presents itself that this is not a mere chance meeting, but a design .

In conclusion I wish to express my appreciation to the Captain of the Saucer from Jupiter , for giving us a welcome knowledge of what will be instrumental to the great change of our solar system .

+++++

" WHAT DID THEY SEE?. " Cont. from page Six.

Other Darwin residents have also made sighting reports. G. Holstarek said he was on the wharf when he saw " A saucer shaped object the size of a foot - ball , with a brilliant red and white tail "

The way it moved and headed inland convinced me it was in controlled flight" He said.

Mrs R. Parker said the object had been low enough for her to see what she thought were cabin lights.

The R.A.A.F. is compiling a list of all reported sightings.

-----

We would like to point out the great similarity of this buzzing of trains to the very early incident which we spoke of and the one which was seen by Miss Marsden . surely three known incidents all so very similar in detail. can hardly be written off as mere coincidence. in each case it is noted that they all occurred on a lonely stretch of line far away from human habitation. yet seen also by others in the last case in built up areas.

.....

THE COMING PLANETARY CONJUNCTION OF FEBRUARY 1961

We have had so many requests for information re this great event, that we publish the following further facts etc. which have come to light. since we brought this before our readers.

Firstly there appears to be a slight apparent disagreement on the actual date. some asserting it is Feb. 2nd. whilst others pointing it out to be Feb. 4th and 5th.

Our esteemed friend June Marsden has given this deep consideration and claims from her investigations and wide experience in these matters that the conjunction will occur on Feb. the 4th over European areas, and the 5th over Australia.

Our New Zealand friends have fixed the date as the second.

Not being ourselves capable of working it out. and feeling that there could be a logical explanation for the slight differences. we leave it to those who can to take this up and explain the discrepancies of dates.

One thing is certain it will occur within a few days of the early week in February. and certainly we are forewarned in any case of the event. so whatever occurs it will not come unexpectedly on either dates.

WE MUST HOWEVER INSIST THAT WE DO NOT PREDICT ANY SPECIFICALLY. IN FACT WE BELIEVE THE THING TO BE SO HUGE IN ITS POSSIBLE EFFECT THAT NO ONE COULD POSSIBLY TELL. FURTHER WE FEEL THAT IT WILL BEGIN TO SHOW ITS EFFECT BEFORE THE DATE AND THESE EVENTS WHICH HAPPEN WILL BE A POINTER TO A GREATER FORM OF SUCH AS IT COMES INTO FOCUS AND THAT IT WILL ALSO CONTINUE ITS EFFECT AFTER AS WELL. I.E. WE WILL MERGE INTO IT AND OUT OF IT.

IF ONE WOULD DARE TO HAZARD A GUESS AND IT IS ACCEPTED AS SUCH. THEN ONE THING SEEMS PRETTY CERTAIN AND THAT IS TO EXPECT TERRESTRIAL UPEAVALS. IN THE WEAK STRUCTURES OF THE EARTH GRADUALLY INCREASING FROM OCT TO FEB.

MANY FEEL THAT CELESTIAL DISTURBANCES WILL ALSO OCCUR. WE DO NOT DENY SUCH A POSSIBILITY. BUT FEEL THAT IN ANY CASE WHAT WILL HAPPEN ON EARTH COULD WELL BE ENOUGH TO KEEP US OCCUPIED.

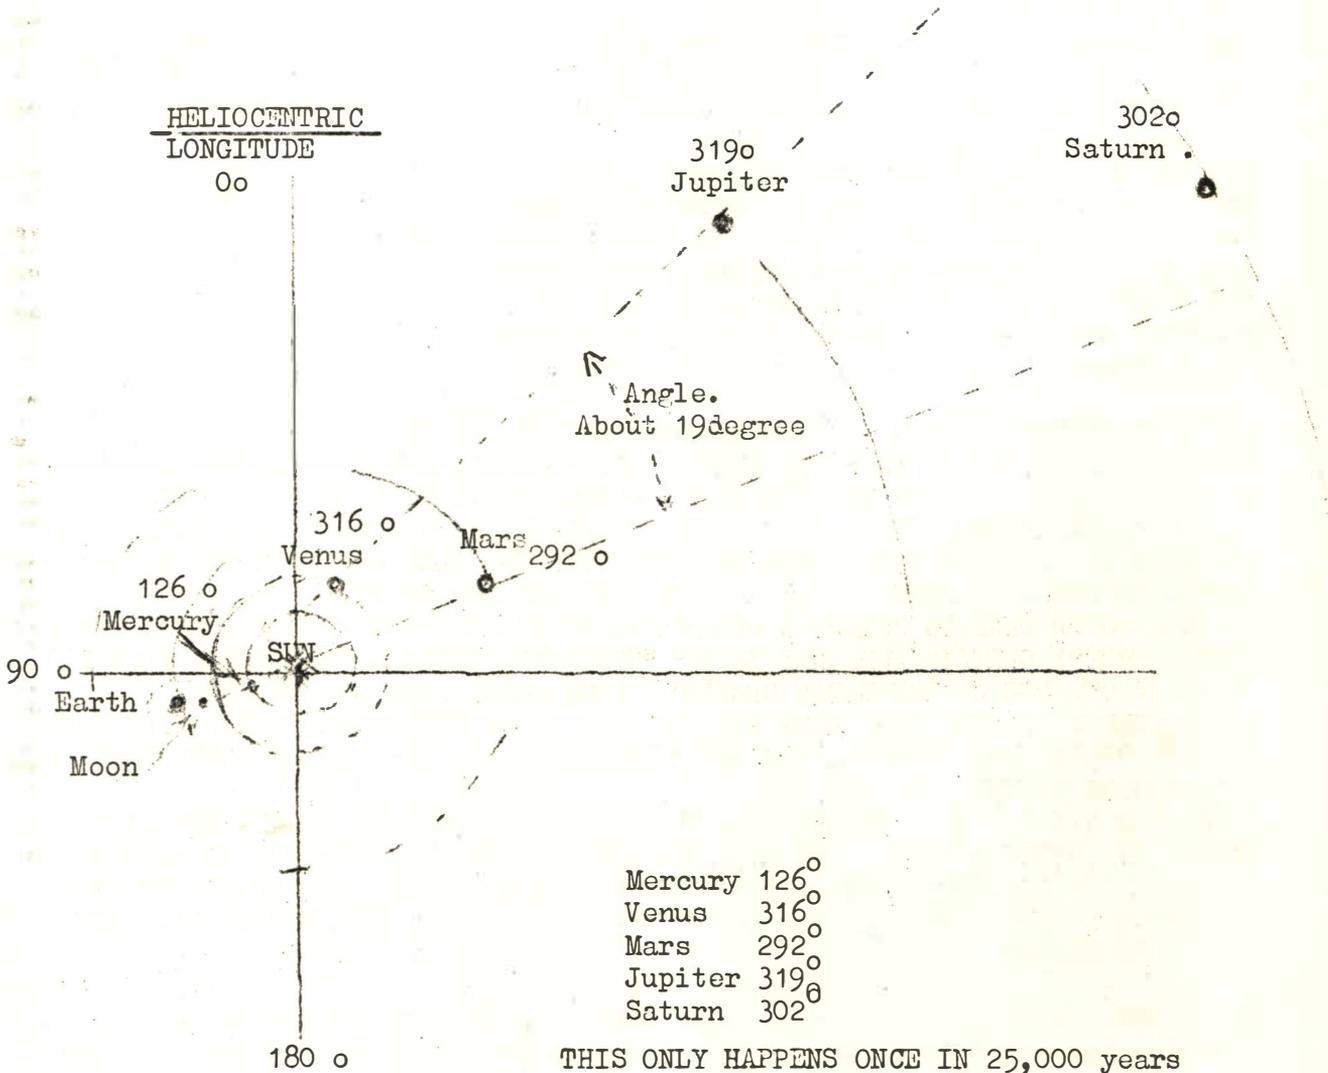

WE DENY THAT WE BELIEVE THAT THERE WILL BE ANY SAUCER INVASION FROM MARS. OR ANYWHERE ELSE. BUT SUCH IS NOT AN IMPOSSIBILITY. BUT WE HAVE NO INFORMATION TO SUPPORT IT. AT ANY SPECIFIC TIME EXCEPT TO BELIEVE IT WILL HAPPEN SOME DAY WITH A FLEET FROM SOMEWHERE IN SPACE NOT NECESSARILY ANY SPECIFIC PLANET.

Many have asked for a plan of how the planets will be situated. and as our friends of the New Zealand Scientific Approach to Cosmic Understanding have issued such we thank them and reprint it here for our readers evaluation. This society has recently changed its name. and is a strong Adamski organisation. the only thing which we feel it could slip up in. as we believe that NO MAN has all the answers. and hero worship of any HUMAN being is dangerous at any time. however we commend them for their courage to come out with such cases as Mr X. etc. and feel as long as they keep open minded and not TIED to Adamskis they will do a great work even greater than that already accomplished.

We particularly suggest that an earnest consideration and comparison of the following chart and that of the one given in the article "The Prophecy of the SUN OF JUSTICE" be made. remembering that Kraspedon had similar experiences to Adamski.

AUSTRALIAN SAUCER RECORD. PAGE TWELVE

THE COMING PLANETARY CONJUNCTION CONT.

This is approximately correct due to stencil

E.S.P. PSYCHISM AND TELEPATHY. WHICH ?.

1+++++

Flying Saucer research work has now developed into such a wide scope that it has begun to resolve itself into various schools of thought, some of whom are wide and open minded others which seem to specialise in one particular theme. and in some cases this has brought many to the stage where they begin to have unwillingness to see the other fellows point of view and even at times to harshly criticise certain fields of thought which they do not approve or perhaps have made no attempt to understand.

In this regard the above subjects have become the butt for a great deal of unkind, harsh and even almost bitter condemnation from the folk who class them selves as the factualists. although methinks it savours of a plain straight out " I am better than thou attitude " A KIND OF LOOKING DOWN THE NOSE SNOBBISH CONTEMPT, for those who are not so enlightened as me. business.

Apart from the volumous evidence of History which proves these people who had faculties which were above normal. many of whom today are accepted by these very critics are of high esteem. one cannot entirely ignore this phenomenon as unworthy of consideration.

It appears to the writer that the main thing is that there has not been sufficient earnest investigation. to sort it all out and that the main trouble is that everything along this line is jumbled together as all being the same, and therefor because some of it has proved unreliable or at times contradictory. and even hoaxes, that they are all the same.

But are they. all unworthy of consideration ?.

First let us examine E.S.P. that very polite fashionable term for all **Psychic** phenomenon. today Extra sensory Perception. is admitted and is vastly becoming more earnestly studied from a scientific point of view today. for if you talk of E.S.P. you are fashionable and listened to by the " cream of the intellectuals???. but talk of psychism. telepathy, and immediately you get the cold freeze. the uplifted eyebrow look. the sympathetic inane look given to a grovelling microbe. Frankly lets be honest E.S.P. is only another popular fashionable name for all the things occuring now and have been for centuries in the psychic field. so lets forget E.S.P and get down to what it really is. **Psychic Phenomenon.** either from the human mind. or from a deeper source of the yet so little understood part of man, his spirit. which is in touch with a kingdom of spirit. so yet untouched by man that anything yet manifested or known is but a scratch on a huge surface.

First we must separate the true psychic acts from that of telepathy, although they are very closely separated.

I contend that Telepathy is distinct at least in reception to the more commonly known psychic demonstrations. hence we will first deal with the general forms of psychic phenomenon.

Let us list these various forms of psychic manifestations.

1. Clairvoyance.
2. Clairaudience
3. Automatic writing.
- 4 Trance mediumship
5. Deep Trance mediumship.

These I feel at least cover the main forms of such. each of them distant yet generally closely related.

+. All of these have been demonstrated for centuries and the Bible is full of cases which can be none other than some of these.

However the aversion of the general religionist is that they are often cases of Spirit control of the lower astral orders and this cannot be denied in so many cases. but it is not possible in the limited scope of these pages to cover a discussion of the difference between Spiritism (lower astral control) and Spiritualism. control by the Holy Spirit or angelic beings of God under His command. One thing however is certain that they are easy to discern. for by their fruits ye shall know them / and if the evidence proves such controls to be contradictory to the higher laws of God then it is very evident that the control is. not of the highest.

It is however in the field of the relationship to the Flying Saucer work that at the moment we are particularly interested. and our desire is to show that the above forms of Psychic practices HAVE sad to say brought many cases of saucer research not only into ridicule but open contempt because of the sometimes utter bilge that is given, and when compared with others claiming to have the same reception. completely contradict confusing, and often denying. the opposite view claimed by the other. It is no wonder that earnest people turn from it. yet it does not mean that there are and still are folk who are working on a very high level and do "get" things through which are of great benefit to mankind.

Personally I am very averse to the so called talking with the dead. form of work. it all seems to be so open to cheating and even some of the greatest spiritualists do not deny that such deceptions DO take place at times. and if these capable adepts of such can be deceived what hope has the common seeker who comes in all simplicity endeavouring to find the truth.

From having observed and seen and witnessed many such sloppy sentimental relatives dug up. to an equal gullible public seeking for comfort, I have come away feeling that it was certain to me if not to others that whilst not denying they may have been in touch and controlled by a spirit that spirit to often is one from a very low order of the astral plane and as such it is better to get a bit higher up in the scale before trusting ones future or destiny into their hands. It is the folk who are working on these low levels that are doing the harm NOT the genuine people who have received of God one or more of those spiritual gifts promised as Gifts of the Holy Spirit.

Let us look for a while at this telepathic gift. in contrast to the other deeper psychic gifts.

Mental telepathy. can be thoughts recieved from another mind or intelligence and many cases of this have been ably demonstrated here on earth. one of humans contacting others over vast distances.

but for this case we want to examine the claims of those who say they have recieved messages from outer space beings. and it must be understood by this that we mean not in any trance form or deep trance. but with a clear open mind of what is occurring around them , with no sense of any form of the mind being submerged by another force as is in the deeper forms of psychic phenomenon. the mind being absolutely in control and fully aware of what is taking place and able if sodesired to cut it off or continue. the will of the recipient being fully in control.

there have been various ways of reception and its effect on the reciever. some tell of a tingling sensation at the back of the neck, others speak of s slight sense of pain around the head. others of a feeling that the central point of the forehead is being activated. quite a few speak of all these happening in some form or other.

The message being recieved is as one is " hearing" a conversation in the head as one does in a telephone. but in this case into the mind and NOT into the ear. the reciever is then usually urged to speak it out what is being said others have felt the urge to "write it down " which all of course is another modified form of the previous psychic gifts of clairaudience or auto matic writing. but instead of being ina trance and their own mind " under control the reciever is fully aware of what is going on and in full control himself.

This I feel gives at least a little clearer picture of the great difference between actual psychic claims and those who are telepathic recievers. it is true it is generally found easier to concentrate on the message coming through if the eyes are closed and one meditates . butnot necessarily say essential , it is simply like listening to good music with the eyes closed and in a receptive mood.

It may be that others will come forward and express their ideas on this and thus we may be able to better understand the messages we are getting from our space brothers a little better and with less misunderstanding. the writer has written this in this hope that the telepaths of the saucer field may be better abd more justly understood and not to be all classed together on a basis that all this psychic phenomenon is the same .

A great deal of vital help will be found when we are willing to face this thing and sort it all out. for we ARE getting messages and it is up to us to see that we do the right thing and not throw away the wheat with the chaff.

I would like to thank the Editor for letting me express myself so. and hope others will use these pages so open minded to express themselves also.

"TELEPATH"

OST  
ION

A THEORY CONFIRMED.

One of our correspondents and writers Don Alfredo Calef writing in Vol.7 No2 in an article entitled " Flight into Sapce. " put forth the theory regarding man's attempt to enter into sapce. and its hazards , suggested that the possibility of humans having to be " frozen " or hibernated in some form as a means of overcoming the rigours of the time and difficulties of the long space journeys.

An article has appeared in " The News " of Oct. 27th. 1961. which written by a scientist confirms the possibilty of such an idea being possible that people CAN be so " put to sleep" for long periods and thus suspended animation of life possible. wh print it below as an extended form of this idea. proposed by our friend in another form .

WE MIGHT BRING BACK LIFE TO THE MOON .

From The News London Bureau.

London. Thurs. ∴ The first men on the moon might find a number of apparently-dead creatures which would come back to life if they were brought to earth, says Dr. Audrey Smith .

Dr. Smith is a member of the National Institute for Medical Research, now working on the effects of low temperatures on cells , tissue. organs and whole animals .

Writing in the Journal " Discovery" . Dr. Smith says:∴ " The capacity to enter and remain for long periods in the state of latent life( anabiosis) under adverse natural conditions such as severe drought. intense heat, and bitter cold may be essential for the survival of many species.

" A variety of potentially living creatures may be lying dormant on the moon or on other planets and might come back to life if they were brought back to earth".

She said that experiments in freezing and then " resurrecting" animals raised the problem of the diagnosis and definition of death .

" We can only say that it is the condition from which reanimation is not possible by any currently known means" " Eventually" she said " methods may be devised for treating whole organs or whole animals with protective substances and storing them for long periods in the frozen state at very low temperatures. " ..

.....

We strongly recommend that our readers re read the article of Vol 7 No2 by our correspondent again in the light of the scientists. thesis.

.....

TWO NEW BOOKLETS.

At the time of going into print there has come to our hands the advice of two booklets by COLUMBA KREBS. " THE MOON IS INHABITED " 2 Dol and " VISITING SPACEMEN " I dol 75. Send to C . Krebs c/o General Delivery , Williams . Arizona U.S.A. WE have not had time to review our copy of the latter but will do so in our next edition.

" THE SAUCER MYSTERY " BY.H.E. LAWN.

Member of PERTH U.F.O. Group.

We have read many articles by prominent people who state that we have before us the problem of solving the mystery of the " Flying Saucer ".

How many earth people have got to contact these space people and converse with them , hear their views on our behaviour on earth etc., hear them relate how they live and govern their planets , how they co-operate inter-planetarily. how they preach love and harmony the same as Jesus did, before they see the mystery of the Saucer has been solved ?

It is not a matter of solving a mystery , as being a matter of what we are going to do about the advice and warnings we have received. That is the problem as I see it.

We have many millions of people on earth with very set selfish ideas as to the correct attitude to be taken between one man and another, which are very contrary to the teachings of the Great Master . who tells us what we may expect if we insist in this attitude. The principle trouble is that the majority of the people we have at the head of affairs of almost every nation are given to this selfish, greedy attitude. Until the powers that control the various nations adopt a more co-operative attitude between nations , and internally, between departments of state and commonwealth, we will never get ourselves into an attitude acceptable to our Space visitors. Our problem is not with the space ships and visitors, it is right at home amongst ourselves.

This transformation will take considerable time, in fact under present conditions of living and working, it will take generations under powerful spiritual guidance.

About our only chance for a quicker awakening to our attitude towards our fellow man is to suddenly find ourselves confronted with a catastrophe. something that will rock us to our very foundations . something that will so shock everyone, that they will forget all thoughts of gain and concentrate on preservation of life, without more than a thought of loss of property . Faced with such a predicament, those who have forgotten the old " Golden Rule " or who thought it was only for fools, would be the type who will panic , until someone who was not so completely wrapped up in self , slapped them in the face and brought them back to earth and realisation that they were not the only sufferers.

Suffering and privation is a wonderful cure for selfishness, and I think just such a state of affairs is getting near our doorsteps, in fact it's only just around the corner .

coming events cast their shadows before them , those shadows are surely reaching out to envelope us now. but seven-five per cent of the population

are the ones who see the sunshine, we are at the moment standing on the edge of - are only looking in the direction of the sun. , and don't see the need of making any changes in their direction or outlook on life.

Self satisfaction is a terrible and hopeless state , and while this state exists, one cannot possibly make improvements. for the great majority of improvements we make from day to day are not in a moral or spiritual sense, but in property and material senses, with no thought to improve the relations of man to man. or nation to nation. For the two or three that have the latter improvements in mind , there are a dozen who are throwing every available stumbling block in the way of progress.

Yes, I think catastrophe is our only hope of a rude awakening which will be necessary to bring a great majority of the inhabitants of this planet to a realisation of their false idea of a true way of life.

Catastrophe brings the high and the mighty crashing down to average size, and the great monopolies crash to the size of the little ones that they have preyed upon and wrecked. We had a taste of such catastrophies in Two Wars which found the average men suffering most, not the high and the mighty and the big monopolies. - they grew bigger. Then the world depression was even a better leveller of all time, but the next catastrophe will be the leveller of all time , and will shake this planet from pole to pole.

Then those who have manipulated the stumbling blocks and produced the strife will be sorted out and brought to judgement before a tribunal . that will make the Nuremburg Trials look like a Schoolmaster reprimanding a bunch of unruly kids. Ways and means will be found to bring trouble making people and nations back into line. till finally they will realise the futility of such behaviour. Then with the great catastrophe past, and pass it will, then and then only then will we mix happily with all we live with, work with, and meet up with with anywhere on this planet . and we will be happy and worthy to make people from other planets welcome among us. and we will in turn be welcome on theirs, for then we will be trustworthy enough to be given the knowledge of how to build craft that will travel quickly and safely to those great distances. I do not believe we shall ever blast our way there in rockets .

But this wonderful world is not for us till we are forcibly driven to our knees by world wide strife , and not only remember but put into practice the " Great Commandments " given us by the Great Master Jesus, "AND THOU SHALT LOVE THE LORD THY GOD WITH ALL THY HEART. WITH ALL THY SOUL. WITH ALL THY MIND AND THY STRENGTH" This is the first and great commandment and the second is like to it. -- namely this, " THOU SHALT LOVE THY NEIGHBOUR AS THYSELF". There is none other greater Commandments greater than these.

1+++++

We thank Mr Lawn for this very timely message, which we received some time ago , and finding it in our editorial basket felt it was so up to the moment in import, that we feel its message is one to be greatly pondered upon. EDITOR.
