NEWSLETTER FIFTEEN      AUGUST 2004

### EXAMINATION OF FILES AT RAAF EDINBURGH

Since the publication of the last Newsletter, two members of the project Secretariat have spent approximately 18 hours at RAAF Base Edinburgh in South Australia examining RAAF UFO files made available under our second FOI request.

As previously reported, restrictions were placed upon our examination of these files. As the RAAF would not photocopy the documents on these files for us, we were only allowed to examine the files and take written notes (minus any identifiers of names). At the end of each visit a RAAF Security Police Officer examined our hand written notes to ensure that we had not written down the names of any individuals.

These restrictions meant that we did not have the ability to summarise and catalogue each file, without spending far more time on the 2000 plus pages of documents. We therefore decided to summarise a number of the files and simply document a general description of other files. What follows are our raw notes from this work. We hope this will give you a flavour of these particular files.

File 17/26/Air Part 1 "Exercise close encounter" 90pp. Folios dated between 1 Jul 83 and 1 Aug 83

This file contains details of a situation where the RAAF was asked to have aircraft involved in determining the cause of unknown radar targets in NSW in 1983. Included on the file is a Memo dated 1 Jul 73 setting out the RAAF task.

HQ RAAF Williamtown. Op Order No 11/83. "Headquarters RAAF Williamtown has been tasked vide Reference A to provide air defence resources for the identification of unknown radar contacts reported by Department of Aviation (D of A) air traffic control agency in Sydney. The radar contacts, travelling at high speed, have appeared to the north of Sydney out to 150nm and have been assessed by Department of Aviation as almost certainly resulting from man-made objects." Two Mirage aircraft were placed on 24 hour stand by.

A direction was given that the aircraft involved were not to be armed. Over the period of the operation, aircraft were directed to localities where radar returns were reported. However, no positive conclusions were drawn as to the cause of these radar returns.

File 5/113/Air part 10. 9755-10 "Unusual aerial sightings" File closed 23 Dec 1992. Contains folios dated 28 Aug 1991-23 Dec 1992. HQ no 82 Wing RAAF base Amberley Qld

This file contains numerous reports from Queensland and response letters from the RAAF to reporters. The response letters mention a possible explanation and that only reports with a Defence or security implication are investigated. folio 2 which is a Memo. 30 Jul 1991 from Queensland Police Service Morven to RAAF Amberley. Referring video taken West of Mitchell on 27 Jul 1991

folio 28 UFO report 7 Apr 1992. Male witness. Object cylindrical, circular later square. 1900-2030k. White with green and red lights on. Stationary. Air Traffic control reported seeing a strange object low on the horizon between 050 and 060 radials. Glowing white with red and green lights. Visible still at 2130k.

File 5/6/2 AIR Part 1 "Prediction agencies" HQ Support Command Melbourne

27pp + masked area 1970-1986 of x pages.

This file consists of satellite prediction material.

File 5/113/Air part 5. 9755-15 "Unidentified Aerial Sightings" Folios dated 14 Apr 1982 to 21 Jan 1985. 195 pages. HQ no 82 Wing RAAF base Amberley Qld

This file contains numerous reports from Queensland and response letters from the RAAF to reporters. The response letters mention a possible explanation and that only reports with a Defence or security implication are investigated.

File 5/113/Air part 9. 9755-20 "Unusual aerial sightings." Opened 9 Dec 1989

Folios up to 31 Jul 1991. 244 pages. HQ no 82 Wing RAAF base Amberley Qld

This file contains numerous reports from Queensland and response letters from the RAAF to reporters. The response letters mention a possible explanation and that only reports with a Defence or security implication are investigated.

File 5/1/11/AIR Part 1 "Unusual Aerial Sightings (UAS) Administration." Folios 21 Jan 91 to 1994 telex. 71pp. RAAF Edinburgh

Various SA reports

Includes folio 31M Scales Bay SA 13 Jan 1992 1530hrs Clear sunny still day. 20 deg NW. Lost SE. Blue-grey object. 15-20 feet. Elongated triangle. NW to SE. Photo taken. Not seen at time just came out on photo

Folio 4 Letter from Edinburgh to reporter 3. "The verdict is that this is not a photograph of a real object and is probably the result of torn emulsion during processing."

Folio 7 Letter 30 Apr 92. Civilian head of one of the SA UFO groups. Advising his washing machine changed colour from white to fawn in places. Also letter from Sanyo-change due to ultra-violet light. Letter 4 May 92 Edinburgh to Civilian "Thank you for sending me your report and accompanying photograph of your washing machine. This is indeed a strange case, especially for an Air Force investigation!"

Various SA reports

7 Jul 92. Police officer. 1815hrs Bedford Park. 1 white light S to N. Very fast

20 Mar 93. 0020hrs. St Agnes. 1M. Four yellow/white lights pinpoint. 060 to 070 deg mag. 15-20secs. Gradually faded

28 Mar 93. 1950hrs. 10-15secs. Adelaide. 20-30 objects. Boomerang shape. Like medium bright stars. Straight line to NNW fast

17 May 93. 2030hrs. 5mins. Modbury. 1M. 1 white round light travelled NE to NW

12 Nov 92. Mildura. 1400hrs 1M Photo taken-2 UFOs- not seen at time of taking photo

7 Nov 93. Burton SA. 2105hrs 1M Six red lights 15 deg NW to 45 deg SW  
7 Nov 93. Paralowie SA. 2130hrs 1F Six orange-red lights 60 deg elevation  
Folio 33 Telex-revised UFO policy 10 Jan 94.

File 6/44/Air Part 1. 9755-6 "Unusual Aerial Sightings" RAAF Williamtown

81pp. Folios from 2 Jul 84 to 11 Dec 86

Various pro formas and letters of response from RAAF

File 5/6/Air Part 3. 9755 -3 "Unidentified Aerial Sightings" Chief of Air Staff HQ Support Command. File raised 5 Feb 1987. File held CINTO. 18 pp.  
Page \ Folio \ Contents

1-2 1 Annex B to HQSC ASI 3/A/3. Standard letter of reply to civilian enquiries with list of UFO groups  
3-10 1 Annex A to HQSC ASI 3/A/3. Report of unusual aerial sightings. Initial Unusual Aerial Sightings Report-part 1  
11-14 1 Draft Support Command Air Staff Instruction no 3/A/3. Ref AF 84/3508 part 1 (4) of 12 April 1984.

RAAF is the first point of contact. Most UAS from the public are found to be natural or man-made. "The RAAF accepts reports on UAS and attempts an allocation of reliability. However, few reports are of any direct interest to the RAAF."

Piece about the Condon report conclusions then:

"Experience in the RAAF since the early 1950s supports the Condon report conclusion."

"The RAAF is responsible for the acceptance and evaluation of UAS reports. Those which suggest a defence or national security implication are further investigated and a probable cause determined..." DAFIS is to assess such reports.

Reports considered not to have defence or national security implications are not investigated further and are filed at Command HQ's.

Para 9

"On return of part 2, the report is to be examined in terms of defence or national security implications, to assess whether further investigation is warranted. In general terms, further investigation is to be confined to sightings of a terrestrial, rather than an extra-terrestrial nature. Sightings of interest to the RAAF would involve incursions into Australian airspace by man-made objects, and particularly include sightings near defence to other sensitive establishments. The traditional "lights in the sky" are no longer cause for RAAF investigation."

Para 10

"Command intelligence staff are to be made aware immediately of any report warranting further investigation. On receipt of such a report, CINTO is to:

- a. Inform DAFIS and the Chief of Staff (COFS)
- b. commence an immediate investigation and instruct the UAS investigator at the reporting unit to complete Annex A part 3 (Unit report).
- c. complete Annex A part 4 on receipt of completed parts 1-3 and report the findings of his investigation to COFS and DAFIS."

15 2 Letter. 9 Sep 87. HQSC to VUFORS. Attached is a list of civilian UFO groups.  
16-17 3 Letter. 30 Sep 87. VUFORS to HQSC-amending list of civilian UFO groups.  
18 File note. "File OPS 5/6/Air part 3 was checked and found to be complete." 15 Jul 1994.

File simply labelled 11 ie 9755-11. "Information relating to Unexplained Aerial Sightings (UFOs) and photographs"

This file contained items relating to the 1983 Bendigo Vic flap.

File 5/40/Air part 7. 9755-21 "Unusual Aerial Sightings. " July 1992-June 1996. 151pp.

Including:

Folio 17 Report 15 Sep 90 2150hrs 10mins Moorooloolooloo Qld 1F Age 34yrs and 2 others. 30 deg S to 45 deg S. Pink ball. Car lights went off and on (continuously) and flickered. RAAF comment: "Interesting sighting but no clear defence implication."

Folio 71 15 Sep -0012hrs One other witness. Glowing cigar with windows. Flew parallel to Bruce Highway

Folio 75. Excellent report. 24 Aug 89. Maloweeva Camp site. Electromagnetic response. Compass now back to front

2 Dec 87. Lights up the whole sky. Skin colour even differs from the light. Whole street saw this light

20 Apr 86. Triangular object with lit rear thrust area, no sound. Whole rear area was lit up

19 Dec 85. 2230-2300hrs. 2 mins. Car travelled towards a set of "semi" headlights with a red lit underside. But when it passed there was no sound or wind or buffeting. Immediately it was no longer visible in the rear view mirror as something the driver had just passed. Sop driver stopped and got out to see said "semi" climbing at angle of 45 degrees

Rest low level interest reports

When file checked on 28 Jul 94, multiple folios noted as "unlocated."

File AF 529/1/4/AIR Part 5 "UFOs-enquiries from members of the public and civilian research organisations." 223 pp.

Folios dated 23 Jan 84 to 31 March 94.

This file consists of correspondence between civilians and UFO researchers and the RAAF. Many are requests under FOI for material.

folio 84

To: Foreign Liaison Officer

DAFI

DOD AF Office

Coast watch call from IM Newcastle

7 Mar 94 0100k Off coast. Stationary. Large disc with red bottom and yellow top. Inside dome looked like structures. Object faded.

File 5/113/Air part 11. 9755-13 "Unidentified Aerial Sightings." Folios 15 Apr 1993 to 20 Jan 1994. 125pp. HQ no 82 Wing RAAF base Amberley Qld

This file contains numerous reports from Queensland and response letters from the RAAF to reporters. The response letters mention a possible explanation and that only reports with a Defence or security implication are investigated.

folio 28 Telex from DEFAIR DGPP

Unidentified Aerial Sightings. Revised policy.

“Consideration of the scientific record suggests that, whilst not all UAS have a ready explanation, there is no compelling reason for the RAAF to continue to devote resources to recording, investigating and attempting to explain UAS. The RAAF no longer accepts reports on UAS...” Refers them to civilian UFO groups.

“Some UAS may relate to events that could have a defence, security or public safety implications, such as man-made debris falling from space, a burning aircraft or an aircraft making an unauthorised incursion into Australian air space. Where members of the community may have witnessed an event of this type they are encouraged to contact the police, civilian aviation authorities or coast watch.”

“2. The change in policy will not be publicised by press release. Known UFO groups will be contacted individually by mail and provided with a copy of the new policy together with a brief explanations of the implications for them”

Contact officer is Wing Commander.....”

File 5/6/Air part 1. 9755-13 “Unidentified flying objects.” File raised 10 Aug 1990. RAAF Pearce. 24 pages

This file consists of a copy of WA reports 25 Jul 1992 Waikiki and 16 Dec 93 Waikiki, and a copy of the telex re the new policy.

Folio 23 Hand written notes re Police Bunbury call 0550hrs. Witness A. Lake Clifton WA. Car smell (hot?) Orange light., Few feet above ground.

Folio 24 WA Police 19 Jun 85 to Pearce including two page statement from Lake Clifton case witness. Abstract is as follows:

Report from 43 year old self employed farmer with property at Manjimup WA. Started off driving at 0430hrs 13 Jun 85. Driving in car. Between 0500 and 0515hrs near Lake Clifton saw a bright orange light in the middle of the road travelling south like the witness. It appeared 300-400 yards away. Speed same as him 100-110km/hr. He travelled around a bend and the light disappeared. 6-7kms later it reappeared. "My back became extremely hot and my stomach became chewed up." Shadow came over the car-smell-smouldering. Shadow accompanied by light like Moon-light. He continued on at the same speed. Light stayed behind him. It faded every now and then. The light above his head was gone by then. Other traffic was passing in the opposite direction. No traffic behind him travelling his way. He came to another bend and the light disappeared. 6-7kms later it re-appeared behind him and above him. Back became hot and stomach upset again. Smouldering smell. Light then disappeared at a bend. Re-appeared without warning near Binninup on a straight part of the road. This time there were two lights. Then for a few minutes he slowed down expecting two lights to pass him but they disappeared. He then travelled on to Bunbury. "My car was not affected in any way."

Note on file that there was a note in the Police log Bunbury that a person called at 0550hrs 13 Jun 85 to report being followed by a UFO.

Copy of Learmouth SA report on this file

Ref A HQESL245/COBS of 260016Z Sep 85

1. Reference A gives details of an unusual radar contact on the TPN-802 radar at ESL. ”The investigation by DAFIS has found no conclusive explanation for the contact.” Tracked 155 at 120kts.

1. 2-3 sweeps 050/60 from ESL at 250007Z

2. 2-3 sweeps 060/60 at 250012Z

3. 2-3 sweeps 065/58 at 250015Z

Weather, fine, warm.

folio 4 –copy on Hessdalen IUR Nov/Dec 1983 article sent to RAAF by VUFORS

Includes report 1967 June from civilian in HIGHTIN p/c 3216-0530hrs No moon. No wind. Dark. Paddock adjacent to Princes Highway. Mount Morial(?) at the 91km post-3-5 chains North of road. Craft stationary for several minutes. Dairy lit up brighter than day and cows very agitated. Went to see what was up. Saw craft in paddock. Lighting up paddock. There was no visible source of light, no port holes, windows or antenna only a large door open. Door closed and object took off. Revved up to a high pitch. Took off fast. Laster that morning went to site. Circle of ground dry as a bone. Grass was still wet at the inner and outer of the circle. Witness stated that they were a former member of the RAAF. Sketch of object on file 96 feet diameter. Power at dairy was reduces in voltage. Trace was 90- ft diameter with a 3 foot doughnut shaped ring.

folio 7 (15 pages long.)

Memo 12 Aug 1987 RAAF Pearce to Airlift Group HQ RAAF Richmond (INTELO)

“1. Attached is documentation of an unusual aerial sighting made bt two members of SAS during recent exercises at RAAF Learmouth. Of interest, and these are points that INTELO RIC ,ay decide to follow-up are:

- a. air-ground VHF comms on the night of the sighting (and on that night alone) were not achieved and
- b. that at least some of the crew of the 36SQN aircraft also observed the light but decided not to report their sightings.

2. This headquarters has no explanation for the phenomenon observed...”

Letter from Australian Army-The Special Air Services Regiment Campbell Barracks Swanbourne WA 6010. 7 Aug 87. Ref R459-1-1 to Senior Ops Officer, No 3 Telecommunications Unit RAAF Base Pearce from Major..... Intelligence Officer.

UAS report

Report form 1 -2SASSQN SASR Age 36 Witness A

At RAAF airstrip Learmouth. North/south runway. 9 Jun 1987. 1900-1910hrs. Wispy thin cloud at 10,000 feet. Nil ground wind. Visibility good. First observed East at 1600mils 45 deg el. Last seen NE at 800mils 45 deg el. Initially object at 5000 feet then moved up into cloud at 10,000 feet. Used naked eye and binoculars. One white light changing/pulsating to amber. About 5m in diameter. Round. Like a bright star. Zig zag movement from E to W. Nil sound. Approx speed 200km plus slowed to 80km. Disappeared with great speed.

Approached from E towards the strip. Strip lights were on. It zigzagged to left and right of its axis at 5000 feet. Arrived over the strip (northern end) and went into hover and remained stationary for 6-7 minutes. Light changed colour from white to amber, then it moved upwards into light cloud. Moved NE slowly, then at great speed.

Part 3 of the pro forma is investigating officer's evaluation.

14 Jul 87 at SASR RHQ. Witness has stable personality and is reliable. "Cause is unknown." "It would not appear to have been an aircraft."

Witness A was setting up a DZ for a night free-fall descent. At 1855K was at the W side of the strip opposite civilian terminal. At 1900K the light came from the East. The C130 aircraft involved in the exercise was still on the ground. It became airborne at 1915hrs. Once aircraft airborne tried to establish VHF comms. Two VHF radios used-could not communicate. Fresh batteries in radios. When activity finished witness spoke to pilot of C130. Aircraft had tried to communicate with no success. This was the first time 3-9 June 1987 that comms ground to air failed.

Report form 2 Witness B age 26

Same details as witness A. Witness B is a medic. No connection with any UFO organisation. Stable and well balanced.

copies of VUFORS Bulletin on file

Copy of Richard Haines's dust analysis from Mundrabilla sent in by VUFORS.

File 5/113/Air part 7. 9755-18 "Unidentified Aerial Sightings." Opened 23 Apr 1987. Last folio 8 Mar 1988. HQ no 82 Wing RAAF base Amberley Qld. 174 pp.

This file contains numerous reports from Queensland and response letters from the RAAF to reporters. The response letters mention a possible explanation and that only reports with a Defence or security implication are investigated.

File 5/113/Air Part 8. 9755-19 "Unusual Aerial Sightings." Opened 13 May 1988
