ISSUED
BI-MONTHLY
PRICE 2/-

SPECIAL NOTICE .

TO ALL SUBSCRIBERS AND READER OF " PANORAMA" AND MEMBERS OF

U.F.O.P.I.A.

.....

FIRSTLY I WANT TO APOLOGISE FOR THE LATE DELIVERY OF THIS EDITION WHICH SHOULD HAVE BEEN OUT TO YOU BY THE END OF 1965 (OVERSEAS) .

THIS HAS BEEN DUE TO YOUR EDITORS SUDDEN ILLNESS AND HIS HOSPITALISATION FOR THREE WEEKS. AND THIS IS BEING TYPED JUST AFTER HIS RETURN HOME DURING CONVALESCENCE.. HE IS HAPPY TO REPORT THAT HE IS NOW WELL ON THE WAY TO RECOVERY.

This made a delay which caused the above back loss of time we know and believe that all concerned will understand.

IT IS POSSIBLE THAT THE NEXT EDITION WHICH WILL BE THE FIRST OF VOLUME 5. MAY HAVE TO BECOME A DOUBLE EDITION TO CATCH UP BUT IF SO IT WILL CONTAIN A LARGER NUMBER OF PAGES TO COMPENSATE.

SECONDLY. OWING TO THE AUSTRALIAN COMMONWEALTH CONVERTING TO THE DECIMAL SYSTEM IN FEBRUARY OF THIS YEAR. 1966. ALL SUBSCRIPTIONS FROM JAN. WILL BE CREDITED AS PER THE DOLLAR AND CENT SYSTEM . HENCE EACH COPY WILL FALL IN LINE WITH THAT OF OVERSEAS TO RETAIN AN EASY BOOK SYSTEM VIZ 25 Cents. OR 1 DOLLAR 50 CENTS FOR THE SIX COPIES PER YEAR. THIS WILL MAKE THE AUSTRALIAN COPIES A LITTLE DEARER BUT FOR SOME TIME WE HAVE CONSIDERED THE RISING COSTS OF PRODUCTION OF THE PAPER AND SUCH WITH THE HEAVY POSTAGE COSTS HAS MEANT THAT EVENTUALLY A RISE WOULD HAVE TO BE MADE OR LESS PAGES .WE HAVE CHOSEN THIS CHANGE OVER PERIOD TO MAKE A GENERAL COVERAGE SO THAT THIS MAY WE HOPE MEET THIS RISING OVERHEAD COST AND THUS KEEP US ABOVE WATER.

WE NEED URGENTLY MORE SUBSCRIBERS. FOR WE HAVE BEEN SET ABOUT BY VERY KEEN COMPETITION , WE HAVE MET SUCH BEFORE AND HAVE STILL SURVIVED. WE EXPECT TO CONTINUE BY GODS HELP TO DO SO STILL. AND YOU CAN HELP BY INTRODUCING THIS MAGAZINE TO YOUR FRIENDS.

WISHING YOU ALL THE VERY BEST FOR THE NEW YEAR AND TRUSTING YOU WILL MAINTAIN YOUR VERY VALUED AND GREAT ASSISTANCE BY SUPPORTING STILL THE MAGAZINE WITHOUT WHICH WE CANNOT CONTINUE THIS WORK .

I AM ,

YOUR FRIEND AND EDITOR.

FRED STONE.

MEMBERSHIP OF U.F.O.P.I.A.....

THE FULL MEMBERSHIP OF THE SOCIETY WILL NOW BECOME UNDER THE NEW SYSTEM THAT OF \$2 (TWO DOLLARS) ACTUALLY THIS IS A LITTLE LESS THAN THE OLD CURRENCY OF £1/1/- BUT TO MEET EASY RECKONING HAS BEEN DECIDED UPON AS SUCH.

1 9 6 5 IN RETROSPECT.

We began this year with an Editorial which told our readers that the year would be one of GREAT DECISIONS , one which would see sides being taken, this applied to individuals as well as Nations.

Reviewing the year as we come to its finality (this being Mid. November , as we print this) we cannot be more than sure that our predictions have literally come true in so many ways.

On the International scenes. we have witnessed many serious decisions being made by the great powerful nation of the USA. and its leader President. Johnson has been forced into making such vital decisions. some of which may yet prove to be the prelude to much more serious ones yet to follow. Some of the decisions made by his government are so completely against the old Constitutional ideas that one wonders where and who this man is lining up with. remember we said taking sides " .

Whilst we are on the subject of this president. we mention the prediction given to our friends and associates around the world concerning him , in which we said that the months of Oct. and Nov would be serious ones for him especially for his health. we need not mention how this came true. also the fact that we said attempts would be made to assassinate him. whilst this has not in fact been made . yet the news items have stated that an organisation was asking for such. not that we believe in its ideas, but at least public declarations were made concerning such. and proving indirectly at least our prediction .

The Popes visit to the USA and elsewhere has caused many to make some great decisions. including the ecumenical council. Not that we consider these for the best , but nevertheless decisions of prime importance were made.

Probably the most vital decision in our opinion which we feel will have the greatest effect on us as a white race, for the repercussions which will follow it we feel will be staggering in its impact, and that is that made by the British Government against that of Rhodesia request for Independence . It would do well for Mr. Wilson to remember a similar decision which caused the parting of the great USA from our family . We still feel that people who sit at home in arm chairs have no right to dictate terms for others whose problems are far beyond the comprehension of the big wigs who refuse to face facts. Rhodesia has seen what effect the handing of power to incapable people can do for all around her she has witnessed the return to barbarism and cannibalism by those who demanded and got their so called freedom .

Mr. Wilsons own probl masin a much lesser degree with the same type of people in his larger industrial cities should have at least madehim think twice-,before he took the big stick policy. That is of course of Mr. Wilson is actually acting as Britains leader. or just a puppet for deeper forces behind the scenes who are calling the tune. and whose power is formidable .

The decisons therefor will we feel cause one of the greatest stir ups in the world we have ever seen . maybe we will be wrong. well we do not claim to be infallible. There are those of course who have claimed such , and today we have witnessed some of the most astounding changes of tune that would have been impossible even twenty years ago.

So much for 1965. what of 1966?.

We feel that the coming year will show more than ever to be of of JUDGEMENT Such judgements falling upon peoples and persons who stand in the way of the Divine Plan. already as we stated in the above Editorial some of these have been removed. out of the way. Others are sobn to follow , in fact the coming year we feel will make people open their eyes and say" Gosh, so and so hasgone thats another big figure in world affairs. " The line up of the sides is inevitable, the great and important thing is for one to be sure which side they are on.

The greatest difficulty which faces the average person today is that of how much a sucker he has been, and how much boloney of all sorts of educational ideas he has absorbed, which if laid against the TRUTH would make him shudder as to how he could have been duped so long. For on every side his thinking has been taken over for him and he has inculcated ideas which are deliberately fed to him to cause him to beleieve in often the case the TRUTH TO BE A LIE. He is made to feel ashamed of the things and ideals which were the great foundation stones of his race. Even his morality is watered down so that he no longer is shocked at actions which deep inside him he knows is not right . He is being made to feel that ti love his country. his people, his race is something bad. he listens to all sorts of hot air. regarding how the have not people of the world have suffered at his hands . not stopping to think that these same people have had their culture for years (or so called) and that they never once have RISEN sufficient to produce that know how or the goods to sustain themselves , so they call on HIM to do it for them and then bite the hand that feeds . educates. heals and gives and gives. out of his own taxes. Yes such decisions will make men begin to stir and think for themselves for circumstances will force him to wake up and see how long he has been put to sleep by the feliberately planned take over of his mind and his world.

Such awakening will have its impact on all his various phases of life. and probably one of the greatest shockers will be that which will reveal the sad state of those who should have been his greatest teachers and helpers. thaat of the Church. we depict a revolution and taking sides here of a colossal scale.

and a return to the fundamental beliefs which in the past PROVED themselves to be a bulwark in times of distress and emergency . For if God be for us who can be against us. and watching our dilemmas there stand the Host of Heaven the Spacebrothers, under Michael the Archangels leadeship, poised, waiting the Command of the Christ. to reenter world affairs and take His rightful place as King of Kings and Lord of Lords. Meanwhile the world leaders go on as though such a thing is impossible. and as though the world belongs to them and their plans are almost fulfilled. Wt-it a rude shock awaits them, and all

the political , and religious leaders who have fallen victim to their financial power and big inducements. and who have fed the false propaganda and lies to a slumbering people, what a rude awakening for all, when the slumberers awake as they are doing.

How important it is of where we stand. lest we partake of the Judgements which are to fall on Modern Babylon .

Despite all what may be said otherwise, the Space Brethren are interested only in fulfilling the Plan of God. Mans schemes are not even considered. hence if one is to be on the "Side of the "angels" and to benefit from their advent then the best way to do so is to acquaint oneself with the Plan which THEY and not the United Nations or any other organization has for this world.

If you are perplexed and wonder How can I tell or know. ?. Look for the symbols and the form of worship. They go back into antiquity, but are still there today Look for the Dragon, the Snake. symbol worshippers. Demon Gods on their Temples all of whom are carrying forward evn today the worship of the Snake Dragon God Lucifer who feell and whose plan is STILL to overthrow God's Plan . Look for the Ancient Cross symbols The Light bearers symbols, The sun symbols and you will find the worship of the One true God and HIS PEOPLE in all ages even yours today . Its not so hard if you SEEK, for you shall FIND. Then having opened your eyes. get onto the path which shows by the fruit they bear, who are in the Plan and who are not. and to whom the DELIVERANCE is to come, and to whom the Judgements will fall. but make sure you do not try and play a two handed game. for you seal your own doom if you do. Finally LOOK UP FOR YOUR REDEMPTION DRAWETH NIGH. and 1966 will see it closer than ever .

During the coming year we ask you to occasionally take up these humbly written pages and compare them with world affairs , and watch as the Eagle symbols of the Nations begin to rise and join together to CRUSH. the Serpent and snap off its head . in its beak. Oh yes the high ups will try and crush you, if you try to fit into the plan. they may even bar you from a job as they are doing in certain State departments of some nations. even demanding you fill in a question-air. " Do you believe in the Coming of Christ?. Do you believe in the Bible?. and if you do you know you had better seek a position elsewhere for the power of the Snake Gang have taken control. but not for long. Thank God. Maybe you will not be able to buy or sell except you have the sanction or seal (mark of the Beast) on your goods. Yes all this may be your lot of you have th gutz to oppose them , and THEIR PLAN, but be assured GOD IS ON YOUR SIDE and they cant win . If your inspirations come from any of the sources mentioned above who ally themselves to any of the above symbols. Drop it like a hot cake. for it will be hotter for you if you don't.

What a J remiah you say. What ~~re~~ pessimistic doctrine. NO NO my reader, NOT doleful predictions but. Joyous. Hopefull, Excitingly OPTIMISTIC. for we KNOW the GREAT COSMIC PLAN is to be fulfilled IN OUR TIME.

Of course I am well aware that there will be many Flying Saucer Groups who will say " He's a crackpot" but we are prepared to play a waiting game. we have for years ans seen on many occasions what we have been called a crackpot for. lit erally c me true to the confusion of the scoffers. We await with expectancy the opposition journals writing against us. but we have seen some of such too come a go. for despite all osrts of opposition and deliberate attempts to stifle

the production of its pages. even slander being used to belittle the Editor we are still going. whilst others have come and gone or had to start afresh some several times.

This is no boasting personal attitude, but an acknowledge ment that to God alone who has been repsonsible for the strength. and power. to commence it and keep it going. If the Flying Saucer subject did not fulfill what I believe to be God's purpose or to be a part of His Plan for the Coming Kingdom of God on Earth. I would not only be completely disinterested in it. but further would never have begun the research into if intriguing facets.

There are many of my friends who are not so minded , but I have no desire to place a false conception on my readers as to where I stand. even if they cannot agree with me. at least they can grant me the right to my opinion.

Time will tell. so this crackpot looks to 1966 with a keen eye, and probably will recieve letters as he has this year . saying " we Thought your ideas and statemenst wild and ranbing, but have come to find you were right after all" or, " I read your magazine loaned by a friend, and told him you were acrakpot, but since have find what you said so true, after reading events in the paper, please add me to your subscribers"

One of the best which touched my heart was the following, " Maybe your magazine is not as good as others in its production and has many typing errors , and compared with the colourful presentaion of others is drab. from a pictorial viewpoit, but oh boy, the meat inside proves they old saying, don't judge a book by its cover. or the sausage by its skin . for when seriously compared I had to admit that. maybe thei pictures were all there and the pretty cover, but so much was just what had been printed in our own papers No serious matter for hinking people. and as for an insight into world affairs and to the relationship to the Flying Saucers. I place your magazine tops. Keep the good work up. " Yes it is worth while after all.

Take courage with me dear reader and look forward to 1966as a great eventful one full of surprises and to those who look for it. the Hand of God moving to delievrv His People from the Luciferian depots and their plan for a world take-over . God Bless you all for your help in 1965 and may He keep us Faithful in 1966.

THE EDITOR.

A READER CHALLENGES THE SUVLA BAY STORY.

Sir, In your last issue of Panorama there is a misleading statement therein concerning the "cloud" which engulfed the 1/4 Norfolk Reg . I quote, " They all moved away northwards towards Thrace, the breeze however was still blowing from the south to North which meant that the clouds moved against the wind. " How Come? . As a subscriber may I suggest these obvious mistakes be corrected.

I was however interested in the mystic phenomena as I was present on Gallipoli and at SUVLA BAY WHERE WE LANDED . I was a member of the 1/5 Essex Regt. and often fought with or supported the 1/4 Norfolks. I was wounded and evacuated from Suvla 20th Aug. after engagement in the vicinity of Hill 60 and " Burnt Hill"... No mention was made of the phenomena of the "cloud"

"Suvla Bay Story. cont (2)

by any soldier I knew and I should have thought men of the 1/5 Essex Regt . would have seen the cloud.

I am not in a position to challenge the statements of the two New Zealand men, but it is peculiar that literally thousands of men of English Regts. were in the vicinity and as far as I know reported no strange occurrence Surely someone would have noticed this strange happening other than the New Zealand men . I think under the circumstances that the only explanation would be the N.Z. people had an E.S.P. experience or viewed the sight from an astral position . I would be very interested if any more light can be thrown on the matter through official documents. If anything further is discovered please inform me.

ED. COMMENT. We apologise for the obvious typing error of the moving of the wind which should have read North to south , not the opposite as printed. however a check on the original hand written article shows this mistake and was possibly that of the writer done unwittingly.

We suggest that our reader or any others who too may challenge this story to write the author of the article whom we found a most sincere man when he first related the story to us when I was in New Zealand. We cannot question his sincerity or that of those who signed the written statement concerning the story and who were present with him .

Mr . Reichardt claims he saw the article written up in a War History book which he read in New Zealand. but could not remember what particular War History it was . he said he showed it to others who also read. it.

However I myself in returning to Australia looked up the two Official War History books we have here in our Adelaide Public Library, and although the names of all the Regiments mentioned including the 1/5 Essex is given place no mention is made of the cloud incident. I wrote Mr. Reichardt re this absence of evidence and the article printed was his reply in that he produced at least 2 other witnesses who claimed his story was true and that they had participated in it. I felt that I could do no other than publish in the hope that somehow others who were present at Suvla Bay on this occasion may be able to come forward and relate perhaps contributory evidence. It seems that so far , that only the reverse has been the case. We can only hope that some day the actual printed article Mr. Reichardt referred to may turn up and we shall see both he and his friends evidence vindicated.

We appreciate the ready reply of our reader especially as it shows that he is READING the magazine and not merely brushing through it. and in keeping with our policy we print his or any other criticism in all fairness to all concerned.

SIGHTINGS OVER ADELAIDE ETC.

Reports have reached your Editor of sightings which occurred during the Festive and New Year seasons. Unfortunately whilst he was in Hospital.

The accounts of the observers were that on one occasion an object as large as the moon was seen travelling across the sky near the Seacoast .

The second object was seen travelling over the city of Adelaide , and after reaching the centre well overhead it changed its course and flew away .

"FLYING SAUCERS AND THE CHRISTIAN"

By The Rev. B.W. Habberton.

The following was given as an address to his Church on Sept. 9th 1965.

His address is 111, Woburn Ave. Benoni. Transvaal Sth. Africa.

After Reading Col. 1, 12-20. He said.

Quite a lot of correspondence is flowing through the pages of the world press concerning what is called "unidentified flying objects". Odd reports are being published about space vehicles landing and taking off..or more frequently, hovering over a point on our planet(as we call it) and then disappearing at great speed, and there are a few of us who can claim to have dismissed all these reports without a second thought .

Recently letters have been published discussing the theological implications of such phenomena. Whether or not beings which may exist on other planets embraced in a common salvation with that provided for the human family, for instance. The New Testament prayer may well serve to confirm that if such beings exist, they are fully provided for, and the inheritors of all those spiritual blessings for which all Christians hope.

It could therefor be worthwhile to see if we can learn something profitable from such a speculation about other beings. The use of our imagination is not precluded by the Christian Faith , provided we frankly admit that we are speculating about the unknown. There may well become new attitude towards truth, that we can gain from such an incursion.

It seems reasonable to me to assume that other beings possessed of vehicles of space travel greatly superior to ours are much more advanced in intelligence and perception than we. How can that be? , none can say.. from an evolutionary point of view they may have obeyed the Gospel more readily than we... or they may not even have needed a Gospel in the same way that the human family has needed one , for they may not be infected with disobedience as we.

Obviously, if they were as brashly enterprising as we human beings in our space exploits plan to be, then they would not hesitate to make themselves known to us, but they not only hesitate but definitely avoid serious direct contact with our race.

This seems to be in keeping with that which I have postulated. They have sensitiveness of far greater refinement than ours. The human race is only just beginning to learn a very little about extra-sensory perception, although everyone knows something of it, e.g. : Without a word spoken we often know if we are disliked, or unwanted. or suspected, or feared.

We may well wonder if truly superior moral beings would commit themselves to immediate contact with humanity and its attendant evils. Were such visitors possessed of mere mortal sight they are now being entertained or repelled by hatred, murderous wars, and preparations for destruction throughout the globe. Hatred, jealousy, suspicion and prejudice raise their ugly heads so often both before us and in us. Even in your own journey to work, to the shops, or elsewhere this day, you have been aware of the clamour of hate hooters in the cars of impatient drivers all snarled in traffic jams.

In fact, don't you think it to be more than probable that our planet is not ready to receive celestial visitors -- if we may name them so-- and furthermore , IS KNOWN TO BE QUITE UNFITTED for such further insights to God's Crea-

"F.S. and The Christian " (2)

tion. Such creatures as I am visualising are more closely in touch with God than we, and thus more sensitive to the potential of evil which exists with humanity. Justifiably they may be unwilling to commit secrets of travel to such greedy and dangerous creatures as the human family in its present state. They recognise, as our own occasionally illuminated consciences warn us also, our present untrustworthiness. For we threw out of our society the only perfect manifestation of moral dignity and beauty of our race has known, by rejecting Jesus of Nazareth, and by murdering Him.. and still we have not repented of the deed and changed our ways.. speaking generally.

So, you see, our little excursions into spatial possibilities provides us with a spur to wards Godliness... a call to see that we, personally, embrace the highest standards of conduct of which we know, and thus improve the world of which we are a part, by making much of Him, whom, both yesterday and today, our world rejects.. so let us pray ..

.....

Editorial Comment. ... We thank the Rev. Habberton for his timely talk. and in the main agree with all he has to say. However the latter remarks of condemnation to those who rejected and murdered the Christ. can hardly be placed on any other the shoulders of those who committed this fould deed. for we are told the " common people heard Him gladly" and therefor it was into the hands of the despots if His time the blame must go. for like as today the common people are carried along by the propaganda of thos instigators of wras and makers if such, who today are the latter day descendants of the same folk who m the Christ called " a generation of vipers" and on another occassion. " Ye are of your Father the Devil " clearly showing to them and to us today that it was not the Children of God or the sons of God who murdered Him. but the spawn of the Evil one Himself. This despite the loud mouthings of Papal decrees that the balmd should not be attached to them. if not to whom we ask. for the scriptures are quite clear on this and only those afraid of them and their power, or who are working in league with them, try to evade this great issue. No good Sir, the balme must be placed where it is written it lay. True God's children are wandering afar, and are being led by the nose into all sorts of schemes which are all in direct contra. to the Plan of God. but the awakening has begun. the judgements are falling and onto those whom it justly should fall. God's people will yet procalim His Christ as King and Lord of Lords. to this end we hope and lock and wait. and our brethren from space await also His Command. to assist us to so bring His Kingdom in. when we have cleansed us of our ways, and call on Him toassist us.

.....

THE GREAT PYRAMID.

=====

By. Egerton Sykes. "PENDULUM" Oct. 1965 Vol. 15. No.4.

As most people know the Great Pyramid is situated on top of a small plateau rising from the banks of the Nile near Cairo. At the bottom of the steep slope stands the Temple of the Sphinx which formerly abutted onto the Nile Waters.

This Temple was the place at which the various dignataries disembarked from their boats in order to go to the Great Pyramid. As the distance separating the two is not more than a quarter of a mile it is generally assumed that an underground passage was dug through the rock to connect the two edifices in order to permit the priests and officials to move from one to the other without mixing with the public.

The Great Pyramid cont (2)

Practically every dowser who visits the pyramids is convinced that a passage exists and that it should have its end in one or more undiscovered chambers in the pyramid itself. However the conditions are not suitable for any extensive tests to be made, the Temple of the Sphinx has not yet been entirely denuded of the accumulation of sand which has drifted there over several thousands years, while the pyramid is built of thousands of blocks of stone each of which weighs several tons which means that ^{for} any practical purposes they are immovable.

The only hope lies in discovering some form of concealed entrance which should be quite possible. The fact that nobody has done so to date means that very little. Last week at Portsmouth, there were discovered on a shelf in one of the cabins of H.M.S. Victory which has stood at Portsmouth dockyard for 150 years as a national monument to Nelson, two muzzles loading guns which had been mislaid in 1860. When one bears in mind that generations of sailors have been engaged since then in looking after the ship it seems almost impossible that this could have happened. But it did.

Under the circumstances the fact that we have not yet found the hidden entrances to the Pyramid in about the same length of time need cause us no surprise. It is reported from Cairo that an effort will be made to use cosmic ray measurements to show where such hidden chambers might exist. This may be so, but I am sure that a good dowser could provide the answer in far less time and at a smaller expense.

We thank Egerton Sykes for his views and although we have not the ability of dowsing, have seen sufficient evidence in practical demonstrations to wipe any doubt of the ability of certain people to perform such feats. In regard to such being used in the search for the hidden chambers as above Why Not?

The existence of such has been the conviction of many for some long time and many of the Esoteric schools have claimed that such exists. All the evidence indicates that such would be the logical conclusion for the both edifices are without doubt not tombs as some claim but Temples in the truest sense. and were used for various initiation and other ceremonies. One does not have to be "taught" very much to know that the Kings Chamber is one of such all the symbolism is there of practices of certain orders today. We can only hope that soon this evidence will come to light and we shall know more clearly what relationship there is between these two wonderful structures made by under the instruction of our forefathers long ago.

MARINER IV MARS PROBE. By J.N. McKie. Adapted from ORBIT (ENG) Aug. 1965

News was given at the 16th World Space Travel Congress held in Athens (ending Sat. Sept. 25th) that closer examination of picture No.11 had revealed a faint line on part of the photograph. Mr Frank Schutz of Jet propulsion Laboratory in Pasadena, Cal. told delegates that the marking was in the form of a straight line and ran for about 160 miles. Since the possibility of such a thing being of natural origin is fairly remote, if this object is a part of the Martian landscape, and not a fault in the picture taking or making apparatus, then it would indicate a possibility of intelligent life on Mars.

The Jet Propulsion people are going all out it appears to make sure that the marking of future No 11 is either a feature or a fault, and it is expected that some months will elapse before the answer is known.

It is with regret that we find ourselves forced to take up an opposition against what previously we believed to be a genuine case of "contact" of a human individual by soace brethren . but to remain silent under the present circumstances, would be committing a gross evil to our own conscience, and in doing so become an accessory to teachings being promulgated , perhaps in the belief as correct, but neverthelss in our estimation diabolically dangerous in its inuendo and suggestion which to the unwary, being so subtle could place seeds of false belief and lead to great confusion .

We refer to the recent writings claimed to be received by Mr. "X" of Timaru by what is known as automatic writing , and printed and placed into circulation by our very good friends Fred and Phyliss Dickeson of Timaru. New Zealand.

To begin with we would insist that this is not a breaking of our friendship which we value deeply and sincerely hope will never be severed. However there comes a time when even with a great friend. one finds themselves at a difference of opinion, and although this does not necessitate a severance of friendship, it creates a position in which each have to allow the other the right to his opinion , and this we do, in the hope that TRUTH shall indeed conquer.

To place this matter clearly before our readers for evaluation . we briefly recapitulate. Last Year whilst touring New Zealand we met continually the question from all sides "Do you think Mr. X. is genuine?" or. " What is your opinion of the "X" writings.?" Now previous to my visit to N.Z. I had received from Fred. several tapes, and letters telling me all about "X" much of which to me seemed to be very co-related to messages recieved by my own workers and myself here in Australia, hence I was inclined to feel that his case was genuine. But feeling that I would prefer to meet him face to face and by personal contact make a better assessment. I refrained from giving a definite approval of his experiences until such took place and said so to those who made the above questions. At last when I arrived at Timaru this opportunity came true. and I met Mr. X. and his good wife several times whilst at Timaru under the wonderful hospitality of Fred and his good wife. a very happy occasion indeed.

These meetings with Mr. "X" indeed were wonderful experiences and in my earlier Editorials this year I spoke of and related some of the very deep and happy events which took place on these occasions. and after this I said openly that I felt that his case was indeed very genuine, and more, did so because much of that revealed to him was in concord with that which we ourselves had recieved and also many from other places overseas , all of whom had no connection with each other. Hence it was only right that I should say his case was genuine in that it showed no contradictory statements to that which we already knew.

Then not long after my return from New Zealand. there came the news that in contra to the methods used by the brothers in leaving messages for "X", he had suddenly been " moved " to write it out himself etc. in other words he became " impelled " to commit what he was receiving, supposedly from the brothers into writing in the same form as is commonly known as " automatic writing " .

Having had some experience with others of the method. I was well aware that this was open to many kinds of traps for the unwary. and unless a very distinct method of discernment or clearing of Where, What, and How the origination of the message is very clearly made. one so doing can be open to all sorts of mental " take over " and that this leads to all sorts of contradictions and errors

"Mr "X" Cont (2)

We ourselves had been warned to be more than careful in determining the " source" of all communications , both in mental telepathic and any other form of psychic phenomena, although we ourselves had only that of telepathic. contact. as far as such messages recieved.

Let me make it quite clear that we are NOT putting a case against " automatic writing" for many such instances can be quoted from the Bible in which persons were under the guidance of the Spirit of God told " to write that which thou hearest , or see-est ". hence we have no argument on this score but insist that such writings MUST be tested as to what source it springs from.

As I see it persohally, automatic writing falls into three prime sources.

1. From purely mental subconscious upwellings of the writer personally, and is therefor NOT from any Spiritual source but purely Psychic phenomena of ones own mind.

2. That from a spiritual source which is a negative source such of which can be clearly determined by the form and type of message recieved. for if it dishonours all the Highest teachings of the Cosmic Law and more gives ^{NOT} honour to the Great Architect. Creator, and Father of us all and in particular to the Christ Master . this accompanied by manifestations of physical and mental character which are not of the highest . Then one can be sure that such is not coming from high sources of wisdom but the lower. These can be very subtle and most decieving and APPEAR on the surface to be most acceptable. but when carefully examined in the light of the teachings of The Highest Master of all, often prove to be very much the otherwise. and lead the believer into bypaths of error. for in this as in all things the maxim " By their fruits ye shall know them" is certainly one which can be strictly applied. for once the veneer and sugar coat is tasted and put over the poor gullible and innocent seeker. the fruit indeed begins to show its true Flavor.

The THIRD source is that from the highest powers of LIGHT, and like its anti-thesis, also is revealed by the Truths it relates and in the outcome of such teachings. Messages from the Highest source from which the brothers in space come are not a mixture of trutha and error. but TRUTH in the essential essence. They never lead to confusion, or contradict themselves. but when compared with other similar types of messages will always CONFIRM, and NEVER DESTROY.

Decstruction of any high principles no matter how subtle can only originate from the Destroyer Himself or his minions.

Having made myself clear here I now would refer to the writings of Mr" X" i.e. those latter recieved in the above catengory .

At first being cautious man I read the first of the series a little apprehensive because I was not altogether satisfied in this new phase of his experience. knowing as I said of the traps for inexperienced folk, however desiring to give him all the benefit of any doubts. I read it and felta little pleased that so far at least it had very little in it which could be openly attacked as unacceptable to my own findings. But as the writings progressed there slowly began to emerge the sure sign of all that was not right .

His belittling of the Christ and relegating Him to lower staus. was to me a clear sign that if sort of thing kept up, it would not be long before he would be coming out with further matter which would follow the line of all negative sources of origination .

Mr. "X" (3)

By this time many of my readers and friends who had received the writings especially in New Zealand, had written to me asking my opinion of them . especially as I had told them I had felt his case was a genuine one, when over there.

Naturally I hated to have to make a public statement withdrawing my support of his writings, and so wrote to Fred and Phyllis Dickeson and warned them of the trend of things and openly told them that I was not at all happy in the type of messages received. However as always I feel each must follow his own path and they had this right, even if I could not agree with them.

This has not meant any bitterness between us, but an agreement to each his own evaluation of the writings.

However the last paper received , and we are led to believe it is the last, for which we breathe a sigh of relief, more for the Dickesons than anyone else. In this last edition Mr "X" I felt showed once and for all a clear proof that the source of his knowledge was certainly not from the forces of light, although they claimed to be the angelic " messengers" for their discourse on the Godhead. is so violently opposed to all that reverent attitude so familiar to those of us who received telepathic communication. that it left no doubt in my mind of what had occurred.

The theological rantings were typical of those of all atheists, as per Ingersoll, Mc Cabe etc. who used the very quotations in their attacks on the Bible and as did " Mr "X" twisted them right out of context. and their original meaning. for if those who inspired Mr. "X" WERE the angelic brothers. They would have known the TRUE meanings of the quotations they twisted and tried to make out as being a distorted idea of God. that we were supposed to have.

Any Junior theological student knows that many words in the Bible due to translation have a completely different meaning to those which we accept today. to quote one used by "X" himself. the angels. (messengers) the old conception being winged airy fairy creatures. and so many more.

This alone proved that such messages were certainly NOT from such wondrous beings whose knowledge of the Eternal Cosmic Laws and Teachings is far beyond our own. We do not intend to fill these pages with a lengthy discourse on the pros and cons of the writings. space does not permit it. neither do we desire to enter into cross fire with our friends on the matter. we merely state we cannot endorse the "X" Writings and therefore to all our readers. openly state this and leave it to themselves to evaluate them. In the first few pages of the last issue also he speaks of the racial problems. and classifies us all as chemical substances this we do not accept. for the Adamic race at least as far as the colored races which existed here long before the Adamic race appeared a mere 7. 400 years approx. ago. the others being here thousands upon thousands before us. I would suggest that Mr. "X" did up a few facts of anthropological findings and biological study. before he starts bundling all the races as from one source. and herein showing that no brother from the LIGHT space ever inspired him to write such . for they KNOW OTHERWISE.

Having now cleared our conscience and stated where we stand we close the discussion by saying that we feel that the writings of Mr. "X" are MOSTLY those stemming from his own subconscious mind , and probably helped by a little intrusion here and there by those of negative forces. BUT CERTAINLY NOT AS FAR AS WE ARE CONCERNED THOSE FROM THE ANGELIC BROTHERS FROM SPACE. TIME WILL TELL. THE TREE MUST PRODUCE ITS OWN FRUIT .

"OUR SATELLITE THE MOON"

The following is taken from the ALLEN MOON CHART. P.O. Box 768, Salem, Oregon, USA, and published in The Kingdom Voice of England Oct 1965 Edition.

"In view of Americas proposed project Apollo flight to the Moon, this data may have some interest to those who are watching the heavens, and are perhaps wondering just what is "out there" beyond the vista and vision of our planetary skies!

"For hundreds of years and more, responsible people and observers from national observatories over the world, as well as competent amateurs, have seen any number of indications that the nearest neighbour in the universe to the earth the moon, has plenty of activity."

"This activity varies from bright lights, through various colored lights, to white and jet black spots. Peculiar reticulations are seen by not only by amateurs, but also they are shown with clarity by the 200 inch telescope of Mt. Palomar. These Moon pictures that take the observer to within 25 miles of the moon clearly show that something is making deep trails in the moon dust outside the craters. Objects are to be seen moving across the moon and some 1,600 or more instances of lights near the surface of the moon have been recorded." "Lights from the dark portion of the moon have also been seen."

"The very strong indications are that all of the Lunar traffic here recorded means nothing less than the amazing possibility that other entities might well have been in our lane as an earth-orbit space station long before man struggled into his own atmosphere via the aeroplane. Countless references to flying saucers, UFOs or spacemen appear all through the written history from the time of America; B.C. to 1700 B.C. These might well have been and could be now based on the moon. They might well be from Mars or Venus. Mars has two satellites of its own, nine and eleven miles in diameter. Mars seems to have "answered" the moon lights with light signals of its own."

"Following is a tabulation of the location of various Lunar Phenomena that has been observed to the past. Nowadays, most Lunar observations are classified as "secret" and few new ones are publicised, but at least we feel that the ALLEN MOON CHART will serve as a reference chart for those who watch the Moon in hopes of seeing repetitions of these phenomena".

EVENTS ON THE MOON .

232.- PLINIUS. (Sci. American) A striking symbolic thing like the sign, obviously not topographic, as this crater (59-34-469) POSSIBLE OTHER SIGNS or communication attempts... structural compositions of angular lines in Gessendi: upon the upper floor of Littro are six or seven spots arranged like the Greek letter Gamma, seen 31st Jan . 1915.

13th Sept. 1889. Prof. Thury of Geneva- a black spot with an immensely white border.

11th May. 1889- An object as black as ink upon a rampart of Gassendi. (L'Astro 1889-275) never reported before; at the time of the next Luration it was not seen again. 30th March, 1889, a new black spot in Plinius, (L'Astro. 1890-137).

" THE MOON " CONT (2)

BODIES CROSSING THE MOON

Science.- 31st July 1896- Mr. W Brooks, director of the Smith Observatory, saw a dark round object pass slowly across the moon in a horizontal direction: apparent diameter 1/30th that of the moon's; crossed the disc in three or four seconds.

Dr. F.B. Harris(Popular Astronomy) 20-398) 27th January, 1912, Saw upon the moon an intensely black object estimated to be 250 miles long and fifty miles wide.

(L'Anne Scientific 1868-25) Vast numbers of bodies were seen by M Lamey to cross the moon. Issue (1874-62) Messier reports an immense number of black spherical bodies.

Popular Science 34-158. Srwiss tells of shadow that Schroeter saw in 1788 in the Lunar Alps. First he saw a light, but then this region was illuminated he saw a round shadow where the light had been and " that he saw a luminous object near the moon; that that part of the moon became illuminated and the object was lost to view; but then its shadow underneath was seen ! "

Monthly Notices of the Royal Astronomicak Society. (8-132). Remarkable appearances during the total eclipse of the moon on 19th March 1848. At the time of the predicted eclipse of the moon, that the moon shone with about three times the mean instensity of the lunar eclipsed disc... rather tinged with red and being as perfect with light as if there were not an eclipse at all."

Popular Astronomy.- Prof. Swift of Mattoon, Illinois, during an eclipse of the sun on 7th August. 1869; objects moving in two directions across the moon and each moving in parallel lines.

Astronomicak Register .-- 23-205. Prof. Schafarik of Prague writes that on the 24th April 1874, he saw an object of such peculiar size that " I do not know what to make of it"... slowly traversing the disc of the moon... a dazzling white object. He saw it approaching the moon and he saw it after it left the moon. 27th Sept 1881, by Co. Markwick, in South Africa similar sighting .

17- Aristillus. December. 1915, Paris Observatory reported something like a black wall from the centre of the ramparts.

37.- Birt. L'Astronomy; many references to an object shaped like a sword in the crater .

97. - Eratosthenes. (Sci, American) 59-24 pp469 marks like an "X" or "Xs" in this area with dim reticulations like those of a city's street.

74- Copernicus. 30th March. 1889, L'Astro, 1890-235) a black spot was seen for the first time by Gaudibert near the centre of the crater.

199- Messier. (Cruithaisen in the Sci. American) Two straight lines of light and in between them dark bands covered with luminous points.

176- Lime- During 1866 and 67 all kinds of sightings of white spots and later dark spots in this crater... " a rising oval spots" ... a convex white spot.

230- Plato ; - This crater is a scene of intense activity and over a long period of years these instances are many. English Machanic(64-253) reticulations like

"THE MOON" (3)

those of a city street in this crater. 1870-71 " can only liken them to small discs of a star (like) seen in transit instrument.

1st to 12th May 1870. "extra-ordinary display" up to 1871. Some hundreds of observers had reported and tabulated some 1500 different light flashes and sustained lights in this crater. These journals are in the archives of the Royal Astro. Society (English). They were deposited there by Mr. Birt. 10th Oct. 1916 Florence Observatory reports a reddish glow or shadow that spread over most of the crater.

223- Picard, 10th April 1865, (Astro. Reg. 3-189) " a most minute point of light glittering like a star". 5th Sept. 1865, a conspicuous bright spot upon the moon west of Picard. (Astro. Register; 3-252) seen again by Ingall and again on the 7th and the 8th. Finally it left on the 8th, and left a cloud effect where the light had been. LIGHTS SEEN ON MARS AT THIS SAME TIME.

223. Upon the 11th Dec. 1915. Berbard Thomas of Glenorchy, Tasmania, saw "a particular bright spot upon the moon on the north shore of Mare crisium and most of the illuminations have occurred several months from an opposition to Mars.

172. Lexel Crater- 24th Dec. 1918. An intense black line extending from this crater .

223.- The Bridge—On the night of 29th July, 1953. John J. O'Neill, Science Editor of the New York Herald Tribune, and author of the book, Prodigal Genius, The Life of Nicola Tesla, turned his private telescope on the Moon. O'Neill had been a constant observer of that body for many years. He was also a member of the Association of Lunar and Planetary Observers. A sane man- one of great general experience with life and living- a good reporter, one not given to allowing imagination to run away with him, that was O'Neill.

Naturally, he was amazed therefor, at what he saw in th 90X eyepiece of his telescope. He had his telescope trained on the part of the Moon known as Mare Crisium.. There stretched above onside of the great "sea" was a tremendous arch- or bridge!

However, in Aug. 1953, Dr.H.P. Wilkins, noted Lunar authority of Engalnd, fully confirmed the existance of the Mare Crisium atch .

It should be nited here that, apart from the observations made by John O'Neill, and confirmed by Dr. H.P. Wilkins in 1953- all the other observations were made and recorded long before the advent of the " Flying Saucers" phenomena in 1947 when Kenneth Arnold a business man of Boise. Idaho, USA. reported seeing nine gleaming discs, when flying in his private plane.

Thus, as of the 24th June 1947- the modern phenomena was born and called " Flying Saucers" and have been sighted and reported the world over, and are still being reported.. But before, for about 100 yearsto this, reputed astronomers have reported extraordinary and strange movements of "objects" and lights as they observed the Moon, as we have shown in this article.

Thus it will be seen that the prophetic words of Jesus are amply confirmed and justified by t e scientific observations of astronomers: " There shall be Signs in the Sun, and in the Moon, and in the Stars...".

* SIGHTINGS HERE AND THERE *

"WESTERN AUSTRALIAN " Fri. Nov. 19th 1965

Credit Mrs B. Perkins.

MANDURAH . A mysterious object high in the sky had people in Mandurah puzzled for several hours yesterday. At dusk it was still there-- and still unexplained. An R.A.A.F. spokesman said Vampire jet trainers had been operating south of Perth, but not in the Mandurah area. Officers at the Pearce Air Base would be glad to hear from anyone who saw the object .

A weather Bureau official said it might have been a meteorological balloon.

The paper gives several photos of people watching and observing the object)

It was first sighted by council truck driver. Mr W Dicker during his lunch hour. He pointed it out to five of his work mates.

In the pictures given the Mandurah Shire Council health inspector M Christian³sen and the council engineer Mr R Fletcher are shown watching the object through binoculars. Mr Fletcher kept the object under observation for most of the afternoon. He described it as cylindrical and silvery, with a dark patch on top. He said it appeared metallic and shiny. It was visible to the naked eye for most of the afternoon /. In a later report the Govt. astronomer came up with the usual boloney. he said it was Venus or at least it fitted the description. Well Mr Harris. we can only take it that the dark spot on top was her latest h ir-do, and the silvery metallic description given was her latest silver -lame frock. .. must have been dressed up to go out for the evening. Later another object was observed at Innerloo where several residents reported having sighted a small shining object high in the sky. Sorry Venus must have got off course somehow Mr Harriss. La donna Mobile. so says the song. The satirical comments are your Editors. . can you blame him ,?. One gets so tired of big wigs coming up with Venus etc etc. when all the evidence and descriptions could not possibly fit the dear lady . How uncourteous to pick on the female of our planets all the time. why not masculine Mars occasionally.?.

46 REPORTS OF OBJECTS IN THE SKY.

CANBERRA. Nov 24/65. "Advertiser "

The RAAF investigated 46 reports of sightings of flying saucers and other unidentified flying objects this year-- about twice as many as in any of the past five years.

The Minister for Air (Mr Howson) said today the increase could be explained by a spate of reports from Tasmania and Papua- New guinea arising from a flurry of public interest.

Mr Howson was replying to a question on notice from Mr Johnson (Lab.B.S.W.)

SPACE OBJECTS PHOTOGRAPHED.

BUENOS AIRES. "Advertiser" 7/12/65

A Roman Catholic priest here has claimed he photographed 3 U.F.C. which could have come from another planet . The priest, the Rev. Benito Reyna, a Jesuit and Maths professor who directs an observatory on the outskirts of Buenos Aires said he thought they might have come from Jupiter. At a Press conference he produced copies of the photograph, which showed three circular black spots of different sizes silhouetted against the moon.

FLYING SAUCERS MAKE NESTS IN MARSHES OF QUEENSLAND.

Adelaide " Advertiser " 24 /1/66

News From Brisbane of Jan 23rd. says. Specimens from North Queens. "flying Saucer nests "will be flown to Brisbane tomorrow.

The specimens are being sent to the physics department of the University of Queensland by the Queensland Flying Saucer Research Burea committeeman MrE. Russell.

Tonight the head of the physics dept.(Pro. H.C. Webster) said; " We might try it, just to oblige him "

Professor Webster said that whether the tests were made depended on the amount of material required to be tested and other factors.

" We would be able to detect only gross radiation, " he said.

Three " nests " were repted to have been seen and found by residents in the Tully district last week.

They are circular clearings of dry reeds, surrounded by green reeds.

IN SWAMP.

The first was found in a swamp by a banana grower Mr. George Pedley, who said he saw a vapor-like saucer take off from the spot last Wednesday .

The second and third were sighted by cane farmer Mr Tom Warren . and a school teacher Mr Hank Penning when they were walking around Horses Lagoon , on the property of cane farmer Mr Alber Pennisi at Duramo.

Today Mr Pennisi clambered into the 5 ft. deep swamp to retrieve some of the grass which is said to have been touched by the flying saucer .

" I had not trouble in getting samples of the grass roots and mud, which normally lie on the bottom of the lagoon ," he said.

" Theyc were floating on the top of the water, which is most unusual. they must have been sucked up by something."

The Penisisi report a constant stream of cars through their property since the sightings last week .

.....

We await further news of this and will print it as soon as it arrives.

.....

DAIRYMAN SEES STRANGE TREE MOVING AND LIGHTED OBJECT

A dairyman who live about 30 miles from Adelidr reports that he was walking on his proerty when he noticed a strange object . with lights in the distance. he then shone his torch toward what he thought was a ghost like tree, only to see it move away and toward the object . He noticed down in the valley lights whic he thought at first were motor car headlights. but next day stood and observed from the same spot and relaised that it could not have been such as the road was out of view from that distance.

His evidence conisides with other stories of " suacer" sightings around Adelaide area over the Festive season. (see page 5) and is followed up b the above account of those seen in Queensland.
