OFFICIAL MAGAZINE FOR U.F.O.P.I.A.
THE MAGAZINE WITH THE OPEN MIND FOR U.F.O. GROUPS . STUDENTS OF U.F.O. PHENOMENA.
U.F.O.P.I.A. AND RELIGION.

We feel it is time we put the record very straight regarding the above matter because of a great deal of deliberate mis-statements concerning this Society and its attitude to Religion in general .

We are well aware such has been done to bring discredit upon us, and to create an impression that those spreading the rumour are using only too well for their own ends to boost up thier ego and prestige upon people. However people with analysing minds do not take long to find out the TRUTH and the real reason why such statements are made.

What has brought this to a head is that during the Easter Convention a leader of another Group in S. Aust. stated in the press in an interview, that his Society considered "religion taboo".

Of course every one has his right to his opinion and the way he wishes to approach the UFO subject, but the laughable thing is that so many statements made by this same person in print and at other times have proved he does not always stick to his standards. After all this poze is but a sheer attitude to " appear" scientific and objective" to the public.

To hear therefor a statement made which gives no proof of scientific backing and the only evidence of such to be found among the " religious" and metaphysical despised seekers, makes one wonder just how scientific such people really are, and if the religious " taboo" is only a nother sham lest their preciousegos might have to face up to some sort of public criticism .

Following the announcement made many people wrote or rang or personally asked your Editor as the President of UFOPIA what his Societies attitude was to such, so we thought is time to put it quite plain once and for all.

UFOPIA IS NOT A RELIGIOUS SOCIETY, AND ANYONE ATTEMPTING TO MAKE IT SO OR SOME OTHER SECT WOULD BE HIGHLY DISCOURAGED.

Now having said that let me cont nue further. UFOPIA has always been and byits Constitution must ever remain an OPEN MINDED SOCIETY, and this can only be true if we allow and encourage every member or seeker the right to express his views on the subject, from a direct or indirect approach, in whatever way he feels contributes to our finding the answers, to this great enigmatical problem. Hence If a man has religious views which he thinks are fitting into the UFO subject he has every right and is encouraged by us to express those views , even if others in the Society do not agree with him or consider them applicable. and this applies not only to religion but to many metaphysical experiences or ideas , some of which might be quite sany. It si cur job to sort it out whatis acceptable or not but NOT to deny him the right to air them or cast him aside simply because his views may not fir in with our own or maybe cause some public criticism . TRUTH SHOULD NEVER BE AFRAID OF PUELIC RIDICULE.

UFOPIA AND RELIGION . 2

Let us take a case in point.

Many people found that the story of Fatima had quite a large number of points in it which indicated some relationship to UFOs. etc.

This was so with people who were not all Catholics. many indeed were strict Protestants. who were OPEN MINDED enough to seek for TRUTH and found it is this case. To them the fact that it happened to a Roman Catholic and was boosted up by that Church did not deter them from making an honest investigation. NOR SHOULD IT if they are HONEST investigators.

Even that very creditable UFO magazine the English ELS. Review gave pages to this event and its relationship to UFO. Now no one could call that magazine or its leaders as far as Ufos are concerned a religious one.

It therefore in this same open approach we give hearing to those who have religious views of saucers. but this does not make us a religious Society . It must be confessed here that this Society has found many of its gems of clues in its search from this very field of religion and the metaphysics. and we are not ashamed to admit it. Nor do we try to hide it. but at the same time we also try to be very objective as possible and very careful not to be gullible in our seeking , keeping in mind that a vast number of things regarding UFO cannot be measured by the earths scientific standard of rules for we are dealing not with things of earth but of other dimensions. much of which our present day scientists admit they know too little about and are only at present on the kindergarten stage of finding out.

Before we leave this. let me quote some of the great scientists who have a strong and firm belief in RELIGION and I mean the Christian Faith not so much as a CHURCHIANITY but as a daily living thing in their lives.

Dr. Von Braun. He says " We must learn to consider God as Creator of the Universe and Master of Everything... We need a greater Lord than we have had in the past Our religion , our environment and our outlook have been earthbound.

Astronomy and Space explorations are teaching us that the good Lord is a much Greater Lord and Master of a Greater Kingdom . "

Dr. Rodney. W Johnson NASA . " My contacts indicate that a surprising number of scientists , engineers and technicians associated with the space programme have a deep and vital faith. More proportionately than any other fields and professions . Another surprise ; most who have a faith in God hold this faith strongly as if their association with the space programme had acted to reinforce their belief . I think it has mine. as a matter of fact. Men are looking for a new verification of their faith, and I expect the space programme to provide just this sort of thing sooner or later. In other words, I'm expecting a fresh new manifestation of God in some way. This could take the form of the confirmation of a significant Bible Truth." (underlining ours)

To add but one more amid so many others. was the fact that Ed Aldrin took with him in his flight a portion of the " loaf" from the Communion table of his Church that he might share with his brethren on earth and his fellow astronauts a Communion service when in the capsule.

Well folks when such GREAT men are not afraid to declare their belief in religion and associate it with their research . I'm not too proud to belong to such esteemed company. and leave the "little" men to taboo religion from their society and maintain their exalted egos till it tips them off the wall as it did Humpty Dumpty. Ergo UFOPIA IS FOR AN OPEN MIND SEARCH FOR TRUTH. EVEN IF RELIGION

UFOPIA AND RELIGION (3)

IS ONE OF THE AVENUES THROUGH WHICH POSSIBLY WE FIND SOME OF THE MAJOR ANSWERS Your Editor has felt for many years that some of our greatest problems of Earth will be solved when these two great fields of mans thinking are merged. and when Science and Religion walk hand in hand proving the corectness of each them anybe the NEW AGE will dawn much quicker than we dream .

Dr. Johnsons last words quoted. appear to have a very significant meaning for us and cannot be overlooked. especially when viewed in comparison with the many uttereances given by predictions of many people of many faiths around the world concerning the days ahead all of which indicate some great event which will have soul stirring effects on the whole of mankind. Let me repeat them.

" I'm expecting a fresh new MANIFESTATION of God in some way. This could take the form of the confirmation of a significant Bible Truth."

One dares not attempt to say what that manifestation is. but many have felt that the advent of the saucers at this particualr time of our world history , whilst not being the Manifestation in itself is in someway a part of that great event whatever it will be.

To those who have stuck there necks out and dared to belive in some of the re-libale messages recieved from space messengers at this time know only too well how often the same theme is presented by them of such an event. and of the UFOs part in it. as part of a well plnngedprogramme for the good of this earth.

Well of course there are those who still consider people who think like that " Srewy" and after all so they thought of others before who took notice of the inner voice or the message of " an angel(messnger) of the Lord " . History records the despised ones down through the ages. of such. but it also shows that they were NOT the screwy ones in the end.

Added to this is the fact that a large number of great scientists today now have formed a group to make an intense and sincere study of the UFOS and all thatthat means, a study not hindered by any strings attached. as was the Condon affair. Most of those scietists have affirmed their belief that the UFOs are extraterrestrial. and many are sincere practicing Christians. Agaian we are in good company. So lets forget those who sneer and ATTEMPT to discredit us. for with men like that in the fore we indeed are more than encouraged to continue in the way we have gone beofre. knowing from experience it is the path that pays off in the end. THE DITOR.

.....

SUPER SPEED STARS SEEN .

The News June 3. 1970.

NEW YORK.

astronomers have discovered star systems in which stars seem to behave like drunken drivers going in all directions on celestial super highways at fantastic speeds.

Dr. Scharzchild and Dr. Robert Danielson of Princeton reported photographic studies of a Seyfert Galaxy abd of the planet Urnaus made with a four-ton telescope carried in a giant plastic balloon to an altitude of nearly 16 miles last March.

The Seyfert type of Galaxy - less than 12, have been spotted - is extremely small and intensely bright .

By contrast the sun is just one star among 100,000 million or more that belong to the family or galaxy called the Milky Way .

Up to 10.000 million of these stars seem to be racing around at speeds of 1,000 cont. P. NINE.

PSYCHOLOGICAL & RELIGIOUS ASPECTS OF U.F.O.S. by Mr. J. ROLFE.

While there have been many lesser gods in the various religious beliefs, from very ancient times man has recognised one God, supreme over all. Although paying lip service to these minor Gods, civilised man has always been essentially monotheistic in the belief of the overall supremacy of a chief God. These ancient religions also held firmly to the belief in other levels or planes of existence, and this has continued to the present day in some Eastern religions.

In pre-flood days people believed that Kingship was bestowed as a Divine gift. They also believed that celestial beings kept a watchful eye on events down here and that occasionally some came down to help man on his upward path of progress.

There is documentary evidence of this actually happening from records in the Old Testament, also Greek and German mythologies have numerous references to Gods consorting with mankind.

To come to our own times and the phenomena in which we are interested, we have numerous contactees who claim to have met visitors from outer space and that these visitors have been given messages of encouragement and admonishment. Could this facet of the phenomena be a continuance of these ancient traditions of visitors from above?

Many of us believe the time is not far distant when this world age will end and a new era will begin. Even the great evangelist Billy Graham now predicts that the return of Christ is imminent.

Believe what you may, it is obvious to any thinking person, that our civilisation is in a state of flux, and that in the near future, we will see great changes in all fields of human endeavor. Research into the workings of the human brain and in the fields of psychology and parapsychology is producing evidence that this change is gradually taking place right now! So, we can ask in all seriousness - is homo sapiens on the threshold of mutating to homo superior and so be enabled to take a place with postulated multitude of other advance intelligences in the universe?

Many students of the U.F.O. phenomena believe that it is caused by supernatural intelligence. They believe in all seriousness, that someone up there is keeping a watchful eye on us, and that these beings are helping us in many ways.

Almost invariably, these students have had what can only be termed a psychic experience or visitation. There can be no doubt of the sincerity and an integrity of these people. Certainly, the psychiatric stability of some is suspect; but when apparently stable, normal people of high social and educational standing and holding down responsible jobs, claim to have had such an experience, their reports should be investigated fully, without bias. Moreover, it takes courage for these people to report their experiences, knowing full well that publication of such reports will brand them as nuts and crackpots.

It is interesting to note that the great majority of these people possess a high degree of E.S.P. ability, especially in telepath, precognition and

Psychological & Religious Aspects of U.F.O.s - Contd.

clairvoyancy. Whether the phenomena reported is due to the subjects own innate E.S.P. ability, or is induced by external stimuli, is anyone's guess. You can be very sure that each theory will have its adherents, equally convinced that they are right.

Consideration should also be given to infranatural phenomena, as well as supernatural, a point most researchers in this field ignores. I am only too ready to admit that this is dangerous ground, and should be the field of experienced and well trained researchers into occult phenomena. For here we are likely to come up against implications of Black Magic, witchcraft, demonology and other facets of the so called Black Arts.

We can only speculate how this E.S.P. ability works, but current opinion is that it could be some form of electro-magnetic radiation. All bodily function, whether physical or mental, is initiated by minute electrical charges. It would appear, that man is therefore an electro-magnetic organism, and would seem to be analogous to radio, being capable of receiving and transmitting electromagnetic waves.

There is evidence that man and some animals can detect electro-magnetic radiation by other than normal sensory means. For example some people have the power to detect radar waves and it is thought that this is done by direct contact with the brain. This is termed crypto-sensory response (not to be confused with E.S.P.) which means actions brought about by external stimuli, but not through normal sensory channels. Migraine sufferers will quite frequently experience an attack before a thunderstorm and quite some time before such a storm becomes likely. We, too, are all familiar with the rheumatic sufferer, who know a change in the weather is coming a day or so ahead.

It is known that atmospheric static electricity has biological effects. This depends on the electrical charge carried by the gas ions in the atmosphere. It is also known, that negatively charged ions increase the pulse and respiration rates. The implications, during allegedly observed U.F.O. phenomena, must surely be obvious.

With two exobiological intelligent races of very differing technological standards, and with one superior to the other and the superior attempting to make contact with the inferior, the simplest way would be by telepathic means. We may theorise that the superior is able to do this by mechanical means. This being so it would not be surprising, if the received messages were classified as garbled hallucination, or psychic experiences; because thought concepts and experiences would be completely alien one to the other. It therefore follows, that if a superior intelligence, or one other than normal by our standards, was attempting to make contact, it is logical to assume it would use means within our technological and mental capabilities. Then the simplest means would be to instil any messages directly into the thought processes of the recipient. Being abnormal to the recipient, there is every likelihood that such messages would be garbled or hallucinatory and give a feeling of alienness.

Who can say whether many of the reported sightings of solid artefacts, which appear in an instant and disappear just as quickly, are not induced by such means. From the reported mental states of some observers, it is safe to say that at least some sightings could be caused by such phenomena. Where we

Psychological & Religious Aspects of U.F.O.s - Contd.

have reported sightings as separate objects coalescing to form one and the reporter is certain as to the correctness of his report, the logical conclusion must be that either perception is faulty or the observers have been conditioned into believing they have seen what they reported; such conditioning being induced either by self or external means.

Richard Tawling the author of Flying Saucers where do They Come From, was a disbeliever of contact stories, however since he recently had such an experience himself, he has been converted. It is interesting to note that in his book he relates how several of his sightings were brought about by apparent E.S.P. means. He tells how he felt impelled to turn and look in a specific direction and there to his astonishment was a U.F.O. This would seem to be direct evidence of mental manipulation from the U.F.O. itself or else the innate E.S.P. ability of the witness; but from his own contact experience, we must lean to the first theory.

Many sincere people claim they are receiving messages from other beings beyond this terrestrial plane. They insist that such messages are primarily a means of urging that we terrestrials change our ways and our thinking and really conform to the teachings of Christ. How different things would be if we only tried!

However, this is the opportunity for all the really crackpot cultists and opportunists to jump on the bandwagon. Those who proclaim that the end of the world is coming fast and that the beneficent beings from outer space will come in their wonderful craft to rescue the penitent and truly converted; and remove them to a utopian paradise far from this planet, when the gig blowup finally happens.

These people seek to back up their claims by quoting relevant prophecies from the Bible. Holy Scripture does NOT prophesise an end of the world, but an end of this age. Refer Matthew Chap. 24, Verses 1 - 51 and Luke Chap. 21 - Verses 5 - 36.

Our Lord gives specific warnings of these people, saying "Many will come, claiming my name and saying I am He, and the Day is upon us. DO NOT FOLLOW THEM. For about the day and the hour no-one knows not even the angles in heaven, not even the Son, only the Father". We now are warned about these latter day messiahs, peddling their cosmic curealls and supernatural space operas.

Quoting, and again from the Bible, "There will be in the sky terrors and portents, and signs and wonders to mislead even God's chosen". (Luke, Chap. 22 V.11.)

The end of the age which scripture predicts is to come, will be made during a period of troubles and tribulations which the world has never before experienced and if not cut short by Divine intervention no like would survive. These prophecies have been used by various U.F.O. cults to support theories which cannot be justified on a scriptural basis. Read the relevant Bible prophecies Luke Chap. 21 and Matthew Chap. 24 yourself and draw your own conclusions. Even with these people the psychological factor is apparent, because to any normal person, the reasoning of these cultists shows psychological unbalance.

Psychological & Religious Aspects of U.F.O.s - Contd

In all contact reports this psychological factor stands out like a beacon, and is of the greatest importance, for the messages allegedly imparted are usually beyond reason. Being abnormal and completely at variance with normal thinking processes, all too often the contact is deemed to be of supernatural origin, primarily because it IS abnormal. (The dictionary defines supernatural as existing or occurring through some agency beyond known forces of nature, lying outside the sphere of natural law whether psychic or physical; believed to be miraculous or caused by the immediate application of divine power; or pertaining to the miraculous.)

Much of U.F.O. phenomena has led to the postulates of superior intelligences and superior technology, but could this phenomena be produced by electro magnetic means using the xenophobia fear generated by the percipient. (compare this with people frightened of dogs, for if a dog sees you are scared, it will invariable attack.)

Keel postulates that this is not the effect of a U.F.O. apparition, but the contributing cause. To give added emphasis, he states that percipients are usually petrified with fear, and unable to move, because the energy they generate in radiating waves of fear, is absorbed by the apparition and so enables it to appear. When it vanishes, the percipient regains power of movement.

In U.F.O. phenomena just how much is due to psychological factors, such as wish fulfilment, selfhypnosis and mass hypnosis, and how much is due to unknown external phenomena, is often to question. However, it is common knowledge that many people taking an active part in investigating the U.F.O. problem, have been and still are, being subjected to psychic and psychological pressure, not only on themselves but on their families. Whether these investigators are being frightened off, because they are coming close to the answer, or whether their guidance is helping others to this end, who can say. The fact is, these tactics have been used, and they are still being used, and while the investigation continues, will still be used!

As reports continue to come in, the fact that something unusual has been seen, is NEVER disputed, it is the interpretation of such reports which has always been in dispute, and the construction put on them. While most reporters are honest and factual in their reports, researchers quite often do not realise how much a seemingly stable person can unconsciously embroider reports, due to the emotional and psychological shock received from a sighting.

Asimov maintains that the compulsion of believers to identify U.F.O.s is --- "it's not what you see that is suspect, but how you interpret it". He is not alone, when he states that people, who want to believe that U.F.O. crews are the benevolent guardians of our welfare, are suffering from feelings of insecurity and clinging to a fantasy of security.

Numerous researchers have put forward the theory that the ancient Gods of all cultures were extraterrestrials who came to earth to create mankind, to study and watch over our growth up the ladder of progress and to give help whenever the occasion warranted. Each age has had its outstanding man of intellect who adds that extra step. Perhaps that little extra knowledge is handed on by mental means from some external source. Students of occult literature will be quite familiar with this concept. Now that our own scientists

Physiological & Religious Aspects of U.F.O.s - Contd.

have succeeded in synthesizing an artificial gene, is this concept so far fetched after all?

If somewhere in this universe a life form has progressed to enable it to produce the U.F.O. phenomena we have witnessed on this Earth, surely it could mean that not only are they technologically and mentally superior to us; but that they have acquired some added faculty which we have yet to evolve.

It is extremely significant that annotated by M.K. Jessup, the case for the U.F.O. sent to U.S. navy contained a reference to a group of craft on a training flight using interconnected force fields and being instructed in the use of tele-control without inducing a fear block.

Jessup was a PhD in astrophysics and was one of a long line of U.F.O. researchers to die in suspicious circumstances.

It must be obvious that to travel eight years across space from one star system to another, we must be able to rise above the limits of space and time, as they apply to the laws of relativity. This then means the existence of a scientific concept we have yet to find. It is the finding of a short cut to obviate the necessity to travel through space in our present space time continuum. This short cut already exists in E.S.P. phenomena; a journey of this type would mean that at the beginning of its journey a spacecraft would vanish either at once or gradually. This would be a dematerialisation out of normal space time continuum, and at its journey's end would reappear as a materialisation. Such a vehicle would also need to be able to travel in normal space time for normal intraplanetary journeys. Observed U.F.O. phenomena follows just this pattern.

As E.S.P. phenomena involves short cuts outside the frame of normal space-time, it seems as if exit into and entry from another space time could involve controlled E.S.P. It would certainly mean a control of time in ways we just cannot conceive; In writing of precognition J. Dunne in his book "Experiment with Time", defines, it, as what happens when the unconscious mind crosses over the arbitrary lines of yesterday, today, and tomorrow; and he theorises that time is an artefact of the mind. The usual concept of time is linear with the past and future stretching to infinity in opposite directions, but could it be circular?

This theory ties in with comparisons to occult and psychic phenomena, because extra terrestrials who have solved this space time problem in such a manner, would undoubtedly create E.S.P. or psychic reactions in any observers, with the obvious religious implications.

To us it is certain that exploration of inter or extra galactic space by a non terrestrial race, would have to be in the realm of magic, being utterly impossible to us by our present scientific standards.

Students of the occult think that eventually we will be able to use this E.S.P. faculty; and are of the opinion that it is man's next forward step in evolutionary progress. We already have the E.S.P. means to do it and they maintain that it is a matter of training, which will eventually place us on the same footing as our very shy and elusive visitors.

miles per second. - in a rather confined space in the Universe. Often, they ram into each other . Then they explode. or parts of two stars fuse together . or are thrown out to become new stars, the scientists believe.

The collisions produce tremendous amounts of light and radiation, and that could be why these particualr and peculiar star systems- known as the Seyfert galaxies are so extremely bright in the heavens.

Because of the collsions and speeds , "it would bea very unsafe placeto live on a planetaround a Se fert galaxy .star, if indeed such starscould or still have any planets that might bear life, said Dr. Martin Schwarzschild, of Princeton University,

On the other hand, it could offer a spectacular sight, with millions of bright stars close by, and frequent explosionsproducing fireworks, he said.

The Milky Way is a very orderly galaxy with the sunand other stars travelling about 20 miles per second, relative to one another . Says Dr. Schwarzschild.

.....

Well folks one thong we learn more and more is just how insignificantour little earth is in this great vast scheme of things and design. and it more than ever takes the micky out of the pride of those who think Earth is the only place where such highly evolved, intelligent people exist ???????? What an insult to the Great Architect of this Great Design and Pattern . of things. that we should consider we alone of all Creation are those whom are CHOSEN to be in such a plan of inteelligence.

.....

STUDENT SNAPS UFO.

SUN HERALD SYDNEY 5/7/70.

Tokyo. Sat . A picture , said to be of an unidentified flying object taken by a High school student. in northern Japan was printed in the Japanese newspapers r today .

The picture was taken by 16 year old Shinsaku Sugawara. It showed an object like two soup plates joined together, said to be about four yards in diameter and was sen to the Tokyo Astronomical Observatory for an appraisal .

.....

PROPHECY OF DOOM .

" ADVERTISER " 20/7/70.

SAN FANCISCO. Thurs. The next great earthquake in the San Fransisco Bay will kill an " inestimable " number of people and cause proerty damage greater than \$US 30,000 million , a State legislative committee predicts. The joint committee on seismic safety told a Press Conference yesterday. Fault could be expected every 60 to 100 years. The majot earthquakes along the San Andreas Fault line. The last one was in 1906. (ANY TIME NOW SAYS WE.)

The Peruvian Earthquake and the Atomic Tests

BY CAPT. BRUCE CATHIE.

Earthquake 31st May 1970 7.7 Richter
and 1st June 1970 Smithsonian Report .

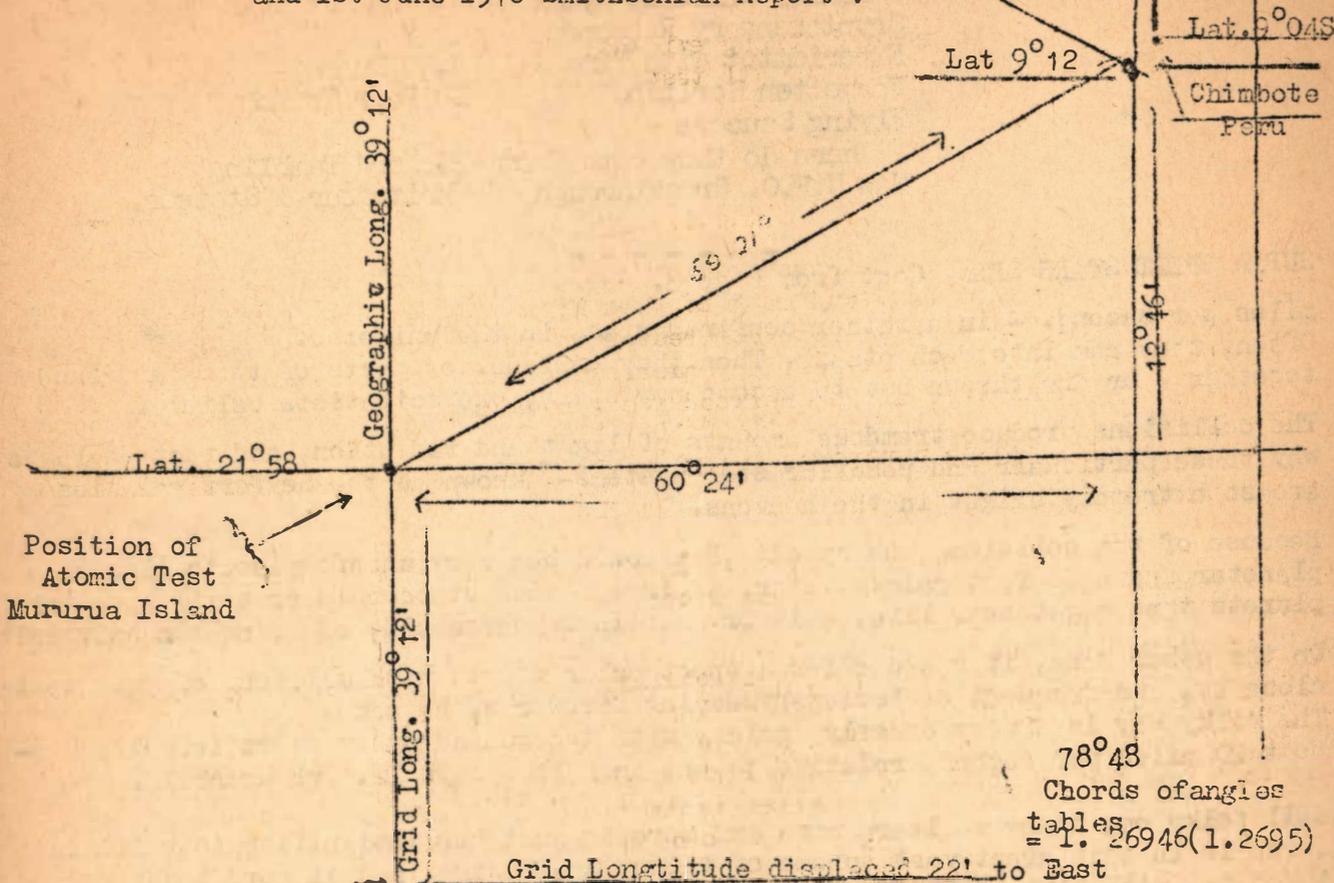

DIAGRAM SHOWS CORRELATION BETWEEN ATOMIC TESTS AND EARTHQUAKES.

$21^{\circ} 58'$ half Harmonic $43^{\circ} 56'$ = 2636 = \sqrt{e}
 $139^{\circ} 12' = 90^{\circ} 00' = 49.2^{\circ}$ (log Tan $49.21^{\circ} = .063827$)
 $139^{\circ} 34' = 90^{\circ} 00' = 49^{\circ} 34'$ (Log Tan = .0695)
 $9^{\circ} 12'$ Nat/Tan. = .16196 (Time Harmonic Grid= 162)
 $9^{\circ} 12'$ Nat/ cos= 6.2546 (Gravity Harmonic 25465)
 $60^{\circ} 24'$ Nat/Sin. = .86949 (Harmonic 8695)
 $60^{\circ} 24'$ Log/Sin. = 1.93927. (Anti Gravity Harmonic= 3927)
 59.21° Distance in great circle from Atomic explosion to earthquake.

$59.21 = 7.6949$ (7695 Harmonic) from 10-100 Syc Tac root table.
 Geometric Harmonic established in book " Harmonic 33 " 1968
 Speed of Light = 1459 (143 88 - Speed light reciprocik695)
 Gravity acceleration Harmonic = 2545.5 (2546.5) - Anti Gravity 3130 (3127)
 Earths Mags Harmonic 1703 (17025) = $C + \frac{1}{C}$
 $E = Mc$ Substitute for $M - E = (C + \frac{1}{C}) C$ therefor $M = (C + \frac{1}{C})$

C. 13' i douf ...

PERUVIAN EARTHQUAKE AND ATOMIC TESTS (2)

When the Harmonic value $O = 'C'$ is doubled (Matter-Anti Matter cycle)

$$3927 = (2C + \frac{1}{2c}) 2C$$

$$2695 = \frac{1}{(2C + \frac{1}{2c})} (2C) \quad \text{According to (1-10) (10-100) Square root Table used}$$

This I believe to be extremely strong evidence to suggest that Atomic tests cause Major earthquakes; and that all tests should be stopped immediately.

Capt. Bruce. L. Cathie.

12th June 1970.

.....

In relation to the above equations we must admit the actual copy we received was very poorly photostated. and many of them were mosy hard to decipher being so small and illedgible. we have done our best to copy as fathfully as possible under the circulstance and suggest any queries re same should be directed to Capt. Cathie personally . at 28 Sherwood Ave . Auckland. New Zealand.

SOUTH AUSTRALIAN NOTED PHYSICIST CLAIMS EARTHQUAKE AND BLASTS CONNECTED.

ADELAIDE "ADVERTISER 6/6/70.

A cinnnection between Sunday's Peruvian Earthquake and Saturday's French nuclear explosion in the Pacific area appears certain, according to S.A. Physicist Dr.D.G. Robertson .

Dr. D Robertson , who is known internationally, formerly worked at Brookhaven National Laboratory, Long Island, New York .

His work involved the peaceful use of atomic energy .

A Peruvian diplomat clamis that Sunday's quake was caused by the French test. The diplomat , Mr. Enrique Fernandes de Paredes, of the Peruvian Embassy in Rio de Janeiro, made the claim at a Press conference on Wednesday .

He said the nuclear test took place at a point at sea exactly across from the Peruvian fishing port of Chimbote, which was devastated by the quake.

I^A ADELAIDE yesterday Dr. Robertson said he wrote a letter on quakes and bomb tests to the " New York Times " and it was published on May 9th .

The letter stated: " A year ago asevere earthquake in Iran was preceded by a powerful underground nuclear explosion in the Western Hemisphere.

" I wrote to the Iranian representative at the United Nations to draw his attention to the possible connection between the twomevents.

" Not much is known about details of the structure of the earth's crust and it has always seemed to me irresponsible to produce large shocks of this nature.

" I wondered whether it would happen again. It has happened again. This time it is next door in Turkey, a short time after a very large underground explosion in nevada.

Perhaps there is no connection between underground explosions and earthquakes but it has happened twice now roughly with the same geometry.

" it now seems quite likely that there is a correlation and that we should not take liberties with the stability of the earth's crust."

Last night, Dr. Robertson said: " Last week end the French let off a hydrogen bomb in the Pacific and this explosion was followed by a devastating earthquake in Peru .

EARTHQUAKES AND ATOMIC TESTS. (3)

" The French bomb test has provided us with a third example and it now seems certain that tests and quakes are correlated "

In the same column and in deep print the " Advertiser also printed this small article in reference to same .

ONE TO PONDER.

On March 1st 1954. America exploded a thermo-nuclear device in the Marshall Islands at 3 a.m. according to Keesings Contemporary Archives. This was 12.30.a.m S.A. time.

The bomb, 600 to 700 times more powerful than that which wiped out Hiroshima, was capable of destruction up to 12 miles.

The Adelaide earthquake, which caused damage valued at \$6million occurred at 3.40.a.m. S.A. time the same day .

EDITORIAL COMMENTS.

One may ask , "well what has all this to do with the U.F.O. ? " "

For years we have insisted that from research work which we have carried on with our own statistics and in comparison with other fellow UFO researchers around the globe, we have found that a very strong correlation exists between the UFO pattern of flight and the Earth's geological fault lines. for wherever the UFOs are mostly seen and reported one finds a correlated line running along the major and some minor fault lines of the Earth .

This was discovered long before Amie Michel wrote his book on the " Straight Line Mystery " and the now recent book of Capt Cathie confirming this in a more mathematical way .

On top of this we did have a source of information long ago which is frowned upon by the more scientific ? investigators among the UFO investigators. viz E.S.P. A particular such contactee. (not a spiritualist medium) received many messages way back in our work among which was one which told us then that the letting off of nuclear fission bombs on the earth would affect positions on the opposite side of the globe . We have stated this in our meetings not once but many times. and also that this is one of the reasons of the interest of the UFO in those parts of our globe which are so weak in structure.

To us then such news has never come as a surprise for we found too often that messages received from that source were too terribly true at times. and undeniably correct even sometimes to a very day in forecasts. and far too many to be pure co-incidence. but then we were the " crackpots" and spurned even by those among our own circle who wanted to remain so terribly objective and scientific and refused to listen to anything which originated from the metaphysical or religious minded among us. So we trod the path alone and were cast out and our life membership taken away because we insisted on being so open minded as to refuse to shut our eyes and ears to what obviously was TRUTH and now today is being acclaimed by scientific minded people some who are not even interested in UFO.

So much then for the " objective and scientific minded blind seekers ?"

Alas a few of those connected with those days of such telepathic messages have passed on , others have gone into fields of work which are mixed up with gimmicks and unfortunately prove that as in every thing we must not be too gullible, and I add especially in things metaphysical, one has to prove everything as this was done , but it must not lead one to become fanatical and trust everyone who claims to receive such messages. I know quite a few " phoney" myself.

Time and comparison will mostly prove how genuine and reliable such people are .

BY. A.E. BRAN. REPORTS OFFICER.

I read with interest, an article which appeared in our Sunday paper the other week end. This article contained a reference to the American Moon landings, and stated that many people in the U.S.A. are of the opinion that the whole programme is a giant hoax, and that man has not yet landed on Luna soil.

They say that the Television pictures that we recieved came from the heart of one of the American deserts, and the venture was one that would compare in dredulity with the best fim offering of Selznick or Cecil B. DeMille.

Could it be possible that N.A.S.A has deliberately set out to perpetrate such a gigantic hoax?

What advantage would there be in such a falsification, apart from a doubtful lead in the game of one- upmanship. with the Ivans.

As the readers well know, I have never held a brief for our American cousins, in the way in which they conduct their so called investigations into the UFO. phoenomena; but this I feel and say, I don't seriously feel that they would go to such extremes of perfidy as some of their own citizens. seem to think.!

Now do not get me wrong , I like the Yanks, I think collectively, they're a great people . But lets face facts, there are quite a few loony ideas that waft across the wide Pacific from time to time/.

Let us examine this Moon question from several angles.

You all know the reams of propaganda that has been circulated since the Moon programme began. The facts and figures pertaining to monies spent and advantages to be gained in planetary exploration . How many thousnads of people have benefited monetarily from the extra work created, also many more in a medical sense, from the knowledge gained in chenistry, physics andastro-medicine . Even if man h has not yet landed on a planetary neighbour, and the much publicised Moon dust is nothing but earthly Bull dust, we have gained Some material advantage from the project.

But what of many of the physicists, astonomers, chemists, and electronic engineers associated with the programme, all over the world; ,many of them in our own country Do you seriously think that they could ALL have been duped by NASA. that their ra dio telescopes and astronomical equipment was nothing but a heap of junk?. One would hardly think so !

On what evidence do these unbelieving U.S. citizens base their collective suspic- ions ? That the Luna terrain looks the same as their own desert country? Or that no little, bu-eyed antennaed green skinned moon maidens were around to welcome the entrepid astronauts in the best Hollywood tradition?

Or is because these disbelieving Jonah's have taken a leaf from the books of their ancestors, who taught that television was a hoax, the aeroplane could never fly, the world was flat, and that cars would never move faster than horses etc etc?

What should Moon soil look like anyhow? Why should it be any different from soil found on Earth. All planets were formed from the source. any student could tell you this. I personally feel that the Am rican Moon landing is an indisputable f fact and the N.A.S.A is to be congratulated on the feat .

There are a few facets however which raises speculation in my mind, and incidently in the minds of quite a few of my U.F.O. confreres.

This is, why has the U.S. Govt. deliberately distorted the facts arising from the Moon landingsand prevented their people from knowing everything that occurred?.

MOON DUST OR BULL DUST? (2)

I am referring of course to the censorship of Luna Television and radio transmissions, which prevented the general public from hearing about the presence of other craft on the moons surface!

This amazing news was made available through the interchanges of conversation between the astronauts and Houston Control Centre. I personally feel that the sudden failure of the Luna modules television camera, (aided by the judicious tap of a hammer,) at this time ; was not entirely due to a technical fault, but by a direct command from earth .

After all, it would not do to let the general public know that there were alien craft already on the Moon, would it ?.

So here we have an anomaly. If the U.S. Govt. had admitted to the presence of such alien craft on and about the moon, at the time of the landing, their veracity possibly would not be at question by their present disbelievers.

However if they released information at this juncture it would be rather like shutting the stable door after the horse had bolted. The same suspicious citizens would still not believe them !

Without belabouring the point any further, I feel that the Yanks did really land on the Moons surface, and that the disbelievers must in time change their views. I hope that if ever our astronauts DO meet up with alien craft in their travels they will accord them the traditional earth friendship and brother love???

-----*****-----
AMAZING DISCOVERY BY SPACE SCIENTISTS.

BY MR. HAROLD HILL.

PRES. Curtis Engineering Co. Baltimore. Maryland. & Consultant. U.W.A. SPACE Programme.

I think that one of the most amazing things that God has for us today happened recently to our astronauts and space scientists at Green Belt. Maryland. near where I live. They were checking the position of the sun, moon and planets out in space where they would be one hundred years , and one thousand years from now. We have to know this so we don't send a satellite up and have it bump into some thing later on in its orbits. We have to lay out the orbit in terms of the life of the satellite , and where the planets will be so the whole thing will not bog down !

They ran the computer measurement back and forth over the centuries and it came to a halt. The computer stopped and put up a red signal , which meant that there was something wrong either with the information fed into it or with the results as compared to the standards. They called the service dept. and said, " there's something wrong with the I B M. equipment." They checked out- and said "It's perfect."

The I.B.M. head of operations said, " What's wrong? "Well, we have found there is a day missing in space in elapsed time over the last several thousand years: a day missing. You cannot have a day missing in elapsed time, because any scientist knows that the sun does the same thing every day and so does the moon. They scratched their heads and tore their hair. There was no answer..

One fellow who was religious on the team said, You know, one time I was in Sunday School and they talked about the sun standing still , "Well' they said " it could not stand still, but we don't have an answer.. Show us" So he got down his Bible and went to the book of Joshua where he found a pretty ridiculous statement, for anybody who has any "common-sense", That's why it's called "common" It's not worth anything . But. here is what they read. The children of God were in trouble of some kind at that particular time and they were running out of daylight.

AMAZING DISCOVERY BY SPACE SCIENTISTS (2)

They needed more daylight to deal with the enemy. The Lord said to Joshua. "Fear not, for I have delivered them into your hands; there shall not a man stand before thee." Well now this was talking about a future event as far as old Brother Joshua was concerned because he was surrounded by the enemy. There were thousands coming down on them. Well, he had the battle going his way because the battle was the Lord's but if it got to night time, the enemy could surround him.

Joshua spoke to the Lord. You mean about stopping the sun? Yes, exactly! You mean God would listen to one man and stop the whole course of the universe? Listen to this! "Then spake Joshua to the Lord in the day when the Lord delivered up the Amorites before the children of Israel, and he said in the sight of Israel. "Sun, stand thou still upon Gibeon." ... Sun don't move. stand still!

So the Sun laughed at him?? It did?? Listen to this..

"The Sun stood still and the Moon stayed" (the sun and the moon stopped in their tracks. For how long? Until the people had avenged themselves on their enemy."

"so the sun stood still in the midst of the heavens and hasted not to go down ABOUT a whole day."

The space men said, "there's the missing day!". Well they checked the computers going back into history to the time it was found it was close but not close enough. The elapsed time that was missing back in Joshua's day was 23 hours and 20 minutes. according to the computers, and that is NOT a day. "They read it again and it does NOT say a day; it says ABOUT a day. That means approximately a day. These little words in the Bible evidently are important.

They said that is good but not close enough for space work for if you cannot account for 40 minutes your going to be in trouble 1,000 years from now.

That 40 minutes is multiplied many times in the orbits. We have to find the missing 40 minutes.

Well, this fellow said there was another occasion when the sun went backwards. They said "Now your'e aout of your mind" The sun goes backward??? But get the BOOK. we have no other answer and we must find that 40 minutes.

Remember folks these are space men experts in the green Belt Maryland... the head of our space programme not a bunch of school kids.. these are the Ph.D,s being baffled. (What now you you no religion taboc. and science folk) Editor.

So they got out the BOOK and went to Second Kings. 20th Chap. Here was a fellow named Hezekiah, a King, and he was sick, and the doctors told him he was going to die. right soon. The prophet of the Lord came and said, "You are not going to die" Hezekiah said "Look, what's this double talk. Who am I going to believe here. If I'm going to believe you Isaiah, your'e just a religious'nut'. The doctors say I am going to die. I've got to have a sign from you. I've got to have something better than your statement!"

Well, Isaiah said, "Allright!" That's understandable! What kind of a sign do you want?. Do you want the sun to run ahead 10 degrees.. make the sundial shadow go ahead 10 degrees? "NO" Hezekiah said. "that's nothing new, it always runs ahead. . Run 'er backwards! that will be different"

Look what it says. And Hezekiah said. "it is a light thing for the shadow to go down 10 degrees, but let the shadow return backward 10 degrees" and Isaiah the prophet cried unto the Lord and He brought the shadow 10 degrees BACKWARD by which it had gone down on the sundial at Ahaz."

Ten degrees in the rotation of the sun and the earth is 40 MINUTES by the clock 23 hours and 20 minutes in Joshua, and 40 minutes in Second Kings makes 24 HOURS ONE WHOLE DAY THAT WAS MISSING. the 24 hours the space trackers had to log in the log-book as being a missing day in the universe. Isn't that amazing.

It appears God is rubbing their noses in HIS TRUTH. THAT'S RIGHT.

WE REPEAT REMEMBER THESE WERE SPACE SCIENTISTS NOT BIBLE BASHING FANATICS.

CLOUDS OR UFOS.?

AN UNUSUAL OBSERVATION. UNEXPLAINED.
.....

The Editor had a most unusual experience in which he was left with a certain amount of doubt as to what his observation really was, for he still wonders if what he saw were just clouds in a strange weather condition or actually UFOs.

However first let him relate the whole affair as it happened and then maybe we can form some conclusion and hear what others felt it was.

The event occurred on Monday evening of July 13th 1970. at a few minutes after 6.p.m. He was standing waiting for a bus to go to town and was facing direct West. The sun had set, but there was still a gold-pink glow on one cloud directly ahead of him lying about 25 deg. on the horizon. which was a whitish-grey. in colour. All the other cloud surrounding it were very dark and black and had no light on them whatever from the sun. They were banked on either side of the whitish cloud in question, but NOT above it. All were shaped in lengthy stratas and banked. His attention was drawn to the fact that right in the dead centre of this whitish cloud and "sitting on it as it were on the top. was a very black cloud shaped exactly like a saucer. Commonly known as the Adamski type but of course no undercarriage. it just sat there motionless clearly outlined and defined in shape. The Editor took careful study of it and came to the conclusion it was a very good saucer shaped CLOUD.

Intrigued by the fact it was so definitely shaped and that it was so black whilst the rest of the cloud was whitish. which made this cloud stand out so much in contrast. he kept looking at it "just to make sure" but still pretty well convinced it was a cloud. Then slowly as he watched the dark cloud began to slowly sink into the large whitish cloud. and disappeared. and as it did he saw well behind it another similarly shaped cloud and also black in colour begin to move forward it was in contrast of distance about the same size. and also at the rear of this at an equidistance was another similar. sitting there.

His attention now was more than aroused as he noticed that no other clouds were moving in the sky just this small black cloud moving inward were the other had been and finally sitting on top in EXACTLY THE SAME POSITION AS THE OTHER HAD BEEN. This cloud we shall call No. 2. The cloud behind it again which was also the same shape had moved into the position which No. 2 had been as it were waiting to take up position. This we shall call No. 3.

Puzzled and becoming somewhat filled with amazement in that no other clouds had shown any effect of wind movement or had been disturbed. which would be normal to cause the movement of the smaller black clouds Nos, 2 and 3. he watched it most carefully as it sat in position on the dead centre of the top exactly as No 1. had a few minutes before. And then it did exactly as No. 1 had done. It slowly slid down into the cloud and disappeared. and at the same moment No.3. began to move forward exactly as had No. 2. taking up its position again on the top centre of the large whitish cloud. within a few minutes approximately in each case about 1/2 to 2 minutes it too slid down into the cloud and disappeared.

By now it was dark and only a very dim glow of sunlight remained lighting the western sky. Try as he may your Editor could not help but think that these were NOT clouds. The behaviour pattern was not of clouds as we know it. when compared to the other clouds around it. Also too the whitish cloud did not move. as had the 3 smaller clouds. It must be understood that there was no light of any kind showing in these saucer shaped clouds. a point which must be remembered in relation to other reports which came in of sightings that night about the same time (see what follows). The size of these objects were all the same exactly. again a point

Clouds or UFOs.cont (2)

which rules out them being possibly clouds which hardly would be patterned so exactly to size.

From the pure optical impression of size.all the three appeared t be about two and a half feet long at the base. and aprox about one foot high reaching to the top of the dome like structure.(see chart and drawing.)

Rebratqibly there were no other witnesses . or anyone else waiting for the bus It is true he was standing infront of an hotel but he refrained from going in - side and calling witnesses from the bar as witnesses of such. for obvious rea - sons. The bus very soon after came and by now it was too dark to see anything further of either the whitsh cloud or the objects . except very dark images n now of banks of darl black cloud all over the sky. long and tube like as had been the whitish one.

For the rest of the evening much thought was given to the event and frankly the more one thought of the circumstances and the performances it was hard indeed to relate them to being clouds. But we did not want to be carried away with imagination or what may have been some unexplainable meteorological condition.

The incident was related to small groups of people during the following week. and it was the general opinion that from the evidence of the cloud movements or so called clous that they were in reality UFOs, and some even suggested that they were going into a mother ship which was the large whitish cloud appearing as a camouflaged object .

The Editor is still not entirely sure. but his opinion leans to them being UFOs. for he cannot explain the behaviour as clouds.

Herewe have to leave the case as it stands. and relate the incidents which we recieved in reports the next day and those following which occurred on the same night in question two at the same time in their commencement. and the other later on the same evening .

.....

One of our members rang to say he had seen a lighted object in th sky at about the same time. it was large and far too large to be aplanet . and moving in a westerly to north direction.

However as the objects seen above showed no sign of light of any kind from the vantage point of the Editor which by the way was a lowlevel compared to the other sightings recieved of the same night which were all from high level areas it was felt they were not the same sighting but could be related. to them .

The Third sighting came from our Gawler Representative Mr. C. Paull who observed a large light moving in the North west at about 9.30.p.m. much later than those before.

The One which appeared to be closest in timing and possibly more closely associated with the cloud observations was that which appears follwoing below of an observer at Stirling high up from the city and at exactly the same time within a few minutes of that observed by the Editor.

Here it must be stated that the Editor did not see anything resembling the one described by the lady which appears below. However he feels they should all be compared to gether . in evaluating the evidence.

.....

LARGE LIGHT SEEN IN WESTERN SKY. NEAR VENUS.

Monday July 13th .

A friend of mine living at Heathfield in the Adelaide Hills , who wishes to remain anonymous , was lying in bed reading a book at about 7 o'clock on Monday July 13th . As she sat up to drink a cup of tea her daughter has just brought her , they both saw a very bright, large light in the western sky. " It was like the star of Bethlehem" the girl said , " about five times the size of Venus, slightly blue in colour and mostly a clear star-like light."

Not being very interested in Flying Saucers and indeed not knowing much about them , my friend went on reading her book. Nevertheless , she was intrigued by this unusual light she had never seen before and from time to time kept looking at it. She said it remained in the same place all the time but pulsated with brightness. All of a sudden . as she was watching it the light almost went out, then came on again and immediately dropped vertically, this manouvre repeated itself once more then at the finish the light was much lower than before. but visible between a gap in the trees, where it remained for another hour or so. My friend did not see it go but at about 8.30 it had disappeared.

On Tuesday the 14th. of July. the same thing occurred again and this time it was witnessed by another person as well.

On Thursday July 23rd, I went along to my friends place to report this sighting as I was sitting writing I was suddenly told, " There's that light again ." This time it started off in a gap in the trees and was not seen high in the sky. It was truly beautiful as I had been told. pulsating all the time with a clear crystal brilliance , sending down periodically a great spike of light, very much like the Christmas card versions of the Star of Bethlehem as the daughter had described it. At other times light seemed to ray out from the bottom of it but all the time it was in the same place, which to me seemed to be amazing for at the time a gale was blowing making the house shudder and the trees to creak and move all over the place. It hovered there for twenty minutes or so, then once as before, the light went out and it appeared even lower below the level of the trees but a little more to the right this time. It could still be seen from outside but from inside it was too low to be observed and I did not see it again. Whilst it was visible I did notice a very small orange light go quickly over the tops of the trees to the right and after a period of time come back, but although I looked hard I did not see it connect with the larger light , even so I am convinced the two were connected in some way as there are no roads that high in the vicinity. The whole event was one I shall never forget .

.....

There were other witnesses to this from many miles apart. and each told the same story. and in each case your Editor closely questioned them re the place of Venus as at first he thought they might be seeing this planet and the effects caused by atmospheric dust etc. In each case they all testified as to seeing Venus clear to the right and higher in the sky which fitted. Also one thing Venus does not drop down suddenly or appear in a different position to the right in the sky . As all witnesses were able to establish it was not Venus and the object was much larger by far than it by which they were able to compare it it was obvious that they could not be one and the same . Below is a sketch given by observers,

SIGHTINGS REPORTS FROM BALLARAT AREA.

BALLARAT COURIER 3/7/70.

MYSTERY OBJECT OVER CITY .. A Ballarat man claims he saw an unidentified flying object over Ballarat about 3.50p.m. on Tuesday (30.6.70)
 The man , who wishes to remain anonymous , was a train traveller near the airport. when he saw an object over the city area.
 There was a cloud of smoke and a silver object fell to the ground, it was visible for only a couple of seconds.
 A spokesman for the Field Air Ballarat Pty. Ltd. said yesterday that conditions were rough over Ballarat at that time and it was unlikely that any light aircraft would have been in the air. Police have no report of any UFO object .

BALLARAT COURIER 20/7/70

An UFO was sighted over Ballarat last night by an Elsworth St. resident. The object was sighted south-west of Ballarat at 8.15 p.m. and was visible for about two minutes. The resident claimed he had seen one before with a flashing light on its dome , but last night's object was oval in shape and was glowing blue in colour. An aircraft flew over later, but he did not know if it was a regular flight or perhaps the RAAF was carrying out an investigation.
 A motorist who had been travelling north in Geelong Rd. also reported that he had sighted an egg-shaped object in the sky at 8.15.p.m. "It appeared to be moving very quickly in the sky" he said .

.....

BALLARAT COURIER 23/7/70

A noise that sounded like a distant train was heard at Wallace, about 8.15.p.m Monday. the same time as a UFO was sighted over Ballarat by an Elsworth St. resident. The noise was heard by Mr and Mrs Gardener of Wallace.
 Mrs Gardener said that she had thought that it was a train at first, but it became louder and sounded like a low flying plane over her house. .

.....

"THE EXPRESS" GIPPSLAND. VIC. 10/6/70

ANOTHER UFO. ? Did you see the large bright light---" the size of a dinner plate" about 7.15 p.m. last Thursday night ? .
 Was it stationary and did it keep changing color, smoothly from orange to red to green and back to orange without blinking like aeroplane lights. ?
 This is what a Moe man and his family saw for a couple of minutes from Waterloo Road. , but the object had disappeared when he went inside to ring a neighbour some distance away over whose house it seemed to be.
 Wondering if he were seeing straight and if anyone else had seen the same thing, he rang the SEC , who passed the information on to a Morwell member of the War-ragul Space Phenomena Study Group. , who rang a Newborough member.
 This is the third report of unusual lights in the Moe- Yallourn area over the last three months. starting with the large one seen by three teenage girls (and others) over Nth. Newborough on March 4th. Then three teenage boys spotlighting at Yallourn North about 10.p.m. on April 11th watched red lights in a clear sky move from north to south above the hills , stop and change to white, then move north again , turning red. Two came singly, then about three together, all doing the same thing. They appeared to be several miles away and there was no noise. Aircraft in the area normally travel along an east -west line.
 Now this latest sighting WHAT'S GOING ON UP THERE.

.....
