From top to bottom, a series of three black and white photos of a daylight disc taken on June 5, 1955. The location was St. Marc, near Namur, Belgium. The photographer was Francois Myltermans, who used a Leica at f 1.8 and 17 DIN film. The photographs have appeared in at least 10 other UFO publications. The UFO is similar to one photographed in Hawaii in 1974. The vapor trail in the middle shot was made by the UFO.

DOCUMENTS : PART 2

The documents presented here are the uncensored ones printed in MUFON's UFO Journal, July, 1987.

In this issue we present part two of the series of documents sent to CUFORN by William L. Moore. We are grateful to him for giving us the chance to evaluate them.

The documents were originally obtained by Jaime Shandera, a Los Angeles television news and documentary producer. The CUFORN source is the Moore-Shandera-Friedman Research Project into U.S. Government UFO Policy. This project began in 1982. The documents on pages 7-10 arrived by mail in a plain brown wrapper at Shandera's home in December, 1984. The original research began when Moore got the first MJ-12 documents in 1981 (published in CUFORN's Bulletin, November-December, 1983).

We are reasonably certain that the documents in the present issue are authentic.

In early August, 1987, your editor spoke to Stanton Friedman prior to his participation in the taping of a CTV Television Network show, "Lifetime". He said it was impossible to bring in phoney documents on a visit to the National Archives in Washington. So Bill Moore cannot be suspected of doing that. Friedman, however, made no comment about the C.I.A. document.

As to the Robert Cutler memo (page 8, CUFORN Bulletin, May-June, 1987), Friedman said the reason it was unsigned is that the memos are typed, copies are made, and then only the original

is signed. This is a matter of standard U.S.A.F. office procedure. CUFORN still does not know why Bill Moore censored out parts of the documents he sent to us. We are printing the uncensored versions.

Those same portions were not blacked out when the same papers were sent to MUFON, who reprinted them in its July, 1987 MUFON UFO Journal. Bill Moore has yet to explain this to CUFORN.

The Truman memo to Forrestal will be shown on "Lifetime", on the CTV Television Network in Canada in late September, with the 28th as a tentative date.

UFOBITS

Ufologist Tracey Tormé is the scriptwriter for this year's "Star Trek" TV series. Tormé, who spoke recently to CUFORN's Harry Tokarz, also said that financial backing has been received for production of the movie "The Travis Walton Story".

Member Betty Dagenais has told CUFORN that CBC's "Man Alive" TV series producer David Cherniak visited Budd Hopkins in New York in August. Fifteen people were present at the time, including "Kathy", an abductee from the southern U.S.A.

Well-known ufologists Larry W. Bryant and Dennis Stacey are among the writers contributing articles to the second issue of the new American magazine, California UFO, published in Los Angeles.

SOURCE STATED THAT THE VEHICLE WAS SPOTTED ON TWO DIFFERENT OCCASIONS. THE FIRST WAS DURING THE MORNING HOURS OF 9 MAY 80, AND THE SECOND DURING THE EARLY EVENING HOURS OF 10 MAY 80.

~~(CUPORN)~~ SOURCE STATED THAT ON 9 MAY, WHILE A GROUP OF FAP OFFICERS WERE IN FORMATION AT MARIANO MALGAR, THEY SPOTTED A UFO THAT WAS ROUND IN SHAPE, HOVERING NEAR THE AIRFIELD. THE AIR COMMANDER SCRAMBLED AN SU-22 AIRCRAFT TO MAKE AN INTERCEPT. THE PILOT, ACCORDING TO A THIRD PARTY, INTERCEPTED THE VEHICLE AND FIRED UPON IT AT VERY CLOSE RANGE WITHOUT CAUSING ANY APPARENT DAMAGE. THE PILOT TRIED TO MAKE A SECOND PASS ON THE VEHICLE, BUT THE UFO OUT-RAN THE SU-22.

~~(CUPORN)~~ THE SECOND SIGHTING WAS DURING HOURS OF DARKNESS. THE VEHICLE WAS LIGHTED. AGAIN AN SU-22 WAS SCRAMBLED, BUT THE VEHICLE OUT-RAN THE AIRCRAFT.

LONDON (Reuter) — A British airline pilot says he had to take evasive action to avoid hitting a mystery object over the Soviet republic of Kazakhstan.

"It was definitely not an aircraft, of that I am positive," said Anthony Colin said in a letter in the Times.

The Times said an object with twinkling lights flew directly toward the jet before disappearing at high speed over the horizon.

MEMORANDUM FOR THE SECRETARY OF DEFENSE

Dear Secretary Forrestal:

As per our recent conversation on this matter, you are hereby authorized to proceed with all due speed and caution upon your undertaking. Hereafter this matter shall be referred to only as Operation Majestic Twelve.

It continues to be my feeling that any future considerations relative to the ultimate disposition of this matter should rest solely with the Office of the President following appropriate discussions with yourself, Dr. Bush and the Director of Central Intelligence.

SUBJECT: OPERATION MAJESTIC-12 PRELIMINARY BRIEFING FOR
PRESIDENT-ELECT EISENHOWER.

DOCUMENT PREPARED 18 NOVEMBER, 1952.

BRIEFING OFFICER: ADM. ROSCOE H. HILLENKOTTER (MJ-1)

NOTE: This document has been prepared as a preliminary briefing only. It should be regarded as introductory to a full operations briefing intended to follow.

OPERATION MAJESTIC-12 is a TOP SECRET Research and Development/Intelligence operation responsible directly and only to the President of the United States. Operations of the project are carried out under control of the Majestic-12 (Majic-12) Group which was established by special classified executive order of President Truman on 24 September, 1947, upon recommendation by Dr. Vannevar Bush and Secretary James Forrestal. (See Attachment "A"). Members of the Majestic-12 Group were designated as follows:

- Adm. Roscoe H. Hillenkoetter
- Dr. Vannevar Bush
- Secy. James V. Forrestal*
- Gen. Nathan F. Twining
- Gen. Hoyt S. Vandenberg
- Dr. Detlev Bronk
- Dr. Jerome Hunsaker
- Mr. Sidney W. Souers
- Mr. Gordon Gray
- Dr. Donald Hensel
- Gen. Robert H. Montague
- Dr. Lloyd V. Berkner

The death of Secretary Forrestal on 22 May, 1949, created a vacancy which remained unfilled until 01 August, 1950, upon which date Gen. Walter B. Smith was designated as permanent replacement.

On 24 June, 1947, a civilian pilot flying over the Cascade Mountains in the State of Washington observed nine flying disc-shaped aircraft traveling in formation at a high rate of speed. Although this was not the first known sighting of such objects, it was the first to gain widespread attention in the public media. Hundreds of reports of sightings of similar objects followed. Many of these came from highly credible military and civilian sources. These reports resulted in independent efforts by several different elements of the military to ascertain the nature and purpose of these objects in the interests of national defense. A number of witnesses were interviewed and there were several unsuccessful attempts to utilize aircraft in efforts to pursue reported discs in flight. Public reaction bordered on near hysteria at times.

In spite of these efforts, little of substance was learned about the objects until a local rancher reported that one had crashed in a remote region of New Mexico located approximately seventy-five miles northwest of Roswell Army Air Base (now Walker Field).

On 07 July, 1947, a secret operation was begun to assure recovery of the wreckage of this object for scientific study. During the course of this operation, aerial reconnaissance discovered that four small human-like beings had apparently ejected from the craft at some point before it exploded. These had fallen to earth about two miles east of the wreckage site. All four were dead and badly decomposed due to action by predators and exposure to the elements during the approximately one week time period which had elapsed before their discovery. A special scientific team took charge of removing these bodies for study. (See Attachment "C".) The wreckage of the craft was also removed to several different locations. (See Attachment "B".) Civilian and military witnesses in the area were debriefed, and news reporters were given the effective cover story that the object had been a misguided weather research balloon.

A covert analytical effort organized by Gen. Twining and Dr. Rush acting on the direct orders of the President, resulted in a preliminary consensus (19 September, 1947) that the disc was most likely a short range reconnaissance craft. This conclusion was based for the most part on the craft's size and the apparent lack of any identifiable provisioning. (See Attachment "D".) A similar analysis of the four dead occupants was arranged by Dr. Bronk. It was the tentative conclusion of this group (30 November, 1947) that although these creatures are human-like in appearance, the biological and evolutionary processes responsible for their development has apparently been quite different from those observed or postulated in homo-sapiens. Dr. Bronk's team has suggested the term "Extra-terrestrial Biological Entities", or "EBEs", be adopted as the standard term of reference for these creatures until such time as a more definitive designation can be agreed upon.

Since it is virtually certain that these craft do not originate in any country on earth, considerable speculation has centered around what their point of origin might be and how they got here. There was and remains a possibility, although some scientists, most notably Dr. Menzel, consider it more likely that we are dealing with beings from another solar system entirely.

Numerous examples of what appear to be a form of writing were found in the wreckage. Efforts to decipher these have remained largely unsuccessful. (See Attachment "E".) Equally unsuccessful have been efforts to determine the method of propulsion or the nature or method of transmission of the power source involved. Research along these lines has been complicated by the complete absence of identifiable wings, propellers, jets, or other conventional methods of propulsion and guidance, as well as a total lack of metallic wiring, vacuum tubes, or similar recognizable electronic components. (See Attachment "F".) It is assumed that the propulsion unit was completely destroyed by the explosion which caused the crash.

A need for as much additional information as possible about these craft, their performance characteristics and their purpose led to the undertaking known as U.S. Air Force Project SIGN in December, 1947. In order to preserve security, liaison between SIGN and Majestic-12 was limited to two individuals within the Intelligence Division of Air Materiel Command whose role was to pass along certain types of information through channels. SIGN evolved into Project GRUDGE in December, 1948. The operation is currently being conducted under the code name BLUE BOOK, with liaison maintained through the Air Force officer who is head of the project.

On 06 December, 1950, a second object, probably of similar origin, impacted the earth at high speed in the El Indio - Guerrero area of the Texas - Mexican border after following a long trajectory through the atmosphere. By the time a search team arrived, what remained of the object had been almost totally incinerated. Such material as could be recovered was transported to the A.S.C. facility at Sandia, New Mexico, for study.

Implications for the National Security are of continuing importance in that the motives and ultimate intentions of these visitors remain completely unknown. In addition, a significant upsurge in the surveillance activity of these craft beginning in May and continuing through the autumn of this year has caused considerable concern that new developments may be imminent. It is for these reasons, as well as the obvious international and technological considerations and the ultimate need to avoid a public panic at all costs, that the Majestic-12 Group remains of the unanimous opinion that imposition of the strictest security precautions should continue without interruption into the new administration. At the same time, contingency plan MJ-1949-04P/78 (Top Secret - Eyes Only) should be held in continued readiness should the need to make a public announcement present itself. (See Attachment "G".)
